THE STRIKE REVIVES

A Car Stopped by Rioters and
Conductor and Motorman
Painfully Hurt.

A BOY SHOT IN THE LEG

By a Non-Union Conductor, but
Shooting Thought to Have
Been Accidental.

RIOTS WILL BE SUPPRESSED

Declares Mayor Farley. Even if He
Has to Call Out the Entire Na-
tional Guard of Ohio.

CLEVELAND, July 26.—The storm-
center of the street railroad strike has,
according to the authorities, settled in a
Brooklyn suburb connected with Cleve-
land by a long, high bridge. At noon
120 employes of the Horn Street Range
Company blockaded a car on the bridge
and dragged the motorman and conductor
from their posts, inflicting with their
fists and other weapons, injuries more
painful than serious. The soldiers on
guard at the barn hurried to the scene
but the rioters disappeared.

General Axline, in command of the
troops here, in order to personally view
the situation, took a ride today on the
Orange street car. He was in civilian
dress, and the car was stopped at various
intervals all along the route.

Mayor Farley declared that he would
suppress violence if he had to call out
the entire National Guard of Ohio.

A boy was shot today by a non-union
conductor, but whether or not the bullet
was an accidental one, the police have
not yet determined.

Frank Wright, a 12-year-old boy, was
sitting on the front porch of his home
when an electric car came along. The
conductor, who stood on the front plat-
form, carried a revolver in his hand.
Suddenly it was discharged, and the bul-
let entered young Wright's leg, just be-
low the groin.

SHUTTLE'S SHARE IN
THE PHILIPPINE KLONDIKE

Transports Preparing to Load Troops
and Supplies to Reinforce Ochs.

SEATTLE, July 26.—According to the
latest advices received by Captain W.
W. Robinson, Jr., of the quartermaster
department, August 10 is the date set
for the arrival in Seattle of the Third
cavalry. How long they will remain here
will depend to a great extent upon the
arrival of the transports and how soon
they can be gotten into condition, but the
date will in all probability be after Au-
gust 20. The Athenian, it is expected,
from advices received late yesterday, will
come into port late this evening. The
Albert is now at Victoria and it is
thought will reach here about the same
time as the Athenian.

Regarding the Victoria nothing has
been heard since the advice stating she
would arrive here about August 1. Noth-
ing is known about the Hancock, but the
department is led to believe that she will
arrive in San Francisco about August 1
of the entire fleet the Garonne is here at
the present time. Work on changing her
is being pushed forward as rapidly as
possible. Workmen are now engaged in
tearing out a greater portion of her sec-
ond cabin appointments and placing in
their stead fine stiffs, each suited for
the accommodation of one horse. Beside
the box stalls to be built the stock
transports each will be supplied with
electric lighting apparatus. A large con-
densing plant to supply fresh water will
be put in, together with ulge tanks. The
work throughout will be complete and
will furnish every convenience for the
stock in transit.

Woodland park is being prepared as a
camp for the men and horses and every
precaution is being made to insure their
health and comfort.

Late yesterday afternoon Captain Rob-
inson received advices from the owners
of several big docks, offering the gov-
ernment the free use of them for the
fitting out of the transports.

VANDEBILT LINE IMPROBABLE

It Says Harry Villard, in Speaking of
the Proposed Harriman-Vanderbilt
Transcontinental Line.

SEATTLE, July 26.—Harry Villard, the
well known railroad magnate, does not
take much stock in the rumored Harri-
man-Vanderbilt transcontinental line. He
said today: "It is not practical and
there are many legal and business com-
plications that would hinder it. I do not
believe it will ever appear."

PERKINS ON ALASKAN BOUNDARY.

SEATTLE, July 26.—United States Sen-
ator George C. Perkins, who returned
here today from a trip to Alaska, thinks
there is nothing to arbitrate in connec-
tion with the Alaskan boundary. He
said: "It would certainly be just as rea-
sonable for us to insist on taking up
the boundary question between the Uni-
ted States and Canada again and de-
clare our dissatisfaction with the 69th
degree of latitude. England long ago
recognized the boundary for which we
are contending. She did this when the
Hudson Bay Company, which at that
time was practically Canada, executed
a 10-year lease of territory from Russia,
for which she is now contending. She
leased it from Russia and renewed the
lease for a second 10 years. What better
proof could we ask of Great Britain's
attitude as outlined in that contract?"

