NO MORE SHOUTING WHEN YOU SPEAK

One of the great inventions of the 20th century is the "amplifier." The invention of the telephone scientists of America. The accompanying copyrighted picture, printed by this paper by special arrangements with Popular Science Monthly, shows the instrument as used in the open air. A concert in Chicago, carried over ordinary telephone wires, was heard three miles away from where this amplifier was stationed at Yama Farms, N. Y. An earlier "amplifier" was used in the conventions that nominated Harding and Cox, and men on the platform, speaking in an ordinary tone of voice, could be heard distinctly in the farthest corner. This remarkable invention is result of study by scientists for the best device to detect air raids in advance during the war.

**WONDERS
 OF AMERICA**
 By T. T. MAXEY

THE SHOSHONE DAM
 Among the great irrigation dams erected under the supervision of the reclamation service of the Department of the Interior, the Shoshone has a distinct individuality. It is located nine miles west of Cedy, Wyoming, on the road to Yellowstone park. If you can conceive of a triangular-shaped wedge of concrete 328 feet high, 200 feet wide at the top, 10 feet thick at the base, tapering to 10 feet at the crest, placed between two mountains so as to close the canyon of a river, you can gain some idea of this mastodontic structure. Now, imagine a lake of stored-up water, 10 miles long, with a maximum width of four miles and a maximum depth of 233 feet behind this dam; then, in front of it a spill-way bearing a strong resemblance to a section of Niagara falls, and stretching away in the distance hundreds of thousands of acres of land covered with an abundance of crops, peopled with happy inhabitants and here and there a bustling village. There you have a picture of one of Uncle Sam's great irrigation projects. Remember that before the water was brought to this thirsting land, sage brush and prairie dogs were among the principal crops, then— presto "The desert blossomed as the rose," and you'll understand why your government expended \$1,354,000 on the dam alone.

24 PERSONS ARE DROWNED

Five Seriously Injured in Collapse of Bridge at Chester, Pa.
 Chester, Pa.—Twenty-four persons were drowned and five seriously injured in the collapse of the bridge spanning the Chester river at Third street, in the business district. A small wrought iron gusset plate, part of the support for a foot path along the structure, which had been half eaten by rust, gave way under the weight of nearly a hundred persons who were attracted by the cries of a drowning boy. There was a terrible struggle. Good swimmers were unable to break the grasp of those who could not remain afloat and were dragged down. Others were crushed in the collapse of the footpath.

Maupin, Or., Has Bad Fire.

Maupin, Or.—The business section of Maupin, on the Deschutes river, in southeastern Wasco county, was virtually wiped out by a fire which did estimated damage of \$75,000 before it was brought under control.

South Dakota Tornado Kills Three.

Sioux Falls, S. D.—Three men were killed, another was seriously, perhaps fatally, injured, at least one person is missing and heavy damage to livestock and farm property was caused by a tornado near here.

**CALIFORNIA'S ALIEN
 TAX HELD INVALID**

Citizens of Japan Declared Exempt From Tax Not Imposed on Natives.

San Francisco.—The state alien poll tax law was declared unconstitutional in so far as it affects Japanese, in a decision handed down by the state supreme court.

The court directed the dismissal of Heikichi Terui, Oakland Japanese, who was arrested to test the law. In its opinion the court said: "In view of the provision of the existing treaty between the United States and Japan, the alien poll tax law is ineffective for any purpose with relation to any citizen of Japan."

In the decision the court held that as far as Kotta, a Mexican residing here, who was also arrested in order to bring about a test of the application of the law to Mexican nationals is concerned the law was in violation of the 14th amendment, which provides that there shall be no discrimination in taxing residents of the United States. Touching on the case of the Japanese, it said: "In view of the provisions of the existing treaty between the United States and Japan the alien poll tax is ineffective for any purpose with relation to any citizen of Japan."

The California law, imposing an annual poll tax of \$10 on all alien male residents of the state between the ages of 21 and 60, was passed by the 1921 legislature in response to a constitutional amendment adopted by the people in November, 1920, by a vote of 103,160 to 27,811.

