AFFAIRS IN PHILIPPINES

First Effort Being Made in Local Self Government.

THE COURTS ORGANIZED

American and Filipino Judges Sit in Joint Session and Employ Interpreter.

ULTIMATION TO BANTAYAN

Gunboat Albany Gives the Town Fifteen Days in Which to Hoist the American Flag.

MANILA, June 26, 1 p. m.—Senator Luis Maritan, the first Spanish consul general at the Philippine islands, has arrived here from Singapore on board the Isla de Luzon. Great interest is taken in the result of the first step, which is now being taken here, in the direction of self-government. The supreme court is sitting daily and American and Filipino judges are holding consultations through an interpreter. A unanimous vote is required for a decision. Major General O'Leary has persuaded Major Young, of the Utah battery, to remain on the court for a time, after the battery departs for America. Native justices are absent. Native judges will now begin to hold criminal courts, having jurisdiction over all offences except those committed by soldiers or against military authority. The United States transport Sherman has sailed for the island of Negros with the Sixth Infantry, which receives the California regiment.

The Bantayan correspondent of Noni-cro wires that the gunboat Albany appeared off Bantayan June 5 and her commander told the authorities of the town that unless they declared allegiance to the United States and raised the American flag, after 15 days, he would bombard the town. The Albany then sailed away announcing that she would return. The town, when the dispatch was forwarded, was panic stricken and it was thought, the authorities would probably comply with the demand of the commander of the gunboat.

HORRORS OF EDMONTON TRAIL—Two Men Drowned—Four Months to Travel 125 Miles.

DAWSON CITY, N. W. T., June 8, via Seattle, June 26.—Dr. J. R. Conolly, of Chicago; B. Wacher, of Brooklyn, N. Y.; David Hopkins, D. M. Dalgleish, U. P. Meem, of Ottawa; A. McLean, J. A. Orsini, J. B. Ruff, of Chicago, and A. E. Harris, of Michigan, have arrived here, after a long and hard trip over the Edmonton trail. They left Edmonton on December 15, 1897. Two of the party, John Beaurac and T. G. Orsini, were drowned in Peel river last summer. The party skidded across from Edmonton over Swan mountains, a distance of 60 miles, to Peace river, where they built boats and floated down to Great Slave lake, thence down the McKenzie to McPherson. Roping their boats up Peel river a distance of 200 miles they proceeded until December. They were four months going 125 miles.

TINPLATE WORKS TO CLOSE.

PITTSBURG, June 26.—All the tinplate works in the country will be closed at midnight, Friday, as a result of the failure to settle the wage scale conference in Chicago. Fully 50,000 persons will be thrown idle by the shut down. The workers' wage committee, acting under instructions received from the annual convention held in Detroit last month, made a demand for an advance of 30 per cent. The present wage scale expires June 30 and members of the Amalgamated Association are not permitted to work after that date unless a new scale is signed.

PRESIDENT LAYS A CORNER STONE

ADAMS, Mass., June 26.—President McKinley laid the corner stone of the new mill of the Berkshire Cotton Company here today. Owing to indisposition of Mrs. McKinley the party left for Washington tonight.

A GRACEFUL TRIBUTE.

SPOKANE, June 26.—By one graceful act the visiting Canadian editors this morning secured the admiration and friendship of every citizen of this city. On the flower-strewn casket of Elsie Monaghan, lying in state at the city hall,

and beside the red, white and blue of the United States, President Walter Scott of the Western Canada Press Association placed the red, white and blue of Canada, while his brother editors, with bowed heads, marched slowly by and paid mute respect to the dead hero. The visitors later in the day were given a reception.

TURNED INTO A SYNAGOGUE.

New York Presbyterian Church Sold to Jews—The Pastor Discouraged.

NEW YORK, June 26.—Rev. James Chambers, who has just resigned the pastorate of Calvary Presbyterian church, said in his farewell sermon that Presbyterianism was on the verge of a serious question in the city of New York. The church was beginning to be looked upon in the light of a paying investment. The paying church was getting more popular than the praying church. The people were too much inclined to subordinate the real aim. In order to provide for the districts that could not support a church he thought the Presbytery ought to raise a fund of at least \$50,000 to endow parishes. He believed something ought to be done to elevate the real purpose of the church and that the spiritual end should dictate its policy.

