## SENATOR QUAY IS APPLAUDED

### Republican Convention at Harrisburg Endorse Him.

### ADDRESS BY PENROSE

### Policy of Industrial, Commercial and National Expansion Favored—Administration Endorsed.

HARRISBURG, Pa., Aug. 24.—The republican state convention today nominated Colonel James Harnet, of the Tenth regiment, for state treasurer; J. Hay Brown, of Lancaster, for supreme judge, and Josiah Adams, of Philadelphia, for superior court judge. The nomination for supreme judge is equivalent to election by reason of two vacancies, and no elector being entitled a vote for more than one person. The platform endorses the administration of McKinley and Governor Stone, commends the executive for his appointment of Quay to the United States senate and pledges the party to reduction in expenditures of the departments of state government.

A demonstration was given Senator Quay when he entered the hall accompanied by State Chairman Elkin. The convention was called to order by Chairman Elkin and Senator Penrose was elected temporary chairman. He spoke as follows:

"Gentlemen of the convention: I shall not delay your proceedings by any extended remarks, but feel compelled to congratulate you upon the glorious position which the republican party occupies today in this state and the nation at large. There has been no period in our history marked with such an abundance of prosperity as that which blesses the American people at this time. So enormous and varied are the activities which control all the industrial and commercial channels of the country that it is difficult to realize that only three short years ago all the country's commerce was in a state of most discouraging depression.

To remove the blighting evils of the time was the promise and purpose of the republican party. How well that promise and purpose have been fulfilled under a republican administration every citizen in this country may learn at his own door. Progress in this great feature of the industrial field has been so prodigious as to almost be revolutionary. Production has been carried to an extent which in former years would have resulted in such overabundance that collapse would have been inevitable, but now even with the thousands of mills pressed to their utmost, the demand exceeds the supply and orders are booked so far ahead, both of foreign and domestic trade, that there can be no doubt of long-continued prosperity.

"During the recent period of republican supremacy the great agricultural classes have been blessed with abundant crops. These have been marketed at prices which not only enable the farmer to live comfortably, but to recover from the disasters of previous years. But the most significant instance is found in the state of Nebraska, where, from 1892 to 1898, there was no year in which the mortgages released, while during 1897 and 1898 the mortgages released exceeded the mortgages fled from 25 to 32 per cent.

"The declaration made in 1894 by the people of the United States in behalf of the unquestionable money standard gave such assurance of stable conditions that the present season of high activity could be said to date from that eventful day. We may not doubt that these blessings will continue so long as the governmental affairs are entrusted to those who have achieved the revival of trade and commerce and who stand unflinchingly in support of the public faith, the public credit and the absolute integrity of our financial circumstantial institutions.

"The operation of the Dingley tariff after recovery from the abnormally heavy importations made in anticipation of its passage has been satisfactory in the extreme.

"Notwithstanding the enormous expense of a foreign war, the national treasury today is in a stronger position than ever before. Owing to the magnificent support which the people of the United States gave to the war loan of 1898, the cost of the war has been borne without injury to the national finances. In fact, if anything relating to this subject is more prominent than another it is that the war furnished a potent means of demonstrating her manufacturing importance and resources and the great revenue-producing powers.

"The war with Spain imposed grave and unexpected responsibilities upon the republican party. That the party fully met the expectations of a patriotic people and possesses today their unbounded confidence is recognized by all. No one familiar with the situation doubts that in a short period from the present time the insurrection in the Philippines will be put down and peace and order under American authority will be established there. The new issues confronting the country as the result of the war will be courageously met and will be solved

by the republican party in a spirit of justice and patriotism.

"Our possession of the Philippines in an assurance that the growing supremacy of the United States commerce in the far East will be promoted and protected. We will uphold the honor of the flag there, notwithstanding the carping and misrepresentation and the narrow minded fanaticism of our democratic opponents in their tirades against the bugaboo they are pleased to term 'imperialism.' We demand the rapid building up of a navy adequate to maintain our proud position. We demand the extension and development of our merchant marine under requisite congressional legislation, so that the transportation of American products and manufactures may be controlled by our own people under the protection of the American flag."

In closing his speech Senator Penrose referred to the coming national convention and urged "the supreme importance of sending to that convention delegates who will give an active and stalwart support to the renomination of Hon. William McKinley," and adding:

"He ranks with the great presidents of the republic. He is respected, esteemed and beloved by the people all over our state. He has the unbounded confidence of the people of the country, irrespective of party, believing as they do in his integrity, patriotism and statesmanship. It has been most fortunate for our country that he has been at the head of the government in the trying times of the past two years. Few will realize the enormous burdens which have been imposed on him, taxing almost to the limit his mental and physical energies. In all the delicate questions of diplomacy arising during the war he has been the guiding spirit.

"We look confidently forward to his triumphant election and we feel sure that with a renewed lease of republican supremacy and control in the nation, our wonderful prosperity will continue with rapid strides and our country will advance fearlessly upon the glorious destiny which seems to be marked out for it."

