AND NERVES

Greatest of all Spring Remedies -- Paine's Celery Compound.

It makes new blood, and new nerve tissues A few steps to any neighbor will tell you the plain truth about the amazing esults that have followed its use.

Paine's celery compound is so far above any other spring medicine in its strengthening, nerve-restoring, blood, making, health-giving, lasting effects that it has no competitor. The old "cures" one by one in the last few years have dropped by the way, until today the sales of Paine's celery compound in very civilized country are larger than those of all other spring remedies of all kinds combined.

Paine's celery compound is the one spring medicine endorsed by physicians because it is the only known remedy, that for all run-down conditions of the nerves, brain and tissues, and for purifying the blood (especially in the spring when the body is most amenable to improvement) has never yet failed! In the spring take Paine's celery compound.