"We have gone through our experience here because there has not been sufficient constituency to maintain a Presbyterian organization," said Dr. Chambers, "the churches must go where the people are and stay there and save the people. I stated that this locality was inhabited almost entirely by people of another race. I want to say that a certain rabbi told me he could buy for his people 15 or 20 churches if a satisfactory price was arranged. At least five offers have been made for the property. When we send missionaries among the Jews we must put up the money. We cannot work among them any other way." Dr. Chambers said that it was with deep regret that he relinquished his pastorate. The church will be sold for \$100,000 for a synagogue, and the proceeds devoted to missionary work.

PROFESSOR MCGIFFERT'S CASE.

NEW YORK, June 26.—The New York Presbytery will meet today for the purpose of finishing left over business, but the case of Professor McGiffert will not be touched upon. The Presbytery at its last meeting, acting upon the message from the general assembly regarding Professor McGiffert's alleged heretical work, appointed a committee to investigate the charges and make a report thereon. This committee was instructed to report not later than the November meeting as nothing further will be done in the matter until the summer vacation. It is not likely that any developments will take place until then. The investigating body has not as yet met and as most of the members are now away from the city, it is understood that the inquiry will not begin until towards fall.

It is rumored that Dr. McGiffert, rather than face the notoriety of a trial for heresy, will leave the Presbyterian church and join the Congregational denomination.

Dr. Robert F. Sample, however, said he doubted if Professor McGiffert had any such intention.

"The professor," he said, "in his works as a historian and as I understand, did not advance those writings as being his own personal opinion. That which I think was made clear in his letter to the general assembly but of course until he appears before the commission it is impossible to say whether Dr. McGiffert's beliefs differ with the orthodox faith of the Presbyterian church."

Although the commission is stated to have been formed of strong conservative members, it is apparent from Dr. Sample's remarks that the examination will not be conducted in any prejudiced or impartial manner.

A BRAVE CONGRESSMAN.

CHICAGO, June 26.—A special to the Chronicle from Cape May, N. J., says Congressman Henry C. Loudenslager of New Jersey, chairman of the pension committee of the house, and W. H. Kirkpatrick, last evening heroically rescued Prof. Willis L. Moore, the chief of the U. S. weather service, and Philander Johnson, of Washington, from drowning. Near the two men were many bathers but Johnson and Moore got beyond their depth and were discovered in a dangerous predicament.

Loudenslager is a big athlete and bravely handled his men. The rescuers were heartily cheered by the crowd which quickly gathered.

KANSAS BOYS' HARD LUCK.

KANSAS CITY, Mo., June 26.—A special cablegram from the Star from Manila via Hongkong June 25 says: Captain Clark, Captain Watson, Lieutenant Ballard, and 200 sick and wounded from the Twentieth Kansas regiment have been sent home. Only 40 men are doing duty. These are on the firing line. Other members of the regiment are relieved from duty on account of sickness. The Kansas regiment's normal strength is about 1200 men. With 200 sick on their way home and 400 on the firing line, 550 are left among those "unfit for duty."

THE SHOW CONTINUES

The Kentucky Democratic Convention Keep Up the Row.

NO NOMINATIONS MADE

No Business of Any Kind Transacted Nor Permitted.

ONE CONTINUED RIOT

Most Disorderly Body of Men Ever Gathered Together in a Convention.

LOUISVILLE, June 26.—The continuous performance of the farce lasting eight hours, rare vocal entertainment with soloists and chorus of several hundred voices; declamations and the bare tests of lung power, made up the program of the sixth day's session of the democratic state convention and it narrowly escaped winding up in an exhibition of pugilism and gun fighting. From 10 o'clock until 6 o'clock today central Music hall convulsed, without doubt, the most uproarious and disorderly body of men that ever gathered for transaction of political or other business.

Angered by what they considered an arbitrary ruling of the chairman in refusing to allow an appeal from his decision, declaring out of order a motion to remove the policemen from the hall over half of the delegates set about with all the energy they could command to prevent any further business until they secured a vote on the appeal. This plan was successfully carried out until nearly 6 o'clock this evening when, principally because of utter physical exhaustion, the filibusters allowed themselves to be outwitted and a vote on the nomination for governor, which the chair had ordered early in the morning and had tried repeatedly to proceed with, was concluded by having the county chairmen, or as many as would come to the stage, and yell their votes at the clerk, who at a distance of a few inches, was able to catch the figures. Before they fairly realized that they were beaten the second ballot was reached. These two ballots, both of which were fruitless, represent the day's work of the convention. After they were completed, all were glad enough to adjourn until 10 o'clock tomorrow morning. Today it was clearly Gospel against the field.

A STRIKE THREATENED.

