ELECTIONS THIS FALL.

The elections in November this year will do much to indicate the trend of public sentiment along the issues that are shaping up for more active field work in 1900. Eleven states will test the efficacy of the ballot box in settling the great problems of local government, as follows:

Iowa—Governor, state officers and legislature.

Kentucky—Governor and other state officers.

Maryland—Governor and both houses of the legislature.

Massachusetts—Governor, state officers and both houses of the legislature.

Mississippi—Governor, state officers and legislature.

Nebraska—Justices of the supreme court and two members of the board of regents of the state university.

New Jersey—Eight state senators and 60 members of the assembly.

New York—Two justices of the supreme court in the First judicial district, one justice in the Fifth district, three justices in the Eighth district and 150 members of the general assembly.

Ohio—Governor and all state officers.

Pennsylvania—State treasurer, two judges of the supreme court and one judge of the superior court.

Virginia—Secretary of state, treasurer and minor state officers and legislature.

In Iowa, Massachusetts, Ohio and Pensylvania republican success is assured in advance, while the democrats may look with equal confidence upon Mississippi and Virginia. Kentucky which is usually clasified as a democratic state, gave McKinley a plurality of 281 votes over Bryan in 1896, and in view of the feud which is being intensified by the democratic convention lately held at Louisville, may again go republican in November. Harmony on the part of the democrats this year might have saved Kentucky to that party next year. As matters now are it can be placed in the doubtful column.

McKinley's plurality of 32,232 in Maryland in 1896, out of a total vote of 241,341, indicates that his policy will doubtless be endorsed by that state in its forthcoming election, while New Jersey will follow suit. Aside from the election of 158 members of the general assembly, which for local reasons will be a mixed proposition, the contest in New York is of a judicial character, with little political significance. The same may be said of Nebraska. However, the general average of results will be interpreted as having a bearing on the great opening battle of the new century.

The new Oregon registration law will materially change the manner of holding elections. It will increase the duties of county clerks and be of considerable expense to the several counties. County clerks must have suitable register books. Between January 1, 1900, and May 15, 1900, every voter who expects to vote must either go to the county clerk's office and be registered or go before some justice of the peace or notary and register, and have such officer send his registration to the county clerk. On election day the judges have a precinct register into which the county clerk has copied the names of every elector in that precinct. When a man goes to vote the election judge looks at the register to see if the would-be voter has registered. After the election the precinct registers go back to the county seat with the returns. There is a general register of the whole county in each clerk's office.

The present year, 1899, or rather the number of the year, is in some respects unique. There has never been and never will be another year of which it can be said that the first two digits, i.e. 18, represent the sum of the two last digits, and that the sum of the first two digits, that is, 1 and 8, is the same as both the other digits. There are many years of which one or the other of these propositions is true, but there never was and never will be another year of which they are both true.

The yacht Columbia, which will defend the American cup, promises to outdo any of her predecessors. She is considerably faster than the yacht which sailed against Dunraven's flyer and could leave the original cup winner out of sight behind the Shamrock, has not been tested, but since the Columbia's performance there are no apprehensions about her.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway."

Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because *the blood can not be cut away.* Insist upon S. S. S.; nothing can take its place.

S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

A magnificent example of what care of health will do for a man is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" at eighty-six years of age, retained his intellectual vigor unabated, and had not lost the sinewy grip with which he fastened upon any subject that interested him.

Nearly every man has it in his power to live to a green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little out of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and are restless during the night, and find their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and possibly fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects that cause. It makes the appetite keen and hearty, the digestion perfect, the liver active and the blood pure and rich. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Piersel, of East Bethlehem, Washington Co., Pa., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The surface of Lake Superior is 602 feet above the ocean's level.

DEAFNESS CANNOT BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

By allowing the accumulation in the bowels to remain, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowels. Try them and you will always use them. Charles Rogers.

To remove paint from window glass, make a strong solution of potash, saturate the spot of paint with this and let it remain until nearly dry; then rub off with a woolen cloth.

Pneumonia, la grappe, coughs, colds, croup and whooping cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill—or the undertaker's. Charles Rogers.

The trying yellow spots so often left by sewing machine oil on white goods may be removed by rubbing the stain with a cloth wet with ammonia before washing with soap.

It makes no difference how bad the wound if you use DeWitt's Witch Hazel Salve; it will quickly heal and leave no scar. Charles Rogers.

Old "snuffers" in New York commonly use imported snuff boxes made of birch bark, the product of convict labor in German prisons.

The oldest artesian well in Europe is found at Lillers, France. From its mouth water has flowed uninterruptedly for 746 years.

Don't think you can cure that slight attack of dyspepsia by dieting, or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat," and restores the digestive organs to health. Charles Rogers.

Fifty-six years ago the block on which the Chicago postoffice now stands was sold at auction for $506. It is noow worth $5,000,000.

If you have piles, cure them. No use undergoing horrible operations that simply remove the results of the disease without disturbing the disease itself. Place your confidence in DeWitt's Witch Hazel Salve. It has never failed to cure others; it will not fail to cure you. Charles Rogers.

The amount of air that a man will inhale in twenty-four hours will fill seventy-eight hogsheads and weigh fifty-three pounds.

Some of the results of neglected dyspeptic conditions of the stomach are cancer, consumption, heart disease and epilepsy. Kodol Dyspepsia Cure prevents all this by effecting a quick cure in all cases of dyspepsia. Charles Rogers.
