Naval Officers chew Piper Heidsieck Plug Tobacco

during action or cruising—aboard ship, or ashore—on watch, or "below." It never loses its flavor in any climate, and is not affected by salt air.

An Admiral's chew!! Is any chew too good for you? CHAMPAGNE FLAVOR.

It is the habit of some to say that the matter of making Astoria (in lieu of Portland) the chief support of the Columbia basin is a "railroad proposition"...

As the Oregonian has lately shown, in a series of editorials of rare power, nothing can be a question of division of territory between railroads that affects the highest interests of a community...

So it is with the seaport problem. Astoria as the chief support, through an "open railway," means, by the laws of nature (through cheap ocean charters), millions of dollars added annually to the wealth of our citizens.

Why throw obstacles in the way of its development? Its own means are superior to all the apparatus of your laboratories...

At the time when Napoleon said this he was largely right. Physicians in those days dealt out obnoxious and drastic drugs that did violence to every fiber in the body...

Every monarch in Europe, with the exception of the sultan of Turkey, is descended from one of two sires—the daughters of Duke Ludwig Rodolf of Brunswick-Wolfenbuttel, who lived in the 13th century.

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out...

George Knox, who died in London recently, called himself the "last of the Rostocks." He spent a long life and a great fortune in looking for the philosopher's stone, the elixir of life and other myths of "the rosy cross."

Mr. Mardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. My children may get sick when we can't get the doctor quick enough. It's the medicine you sell for croup.'"

There is some talk of a tunnel underneath the straits of Gibraltar, and as it would have to be only 30 miles long, there is no reason why it should not be feasible, particularly as there is a bed of hard rock all the way.

Scallops, so much used as a fish and trimming for dresses, are illustrated again in a cloth gown with a skirt in three circular divisions, each one edged with a band of velvet covered with rows of stitching.

That the blood should perform its vital functions, it is absolutely necessary it should not only be pure but rich in life-giving elements. These results are best effected by the use of that well-known standard blood purifier, Ayer's Sarsaparilla.

For those who do not carry muffs, gauds of fur are worn to match the box or coat trimmings. This is a London fashion which will no doubt materialize here later on.
