WILL BE TAKEN HOME

Oregon Volunteers Will Be Returned by Water for Muster Out.

DETAILS OF THE TRIP

Transports Will Call at San Francisco but Troops Will Not Be Unloaded.

COLUMBIA BEATS DEFENDER

Latter Beaten by Three Minutes and Fifteen Seconds—The Columbia Fouts Defender.

SAN FRANCISCO, July 8.—General J. B. Babcock, adjutant general of the department of California, has received word that the Oregon volunteers will be mustered out in Oregon, according to the original plan.

The transports will enter this port, however, and may be delayed for some time according to the necessities for coaling and fresh supplies. The troops will not be unloaded from the transports. This is a disappointment to many of the citizens, who had hoped to honor and glorify the returning volunteers.

They will proceed north by water, probably on the same transports, although this has not been decided upon.

THE DEFENDER BEATEN.

Outsailed Fairly and Squarely Over a Twenty-six Mile Course.

NEW YORK, July 8.—At last the big ship yachts Columbia and Defender met in battle royal that has been satisfactory to all concerned.

In a strong and fairly steady breeze and smooth water, they sailed over a course of about 26 miles today and in covering that distance the Columbia fairly and squarely outsailed the Defender by three minutes and 15 seconds, the actual time. If the Columbia, after measurement, is found to allow the Defender two minutes, she will still have beaten her by one minute and 15 seconds.

COLUMBIA FOULS DEFENDER.

LARCHMONT, N. Y., July 8.—The Columbia fouled the Defender. The boom broke off, one-third of it falling. There is no prospect of any more racing until new parts can be had.

GOVERNOR ROGERS ON TRUSTS.

Believes They Can Be Controlled Only by National Legislation.

OLYMPIA, Wash., July 8.—Governor Rogers today gave out for publication a letter to Governor Sawyer, of Texas, in further explanation of his unwillingness to participate in the proposed convention on the subject of state control of trusts. He says: "The trust evil is to be made a political question; of this there can be no doubt. Under these circumstances I do not believe it wise for those who are opposed to the republican party to assist that party in its evident attempt to temporarily evade the issue by proposing state legislation as a remedy, knowing that this must prove in the end ineffective."

Governor Rogers takes issue with the contention that if the general government cannot regulate trusts different states can. Continuing, he says: "A great majority of trusts will, however, unquestionably be able to show to the satisfaction of the United States supreme court, at least, that by the use of large capital and improved methods they have reduced the cost of their production and are thus a benefit and not a detriment to the general public. That the greatest good to the greatest number has been secured."

Concluding, Governor Rogers says: "The trust problem is a new phase of the old fight of the almighty dollar and against Almighty God. The three mothers of trust are 'the money question, protective tariff and railroad rebates.' They are controllable only by national legislation."

ANGUS M. CANNON ARRESTED.

SALT LAKE, July 8.—A warrant was issued this afternoon from the county attorney's office for the arrest of President Angus M. Cannon, of Salt Lake, charging him with unlawful cohabitation. The complaint was sworn to by Charles M. Owen, local representative of the New York Journal.

The affidavit charges that about the

15th of April last Martha P. Hughes Cannon was delivered of an illegitimate child; that she is the plural wife of Angus M. Cannon, president of the Salt Lake Stake, of the church of Jesus Christ of Latter Day Saints and that Cannon is the father of said child, contrary to law.

ENGLISH OIL SEED TRADE AMALGAMATED.

John R. Bartlett Succeeds in Combining Over Sixty Per Cent of the Business—Competition Was Severe.

NEW YORK, July 8.—A dispatch to the Tribune from London says:

The complete success of John R. Bartlett's campaign in the English oil seed trade is assured. When he came to England five months ago the managers of the linseed and cotton seed crushing mills and refineries were competing sharply with one another and adopting no methods of self-preservation. He has drawn 50 per cent of this great trade into an amalgamated company. His plan of operations has been adopted by a majority of the trade, including all the strongest companies and firms. He has made contracts with 17 corporations and firms and purchased 25 mills and 12 oil refineries, with plant, business and good will.

The British oil and cake mills, limited, has been organized to carry into effect these agreements made by him and his brokers and conduct the business for the common advantage of the majority of the trade. The share, capital and debtors stock of the consolidated company is 1,250,000 pounds sterling, but 500,000 pounds sterling is reserved for future development of the business. The first issue, amounting to 1,750,000 pounds sterling, will be offered to the public next week; 1,450,000 pounds sterling has already been underwritten and the remainder will probably be covered in a few days.