"The Portland canal is ours, and we
should see that the line is extended along
the summit as long as the range does
not lie to exceed 10 marine leagues from
the sea."

MR. KASSON'S GOOD WORK

The New Reciprocity Tariff With
France Very Favorable to
Unites States.

WILL BOOM MANUFACTURES

Many Valuable Concessions Granted
Which Were Refused European
Countries.

NEW YORK, July 26.—Edmund Brus-
well, French consul at New York, says
of the new reciprocity treaty between
France and the United States:

"I regard it as an excellent thing for
the United States. America was the only
country which did not have the benefit
of our minimum tariff. As the manufac-
turers abroad are satisfied with a pro-
fit of 5 per cent, the difference between
the maximum and minimum rates was
sufficient to keep the United States out
of the French market.

"France's annual importation of manu-
factured articles is about \$20,000,000 and
the United States will get a good share
of this. America undersees England in
cotton goods in China, and there is no
reason why it can't do the same in
France. It will be the same with other
articles.

"England, Belgium, Germany and Aus-
tria now supply France with her im-
ported manufactured articles. The lead-
ing imports are raw cotton, wheat, to-
bacco, mineral oil, copper and lead.
America sends agricultural implements,
sowing machines, electrical appliances
and pumps.

"There are 64 articles on the dutiable
list of the French tariff and the treaty
gives the United States the minimum rate
on all except 12. Germany, England
and the other countries which have
treaties with France do not enjoy the
minimum rates on these 12 exceptions,
which are chiefly agricultural products.
The average difference between the
maximum and minimum rate is 33 per
cent so that imports from this country
will pay one-third less duty when the
treaty goes into effect.

"There are 48 dutiable items in the
tariff law of the United States and in re-
turn for her concessions France will ob-
tain a lower rate on less than 100 of them,
the average reduction being only 10 per
cent. While this seems one sided, it is
not so much so as it appears, because
American goods have been sent into
France as English goods under the mini-
mum tariff.

"I do not think the treaty can go into
effect before next February. It must be
ratified both here and in France and

MINERS ARE INDIGNANT

They Sign a Protest Against
the Action of United
States Troops.

INJUSTICE IS SHOWN

By the Soldiers to Aid a Mining
Combination to Gobble Valu-
able Property.

PRESIDENT HEUREAUX KILLED

Falls a Victim to the Knife of an As-
sassin Who Succeeds in Mak-
ing Good His Escape.

SEATTLE, July 26.—Advices received
today on the steamer Elsin Thompson,
from St. Michael, indicate that the min-
ers of Cape Nome and Arvyl City are
wrought up to a high pitch on account
of the action of United States Com-
mander Sheppard, backed by the United
States soldiers.

A miners' meeting of nearly 1000 men
was dispersed on the night of the 10th of
July by a lieutenant and squad of sol-
diers on the ground that they were not
property owners.

The meeting had been called regularly,
after three days' notice, to protest
against the practice that has been fol-
lowed in locating claims. Miners de-
clared that a clique or ring has been
formed to gobble up all good properties
in the country. It is charged by the
miners who came on the Thompson today
that the machinery of the federal gov-
ernment on the Yukon has turned to
these illegal practices. They say that
some of the Laplanders who were sent
up there under a five year contract by
the government have been naturalized
and claims staked in their names. Even
reindeer, which these Laplanders were
hired to take care of, have been used
for marking stakes into the country to
mark claim boundaries for members of
the ring.

Miners are signing a protest which is
to be forwarded, one copy to Sitka to
the federal authorities, and another copy
to Washington. The protest alleges that
officials at St. Michael are deducting the
affairs of the government to their own
selfish ends.

ANOTHER OUTBREAK IN THE NEGRO REPUBLIC.

President Heureauux Assassinated Yester-
day Afternoon.

FORT DE FRANCE, Martinique, July
26.—General Ulises Heureaux, president
of the San Domingo republic, was as-
sassinated at Moca, Santo Domingo, at
1:30 o'clock today.

