A REMARKABLE DEMONSTRATION.

The Liverpool Journal of Commerce for May 27, one of the Astorian's regular exchanges, and which reached us in regular course of mail yesterday, is notable for containing a column editorial on the remarkable growth of trade and shipping in the United States.

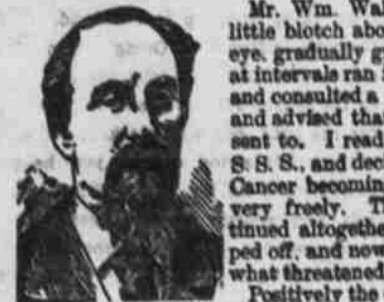

In the evening twilight of winter time, when the fire sparkles and glows and dances upon the hearth, there are dramas and air castles of the future in the flames for the young woman who sits and gazes into them.

"I never could love a man who couldn't say 'no' once in a while," Marjorie was saying. "Perhaps a man might once in a while," suggested Jack, "if you could ever say anything but 'no' to him."

"Oh, there are just as good fish in the sea, Clarisse," said the young man, bitterly. "Perhaps, Fred," laughed the little wretch, "but who ever heard of a poky o'd lobster catching fish?"

By allowing the accumulation in the bowels to remain, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowels. Try them and you will always use them, Charles Rogers.