The new company is neither a trust nor a monopoly, but simply one of many industrial amalgamations which are formed here as readily as in America. The promoters of the reorganization of the oil seed trade have been influenced by the increased severity of competition in the purchase of supplies and the distribution of products and have taken concerted action to secure what they consider a fair trading profit.

COMMISSION'S LABORS FINISHED.

WASHINGTON, July 8.—The Nicaragua canal commission has finished its present business in Washington, and the members have started to wind up their personal and professional business before starting for the field.

GOV. ROOSEVELT AT WASHINGTON

Called There by the President to Consult on Questions Affecting the Army.

WILL IGNORE POLITICS

President Confronted by Terrific Political Pressure—Merit Only Will Be Recognized.

WASHINGTON, July 8.—Governor Roosevelt, of New York, arrived here this afternoon upon the invitation of President McKinley. Governor Roosevelt dined at the White House and will remain there all night. His conference with the president related to army affairs entirely.

WILL IGNORE POLITICS. Recommendations Based on Efficiency Will Only Be Considered.

WASHINGTON, July 8.—Governor Roosevelt dictated the following address to the Associated Press:

"I have come to Washington at the request of the president to go over with him and the officers of the war department certain questions affecting the new volunteer army, particularly as regards the personnel of the officers. The president has told me that he wishes only recommendations based on the efficiency of the men recommended and that he will pay heed to no others. Most certainly I should give no others and I feel that the president's attitude in the face of the terrific political pressure to which he is confronted, and will be subjected, is such as to entitle him to the support of all men who feel that politics have no place in the army, who feel that it is in a peculiar sense the property of the whole country and that in giving commissions and promotions alike, absolutely no consideration should enter outside of merit of the soldiers."

TOD SLOAN SUCCESSFUL.

LONDON, July 8.—Lorillard's Jouvence, ridden by Tod Sloan, won the great final plate of 1000 sovereigns at Long Field today.

GREAT RUSH TO LONDON

Steamship Companies Unable to Handle Crowds Flocking to the Metropolis.

SHIPS ORDERED BUILT

Preparations Being Made to Cope With the Rush—Crowds of Americans.

ARMS FOR THE TRANSVAAL

German Steamer Sails From Naples With War Material—Athletes Coming to Astoria.

LONDON, July 8.—Copyrighted, 1899, by the Associated Press.—When Joseph Chamberlain, United States ambassador, declared at a banquet here July 4 that the presence of 100 American ladies at the reception held at the embassy during the afternoon, was the most impressive evidence he had yet received in regard to the importance of the ambassadorship to the court of St. James, he gave only a faint idea of the crowds of Americans now in London.

So great is the rush that the steamship companies admit their inability to cope with it. All trans-Atlantic companies have ordered from one to four new ships, but it is impossible for many of these to be ready in 1900.

ARMS FOR THE TRANSVAAL.

LONDON, July 8.—A special dispatch from Rome says the German steamer Reichstag has sailed from Naples with 15,000 rifles, 500 tons of war material, and 500 mules for the Transvaal. Another steamer with a similar cargo will sail July 14 from Arenas.

ATHLETES COMING TO ASTORIA.

SEATTLE, July 8.—At a special meeting of the Pacific Northwest association, held here tonight, it was decided to hold the fall championship games at Astoria, Oregon, August 12.

IMPOSED ON THE GOVERNOR.

FRANKFORT, Ky., July 8.—Later dispatches from London, Laurel county, to Governor Bradley state that the reports concerning the Clay county trouble have been greatly exaggerated by "faking" correspondents and others at that point and on the strength of later information the governor has countermanded the orders to the state troops which were in readiness to leave for the seat of trouble. Judge Robert Boyd, Editor F. Dyche and R. M. Jackson, of London, made a personal investigation of the rumors sent out from Manchester and they telegraphed the governor that James Stubbinsfield, a deputy sheriff, had been shot by persons who have been discontinued from the Baker-White feud. The fraud has been worked off on Governor Bradley for a second time and entails an expense of several thousand dollars on the state on account of calling out troops.

BRITISH CABLE FOR SAMOA.