The name of the murderer is Ramon
Caceres. He succeeded in making his
escape.

Vice-president General Wenceslao Pi-
guero immediately upon the announce-
ment of the president's assassination, as-
sumed the direction of affairs.

At present calmness prevails in the re-
public.

HOSPITAL SHIP RELIEF DUE

SAN FRANCISCO, July 26.—The next
vessel due from the Philippines is the
hospital ship Relief, which is now ex-
pected at any time. The whole of the
military department will unite in hon-
oring the Nebraskans when the Relief ar-
rives, as the Oregonians were honored.
The Oregon regiment will also join in
the demonstration. This demonstration
will be the first of a series for the state
officials. Mayor Phelan today decided
that hereafter all vessels bearing return-

ing troops should be met down the bay
and given a royal welcome home.

General Shaffer, acting on the advice
of General Ochs, has decided that no more
women and children shall be allowed to
go to Manila.

SENATOR STEWART'S AMENDMENT.

WASHINGTON, July 26.—Senator
Stewart, of Nevada, said today that in
order to obviate the apparent necessity
of amendment to the constitution to in-
sure at all times a full representation of
states in the United States senate, at
their next meeting of congress, he would
offer relief by legislation, which the sen-
ator says, may prove satisfactory. He
proposes that the following paragraph be
added at the end of section 15, title 2,
chapter 1 of the revised statutes: "If on
the third Tuesday after the organization
of the legislature no person has received
such majority, then on that day or any
succeeding day the person receiving a
plurality of the votes cast, a majority of
all members elected to both houses being
present, and voting, shall be declared
elected."

This, he believes, will meet the neces-
sities of the case and insure election of
a United States senator in every state
at the time specified by law.

COLONEL INGERSOLL'S REMAINS

NEW YORK, July 26.—Walton, the
beautiful home at Dobbs Ferry, where
Robert G. Ingersoll died, was a quiet
place today. The body of the dead ag-
nostic lay on his flower-covered bier.
Only the widow and daughters sat near,
all others kept away.

Three hundred letters were received
today from all over the country.

Colonel Ingersoll's body will be cremat-
ed tomorrow. The interment will be
strictly private. The funeral party will
wait during the hours while the body is
being contained to take the ashes back
with them. Mrs. Ingersoll is determined
that the ashes shall not be away from
her a single moment.

MYSTERIOUS POISONING.

LONDON, July 26.—Much excitement
has been caused here by the mysterious
poisoning of a score of guests at the
Irms of the court hotel, which it is
alleged was due to American canned
fruit. The second victim, J. A. Bartlett,
of Philadelphia, died during last night.
The fruit was eaten a week ago, and
all who partook of it were made ill, one
of the members dying July 21.

JAPANESE MUST GO.

SEATTLE, July 26.—The Great North-
ern Railway Company will, it is stated,
discharge all its Japanese section gangs
and employ white men in their stead
within the next 60 days. Incompetency
is given by the company as the cause, but
in some quarters it is said that it is
in recognition of the indirect demands of
the Montana labor unions.

THE TRIAL CLOSED.

WALLACE, Idaho, July 26.—The trial
of Paul Connor on the charge of mur-
dering James Cheyne at Wardner on
April 29 closed tonight and the case was
given to the jury.

DREYFUS'S SERIOUSLY ILL.

PARIS, July 26.—Peit Journal says
Captain Dreyfus is ill with a fever, and
his condition is serious.

STILL MORE COUNTERFEITING.

The secret service has unearthed an-
other band of counterfeiters and secured
a large quantity of bogus bills, which are
so cleverly executed that the average
person would never suspect them of
being spurious. Things of great value
are always secured by counterfeiters
for imitation, notably the celebrated
Hostetter's Stomach Bitters, which has
many imitators but no equals for indi-
cation, dyspepsia, constipation, nervous-
ness and general debility. The Bitters
set things right in the stomach, and
when the stomach is in good order it
makes good blood and plenty of it. In
this manner the Bitters get at the seat
of strength and vitality, and restore
vigor to the weak and debilitated. Be-
ware of counterfeiters when buying.

It often means three tickets when only
two are taken to the theater. It is urged
to suggest the nature of the third.
