

## BOARDMAN TRADING CO.

"West Extension Supply Store"

Our line is now complete for the Farmer. We have:

Groceries  
Drygoods  
Shoes  
Hardware  
Implements  
Tires  
Feed

When they ask where you got it, SAY

**Boardman Trading Co.**  
"WEST EXTENSION SUPPLY STORE"

## GLASSWARE

We are headquarters for glassware, whether you want the inexpensive table glass at 90c a dozen or the better kind.

But you are sure to find here just what you are seeking in glass—and at the price you expect to pay.

**Sawtelle's, Inc.**

## Diamond Tires and Tubes

Mighty Easy Riding

Gas Oils Accessories

**Expert Guaranteed Repair Work**

At Reasonable Prices

Service Car Any Time Any Where

If your Ford is sick We can cure it.  
No cure, no pay

**Boardman Garage**

## DAIRY

### WATER IS PRIME REQUISITE

Labor of Watering Stock Can Be Practically Eliminated by Installing Automatic Bowls.

Many dairy farmers are still depending on their hired help to lead the cows to the watering trough for water during the times they are confined to their stalls, depending on the workman to remember when a cow may need water and requiring much of the man's valuable time in watering the stock.

The labor of watering the stock can be practically eliminated and at the same time the milk production of the cow increased by installing sanitary automatic watering bowls.

Most dairy farmers realize the importance of an abundance of pure water for the cow, but do not realize the cost of labor consumed in watering the cow, nor the importance of the cow getting her drink just when she wants it, says Dairy Farmer.

About 87 per cent of the milk is water. A cow requires 8 gallons of water to produce 10 gallons of milk, besides the water she needs for her body. She requires 2½ pounds of water for each pound of milk produced. Why supply high-priced feed to increase milk production and neglect to give her sufficient water?

In answer to letters sent to dairy farmers in 15 states using various makes of water bowls, which will allow the cow to drink at any time, 65

Importance of Water Supply for Cows Is Realized by Many Dairymen.

replies stated that there was a saving of labor ranging from one-half hour to five hours per day. An approximate average of these would be about 1½ hours, depending upon the size of the herd.

### DAIRY CATTLE NEED SILAGE

Succulence It Supplies Is Very Necessary for Large Milk Production—Cheapest of Feeds.

Silage is the best and cheapest form in which to store succulent feed. Many forage crops can be made into silage, but corn, where it can be grown successfully, makes the best silage.

Good silage depends upon cutting the crop at the right stage, fine cutting, even distribution, thorough packing and plenty of moisture in the cut material. When rightly put up and carefully fed, there should be little if any loss through spoiling.

Silage is well suited for feeding to all live stock. Dairy cows need it perhaps more than other classes of animals, because the succulence it supplies is very necessary for large milk production. It is a cheap and economical feed for beef cattle, from breeding cow to fattening steer. Sheep like it, and it is well suited to their needs. Even horses and mules may be fed limited quantities of good silage with excellent results.

### OBTAIN PROFIT IN DAIRYING

Feed Prices Have Slumped While Price of Butter Still Remains at High Figure in Cities.

Feed prices down 50 per cent or more and butterfat prices still high should mean that men who are now milking cows or who get into the dairy business will make money. Corn and alfalfa have made decided drops in price, while butter is still retailing around 90 cents a pound in these cities. Hence the best way to market these two feeds would appear to be through stock, especially milk cows. A few good milk cows, with feed as cheap as it now is, assures an income and should mean a good profit.

### FAULT IN CREAM SEPARATOR

Often Happens That Foreign Matter Lodges in Screw Causing Decrease in the Flow.

If the flow from the cream spout of the separator seems smaller than ordinarily, it usually pays to investigate. In spite of all precautions, it often happens that foreign matter lodges in the cream screw thus causing part of the cream to be retained with the skim milk. A test of the skim milk will tell.

## CONGRESS HEARS DRAMATIC PLEA FROM FILIPINO

Philippine Resident Commissioner Isuro Gabaldon

In a speech which was given very close attention and was frequently applauded.

"At one time," said Commissioner Gabaldon, "Congress had before it no less than thirty resolutions expressing sympathy with the aspirations of the Irish people, if not actually urging England to grant independence to Ireland. At that time, also the Filipinos were knocking at your door. Out of the womb of war, many European republics were born, and America has refused to uphold the same. And yet the claim of the Filipinos is still unheeded. Must there be exceptions, then, in international justice?"

"My plea, gentlemen of the American Congress, is that you ignore no longer the repeated requests of a deserving people for an independence that rightfully belongs to them. The granting of independence now affords the United States a golden opportunity to give to the world unanswerable proof of its sincerity, its consistency and its altruism. It will be the greatest example of square dealing in the history of the ages.

"Do not think we are not appreciative of all you have done for us. We are. America has truly treated the Filipino people as no other nation has ever treated an alien race in all history. The high points of the American policy in the Philippines have been consistently inspired by altruism. We know that you were actuated in your inchoate by the desire to contribute to our own welfare.

"And we love you perhaps most of all for your solemn promise to grant us that which we hold dearer than life itself—our freedom. Independence is our national ideal. It is our all-absorbing aim. It grows stronger every hour. For the spirit of nationalism never dies. Much less can it be subdued. We believe that we can never hope to be a sturdy nation if we are to rely forever on the magnanimity of the United States.

"America's task in the Philippine Islands is finished. What you have assumed as your sacred obligation in that part of the world has been fulfilled. A people with a medieval system of institutions has been transformed into a conscious nation, imbued with all that is modern in the activities of nations. And if you give us independence our gratitude to you will increase a thousand fold; it will last forever if you keep faith with us.

"There is but one issue in the Philippine question, and that is: Is there today a stable government on the Islands? In the Jones law you promised independence upon the establishment of such a stable government. Your own Governor-General has officially reported that there is a stable government in existence today, and we also have submitted plenty of evidence to substantiate its existence. Therefore, we hope and expect America will now carry out its pledge."

### FINE HAT MAKING A PHILIPPINE ART

This Filipina is making a Philippine hat, which is becoming quite popular with both men and women in the United States, and is usually a source of great pride to the wearer.

### FILIPINO INDEPENDENCE, BUT NO GUARANTY

(Chicago Tribune.) We do not blame the Filipino people for wanting their complete freedom. It is the natural aspiration of mankind.