SAN FRANCISCO, July 8.—The British survey steamer Egeria has arrived from Esquimalt, B. C. The English and Canadian governments are to establish a cable between British Columbia and Australia, which will touch at Samoa and Hawaii. The Egeria is now engaged in the work of surveying the route. She will go from here to Honolulu, taking soundings on the way, and after coaling there will proceed to Apia. From Apia the soundings will be taken to the nearest point on the Australian continent.

WHEELER'S CAVALRY BOOK.

ATLANTA, Ga., July 8.—General Joseph Wheeler has written a book on the operations of his cavalry during the civil war and it will be published for the benefit of the Wheeler cavalry camps throughout the south. At a meeting of Wheeler's cavalry, camp A, a letter was read from the Alabamian in which he stated that he had compiled a lot of notes after the war which had never been

printed. The manuscript will be here tomorrow and the book will be published at once by an Atlanta firm. A resolution was unanimously adopted thanking "American" Knauus, of Columbus, O., for the care taken of Confederate graves in that city.

TO PURCHASE AMMUNITION.

NEW YORK, July 8.—A special dispatch to the Herald from Washington says: Steps will soon be taken by Rear Admiral O'Neil, chief of ordnance, to establish a reserve supply of ammunition for the navy. He has not decided how much powder and how many shells shall be purchased, but it is understood that the entire appropriation of \$500,000 will be used, though some of the smokeless powder may be manufactured at the government factory being established at Indian Head. Besides ammunition the department has \$250,000 for the purchase of reserve guns for auxiliary cruisers and contracts for these weapons will soon be placed.

MICHIGAN BANK FAILURE.

WASHINGTON, July 8.—The Citizen's National bank, of Niles, Mich., was closed today by National Bank Examiner Seddon, who was appointed temporary receiver. The cause of the failure is poor loans which have been made to meet which the controller levied an assessment upon the capital stock of the bank. The stockholders failed to meet this assessment and a receiver was appointed. The last statement of the bank showed loans and discounts amounting to \$209,200; surplus, \$10,000; capital, \$50,000.

MAJOR HESS ASSUMES COMMAND.

VANCOUVER, Wash., July 8.—Major Hess, Third artillery, arrived from Fort Canby, Wash., today, to assume command of Vancouver barracks until the arrival of Major A. C. Markley, Twenty-fourth infantry, from Fort Russell. Captain Charles G. Morton, Sixth infantry, has arrived and is announced as chief mustering officer of the department of the Columbia for muster-out of such volunteers returning from the Philippines as may be ordered to this post for that purpose.

THE AMERICAN WINS.

LAKE FOREST, Ill., July 8.—Herbert M. Harriman, of the Meadowbrook Golf club, Hempstead, L. I., today won the amateur golf championship of America from Findlay S. Douglas. For the first time since amateur golf championship tournaments have been held in the United States the American born golfer holds championship.

MODERN HOTEL BADLY NEEDED IN ASTORIA.

Present Accommodations Are Insufficient for Visitors—Natural Beauty of This Section Unsurpassed in the World.

ASTORIA, July 8.—Editor Astorian: The advent of the visiting editors to this city ought to be food for reflection for our people to awake from their Rip Van Winkle sleep and build a modern hotel and then instead of occasionally entertaining a crowd of such character once in a term of years and once a year during our regatta, have a consourse of people several times a year. Our opportunities for entertaining and interesting interior people are simply immense, our climate, superior, and with a modern hotel we could make this an ideal convention town. Looking at this proposition from a business point of view, supposing we would have had this crowd of say 500 persons with us for four days, think of the amount of money that would have been left among us. We have a grand river, a grand ocean, a grand beach, and the different views that can be obtained from our hills cannot be surpassed in the world. Nature has done all she possibly can do for us, except to build a hotel, and as she has overlooked it, let us get in and rectify the mistake, and we will have a class of people coming to this town that never think of putting Astoria on their list when making out their itinerary. With a modern hotel Astoria will be the center of the seaside business from whence excursions would be made to our various beaches. After Santa Cruz, Cal., with her tanneries and her lumber business, she turned her attention to her attractions that are identical with our own. The result is she has an immense income from her summer visitors. All annual encampments, conventions, etc., go to Santa Cruz, and when the citizens of that place are called upon to chip in to raise a fund for the entertainment of visitors they do it with alacrity.