NEW YORK, June 26.—Twenty-five railroad firemen and brakemen connected with the Delaware, Lackawanna & Western railroad, held a secret meeting in Hoboken Sunday to consider the strike proposed along the line of the road. The men freely discussed the reported action taken at the conference held at Scranton several days ago. Most of those who spoke said they were in favor of arbitration, believing that their interests would be best promoted by conservative action. It was finally decided to postpone further consideration of the matter until a meeting could be brought about in which the engine drivers and all other employees of the road should be represented, as well as the brakemen and firemen.

THE MEN SAID AFTER THE MEETING

They were generally in favor of Governor Voorhees to take part in the matter and appoint a committee of arbitration, if he thought advisable to do so. At the next meeting steps will probably be taken to lay the matter before him and asked him to carry out the suggestion made at Sunday's meeting.

THE RECITAL.

Mr. Elmore Rice in his entertainment last evening at the M. T. church proved himself to be a thorough master of the violin, and his critical and appreciative hearers enjoyed a feast of music of the highest class. His rendition of the class

was faultless and among the numbers especially interesting were Hubenstein's Melodie in F and Beethoven's Romanza, F and G major. Mrs. Th. Olsen, as accompanist, added much to the charm of the occasion.

OF INTEREST TO ATHLETES.

CAMBRIDGE, Mass., June 26.—The report that the English athletes have started an investigation of the record of Burke as an amateur athlete have been received here only through the newspapers. Professor Ira Hollis, of the athletic committee, said:

"I have no official notification of any investigation. As I understand it our athletes are going over there under our rules of amateurism, while the Englishmen will have their own rules to guide them. Under our rules Burke is all right so far as I know. He came to Harvard after attending Boston university and started in the freshman class, doing regular work. The reports of any suspicious which the Englishmen may have probably arise from the fact that Burke has been a world's champion and has competed under many different colors.

"He went abroad with the athletic team that competed at Athens and has run on many other teams in this country. He was all right to compete at Yale and in New York, and I think if Yale could find no flaw the Englishmen are hardly likely to. Yale would find it if there was one."

LATE HAWAIIAN NEWS.

SAN FRANCISCO, June 26.—Hawaiian advice of June 15 state that the crew of the wrecked schooner Makulele, who were supposed to have been lost in a small skiff in which they started from Hanalei to Waimea, on the island of Kauai, have arrived safely in Honolulu. Their skiff was capsized and they were in the water for three hours before some natives came to their assistance. They were nearly dead when picked up. The report that the body of King Lunalilo has been stolen from the royal tomb is denied. When the vault was opened recently the remains were undisturbed.

THE SOUND BEATS PORTLAND.

TACOMA, June 26.—News received from Idaho is to the effect that the Northern Pacific railway has beaten the Oregon Railway & Navigation Company in the fight for the control of the Clearwater Valley. The Oregon Railway has withdrawn all its men from Idaho, devoting all its energies at present to its Wallula extension. The Northern Pacific now has 200 men working in Idaho. La Crosse Prairie, a great wheat producing section and the Buffalo Hump mining district are the objective points of the road.

INTERNATIONAL COUNCIL MEETS.

LONDON, June 26.—The international council of women opened today. The Countess of Aberdeen, president of the council, in her address, said that international arbitration should ever be placed foremost in its program, advocated the establishment of an international bureau of information regarding all that affects women and warned women against arrogating to themselves alone the duties of curing all evils.

FREIGHT HOUSE BURNS.

TOLEDO, O., June 26.—At 10 o'clock tonight fire broke out in the freighthouse of the Michigan Central. In a few minutes the whole structure was a solid mass of flames. The flames were driven across the bayou by the wind and one freighthouse of the Cincinnati, Hamilton & Dayton caught fire. One hundred freight cars, nearly all loaded, were destroyed. Loss is estimated at half a million dollars.

WOMEN'S BILL DEFEATED.

LONDON, June 26.—The house of lords today defeated the bill legalizing the election of women as councillors and aldermen. The vote stood 182 against and 88 in favor of the measure.

DON'T WANT BAIL.

WALLACE, Idaho, June 26.—The prisoners at Wardner today voted on the question of giving bail, decided by a vote of 31 to 4 not to give bail.

BACK FROM ALASKA.

SEATTLE, June 26.—John D. Rockefeller, the Standard Oil magnate, and party, arrived from Alaska today.

ANOTHER RUSSIAN PRINCESS.

ST. PETERSBURG, June 26.—The czarina gave birth to a daughter here this afternoon. She was named Maria.
