Mrs. Gorham is doing fine, but it was thought for a time a nurse would have to be procured for Jack.

She Knew.
A class of girls was going over the story of Solomon and the teacher asked: "Who was the great queen who traveled so many miles to see the king?"
There was no response, so the teacher went on: "You surely must know; the name begins with an S."
At this hint a small hand was raised. "I know," said its owner; "the queen of spades." — Grand Rapids News.

When a Farmer WRITES A LETTER

What do you expect? That it will be written on a blank sheet of soiled paper that has been rusting on a dusty shelf for months?

Not a bit of it. The farmer's stationery is as important as his automobile. He is a business man, and he does business in a business like manner. He may raise hay, but you never find it sticking out of his boots.

We print letter heads, envelopes, bill heads, business cards, etc. for farmers. No chance for a correspondent to make a mistake in the name, or in the address, when it is plainly printed on the letter head or envelope. No chance for purchases to go astray in the mails.

The next time you want anything in the printing line, either come in and tell us what you want, or mail us your order and we will do the rest.
