Dainty frock and cool clothes for sister and "Bud" are shown in new summer fashions. **County Boasts New  
 Town—Cold Spring;  
 Dodd High Monarch**

Cold Spring is on the map of Umatilla county. The plat for the new townsite located 10 miles northwest of Hermiston, was approved by the county court. E. P. Dodd, lord high owner of the site and principal citizen, was in Pendleton Thursday confer-  
 ring with the court over the proposed new city and had the plat approved by the county surveyor, county assessor and the court.

"Notice that Cold Spring is pronounced without the final 's'," said Dodd. "It may not be a big town, but it's the logical place for one!"

Wherewith Dodd proceeded to point out the advantages of the townsite, its location on the Spokane branch of the O-W. R. & N., and on the new Holdman-Cold Spring road. The plat for the townsite covers twenty acres.—Tribune.

Mr. Dodd, besides being the leading citizen of Cold Spring is the founder of Boardman.

**Automatic Tamper is  
 Used in Filling Silos**

An automatic tamper used in filling silos has proved successful at the Oregon Agricultural college. The tamper is the first one used in the state. It is said to increase the capacity of silos packed in the ordinary way 50 per cent. Not only does it pack uniformly, but it increases the keeping qualities thru closer packing. The automatic tamper is made by the Cushman manufacturing company.

It works as a small steam roller which runs around on top of the ensilage as it is fed into the silo. The operator handles the tamper and the feeder at the same time, therefore cost of operation is not increased.

The capacity of the silos at O. A. C. was swelled 33 1-3 per cent over the previous record of close packing, according to J. C. Pollock, dairy herdsman at the college.

Oats and vetch, and barley and vetch, to the amount of 275 tons have been put into the college silos this year. All of them have been packed by the automatic tamper. More ensilage of corn and sunflowers will be handled in September.

Estimates made at Salem are that Oregon hop fields this season will require no less than 21,000 pickers, about half this number in Marion and Polk counties.