The platform says:

"We have ceased to be content with supplying products for home consumption alone. We must keep pace with other nations in seeking new fields for our commerce, and to this end we support a policy of industrial, commercial and national expansion." A plank in the platform, endorsing the appointment of Senator Quay by Governor Stone, was opposed in a speech by State Senator Flynn, but the platform as submitted was adopted by the convention, 152 yeas to 49 noes.

### MONEY NECESSARY TO MAINTAIN THE ARMY.

Last Congress Appropriated Eighty Million Dollars, which is Inadequate—Bond Issue.

NEW YORK, 24.—A special to the Times from Washington, says: The Fifty-fifth congress appropriated for the maintenance of the army, including all expenses, except those for the construction of fortifications about \$80,000,000.

It had authorized the president to raise an army of 100,000 men and it was supposed to be allowing the use of enough money to keep those men in the field, as it could not be assumed that the force would be unnecessary.

If the war department were to regulate its expenditures to the sum appropriated by congress, it would spend for the army about \$4,500,000 a month. Two months of the fiscal year have almost passed and in those two months the army has cost more than \$21,000,000. At that rate the appropriation for the army will not last until December. Some of the money, it is explained, is going out to meet contracts entered into last year and the average expenditure will be smaller after a month or two. But it will have to be much less if \$80,000,000 is to last until a deficiency bill can be passed.

Secretary Gage was asked whether he thought it would be necessary to sell bonds to provide money with which to maintain the army. He replied that he thought not.

If congress had authorized the expenditure of more than \$80,000,000 for the army in the fiscal year, it is the treasurer's opinion that the income from the customs and the internal revenue would be sufficient to meet every demand, but the trouble appears to be not the difficulty about raising money, but the authority to spend it.

The estimate submitted to congress for the army asked for \$14,000,000 for the year, on the assumption that 100,000 men would be allowed to be maintained in the army. The cutting off of the \$84,000,000 seems to have been judged for if the expenditures continue as they have done in July and August, the appropriation will not be half enough.

But the treasury will not sell bonds to remedy the matter. The only remedy will be the consent of congress that more than \$80,000,000 may be expended.

### WILL NOT MEET DEWEY.

NEW YORK, Aug. 24.—Rear-Admiral Sampson's fleet will not meet Admiral Dewey when the hero of Manila comes with the Olympia to be the guest of New York and the nation. Instead the admiral will come into port unattended, and then the rear-admiral, going from his anchored flagship to the Olympia, will extend to Admiral Dewey a welcome on behalf of the navy department and pay his own respects. These facts were made very plain to the Dewey reception committee's plan and scope committee by Rear-Admiral John W.

Phillip, and Captain Robley D. Evans, and it also was plainly stated that Rear-Admiral Sampson did not approve of the committee's plan which provided that warships should go to sea and escort the Olympia in.

Sampson's fleet will assemble, according to the new programme, at Tompkinsville "in ample time to welcome Admiral Dewey."

### GIVES UP THE FIGHT.

PORTLAND, Aug. 24.—John C. Young, of Baker City, formerly chairman of the populist state central committee was here today. He is now engaged in mining and says he is out of politics.

"Do I think the populists of Oregon will come up smiling next year? I don't know what they will do. I am plumb out of it. I am not even in the ranks. I don't know that there will be any ranks. I don't think there is any use opposing the republican party and I don't believe Bryan will stand a ghost of a show. In fact I don't think Bryan will be nominated. The free silver cause is dead."

### FRASER RIVER SEASON ENDS.

VANCOUVER, B. C., Aug. 24.—The salmon fishing season of 1899 has drawn to a close. The year has been an exceptionally profitable one for the fishermen, if not quite so profitable for the cannerymen. The average earnings has been about \$200 to each man. There were about 5,000 men engaged. The entire pack of the Fraser river has been estimated at 400,000 cases.

### BIG ALASKA GOLD SHIPMENT.

SAN FRANCISCO, Aug. 24.—The steamer Portland arrived this evening from Unalaska with 60 returning prospectors and \$1,500,000 in gold, consigned to the Alaska Commercial Company. The bulk of the treasure is from the Cape Nome district.

### LOG RAFT TO LEAVE.

SEATTLE, Aug. 24.—The big Robinson log raft will be started to San Francisco tomorrow in tow of the steamer Cairina.

### STILL MORE COUNTERFEITING.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equal for indigestion, dyspepsia, constipation, nervousness and general debility. The bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

There are 500,000 goats in the United States, 250,000 in the West Indies (where goat mutton is extensively used), 15,000 in England, and 4,500,000 in Spain.

### An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

## A MOTHER TELLS HOW SHE SAVED HER LITTLE DAUGHTER'S LIFE.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. George F. Burdick, Liberty, R. I. For sale by Charles Rogers.
