**THIS LITTLE PIG GOES TO MARKET
 HEREAFTER AS A FARMER'S PROFIT**

New Plan of Live Stock Marketing to be Submitted to
 America's Army of Producers by Federation of
 Farm Bureaus—Our Correspondent Gets
 Outline of Plan.

Chicago, Aug. 25.—The Farm Bureau Federation is moving fast. The demand for an institution to market, for the producers themselves, the hundreds of millions of dollars' worth of live stock sold every year has been met.

The marketing committee of fifteen appointed by the Farm Bureau Federation has agreed on a plan and is about to submit it to the live stock farmers of the whole country. We have it from headquarters that the following is the plan agreed to:

FIRST. Co-operative live stock shipping associations will hold membership in the terminal live stock commission associations, which in turn will hold membership in a national association of live stock producers. Individual stock growers may also secure membership in the terminal association.

SECOND. The terminal live stock commission associations provide for the establishment of PRODUCER-OWNED AND CONTROLLED co-operative live stock commission companies at the markets where needed. The demand for the terminal co-operative commission companies must come from the producers themselves, who will thereby pledge their support in advance.

Subsidiary to each co-operative commission company will be a stocker and feeder company, from which the patronage dividends will be prorated back to the consignor-member.

The commission associations at the terminal markets will be governed by boards of directors ranging from 5 to 9 in number, who will select the manager, hire employees and de-

side questions of policy. The usual commission charge will be levied for selling live stock, but earnings will be prorated back to the members on the patronage dividend plan.

The directors of the terminal associations will be elected by delegates in annual convention. Voting delegates will be apportioned on the basis of shipments consigned to the terminal association, and not by state lines.

THIRD. The various terminal associations will federate into a national organization, governed by a board

of not less than 7 nor more than 15 directors. The national board will be supported by the terminal commission associations.

No contract to be signed by the members is contemplated.

The sub-committee on co-operative marketing will call a conference to be held in Chicago September 2, to work out a standardized plan for the organization and management of co-operative live stock shipping associations. An effort will be made to outline the ideal shipping association.
