MEANS MUCH FOR OREGON

CHICAGO, Oct. 10.—Chauncey M. Depew addressed an immense audience at the Auditorium today. He said in part: "We became masters of the Philippines, and have a harbor for our men-of-war and our merchant vessels at Manila within striking distance of China at a moment when that old empire is crumbling to pieces. The open market of Japan and the opening of the markets of China will absorb not only all the wheat grown upon the Pacific coast, but all it can possibly produce. Its markets will be so great for our steel rails, our machinery and electrical appliances and our agricultural implements that, with the merchant marine on the Pacific, Oregon, Washington and California will in a few years be among the richest and most productive states in the Union. The wheat of the Pacific Coast will go to the Orient instead of to Liverpool."

October 13 is Astoria day at the Portland exposition. Thomas Liville has succeeded in bagging one of the wildcats which lately have prowled around the chicken yards of residents on the hills. The wildcat came down from the woods for a chicken dinner. A gentleman living in that neighborhood recently found a wildcat in his backyard. He invited him into the house, but the cat did not accept the invitation. The nerve of these animals is exceeded only by their appetite for chickens.

County Judge Gray was present at the meeting of the Push Club last night and discussed the matter of county roads with the members. He expressed himself as being in favor of the improvement of highways, but said it was necessary to petition the court, as that body wished to be upheld in any such action as the assessment of a levy. The Push Club has never petitioned for anything, and for that reason the court had not taken action on the suggestion for a portable sawmill. This matter will come up at the next regular meeting of the court.

I earnestly request that you publicly designate by official proclamation, if possible, October 13 as "La Fayette Day" in the schools of your state, public and parochial, when a portion of the day be devoted to exercises appropriate to the occasion, and the story of our struggle for liberty told anew to our children.

CHICAGO GRIPMAN HAS A NOVEL EXPERIENCE.

Becomes Suddenly Inmate and Runs the Train Through the Principal Thoroughfares Without Accident.

CHICAGO, Oct. 10.—John B. Jessen, a gripman on the South State Street Cable line, became suddenly insane and while in that condition ran his train, loaded with passengers, from Twenty-second to Madison streets, a distance of over two miles, without accident.

When the train was ready to make its return trip Jessen's reason suddenly returned and he realized his condition, and fearing a return of the mania, he called a policeman and asked to be cared for. When taken to the police station Jessen was raving again, but became quiet after a time.

He has no recollection of bringing the car from Twenty-second street through the crowded business thoroughfares, and his responses to the conductor's signals were entirely mechanical.

Several days ago Jessen was struck on the head by the accidental releasing of a lever at the car barns and severely injured. This is supposed to be the cause of his insanity.