**AMERICAN CONFERENCE
 DELEGATES SELECTED**

Harding Names Hughes, Root, Lodge and Underwood to Represent U. S.

Washington, D. C.—President Harding announced the full American delegation to the armament conference. It consists of four members, as follows: Charles Evans Hughes, secretary of state; Elihu Root, once secretary of war, later secretary of state, former senator from New York; Henry Cabot Lodge, senator from Massachusetts, republican floor leader, chairman of the foreign relations committee, and Oscar W. Underwood, democrat, senior senator from Alabama, leader of his party in the senate.

These four will represent America at the table at which will be gathered four from each other nation represented. The conference proper, or what might be termed its "supreme body," will consist of 20 members. It was announced, each of the five major powers being represented by a "big four."

Only the "big four" delegations from each of the five allied and associated powers will sit in the general conference on armament limitation. The delegation from China, which was invited especially because of far eastern problems, will sit with the 20 delegates, it was said, only when far eastern problems are under discussion. Representatives of Belgium, Holland and other nations, it was explained, will occupy a similar status. Armament questions, it was emphasized, will be left solely to disposition of the supreme body of 20.

Marconi says the signals from Mars are coming in the shape of a "V." Can it be possible that they want to borrow a five?

**"AMERICANS SHOULD BE
 PROUD OF WORK BY
 NEAR EAST RELIEF"**

Says American High Commissioner. Congress Is Told of Great Accomplishment

Washington.—The annual report of the activities of the Near East Relief organization, filed with Congress by Charles V. Vickrey, General Secretary, constitutes the modest history of one of the greatest pieces of philanthropic work ever undertaken and carried through by American men and women, according to well informed persons in the capital. Ad-

CHARLES V. VICKREY

miral Mark L. Bristol, United States High Commissioner to Turkey, for example, declares: "I have been closely associated with the work of the Near East Relief committee for about 22 months. On the whole the work of this relief committee has been such that Americans should be proud of this great humane effort. The Near East Relief here in Constantinople is run more like a business organization than any relief organization with which I have ever come into contact."

Charles V. Vickrey's summary of the activities of the Near East Relief shows the disbursement of over \$50,000,000.00 in cash and supplies, contributed by the American people to the salvaging of the Christian populations of the Near East. 711 American and Canadian men and women relief workers have been engaged in this huge task on little more than a volunteer basis. 63 hospitals, with 6,522 beds, and 123 clinics; 11 rescue homes, where young girls rescued from lives of shame in Turkish harems are taught to forget their sufferings, and to begin life anew, self-supporting and independent, are maintained.

110,000 Little Children

The most remarkable feature of the work of the Near East Relief is, however, the salvation of tens of thousands of children who have lost parents and relatives during the past six years. For these little ones American generosity has provided, through the Near East Relief, 299 homes—one in Alexandropol, Armenia, housing 18,000 children—where, last year, 54,600 children were housed, clothed, fed and taught, while an additional 56,039, outside the Near East Relief orphanages, were saved from starvation and death by food and clothing sent them from the United States.

Mr. Vickrey's report states that approximately 2,790,490 Armenians are still living in the Near East, out of a pre-war population of over 4,000,000 and estimates that had it not been for the aid given by the American people through the Near East Relief, fully half of those now living would have perished. Food was furnished to 561,970 homeless refugees during a large part of 1920, while 300,000 garments, comprising 1,500,000 pounds of clothing sent out from the United States were distributed to barefoot and rag-clad wanderers, all the way from the Mediterranean to the Caucasus mountains.

Work Must Continue

Commenting on these figures Mr. Vickrey stated that "this distinctively humanitarian relief work, as an expression of brotherhood, should help to mark the beginning of a new era of peace and inter-racial good will in the Near East. "The tremendous task undertaken by the American people in saving the children of the Near East is one which cannot be left unfinished. We have an investment of over \$50,000,000 in human life, that America has saved. If we falter or pause now, that investment is imperiled, or may even be lost altogether. Most of the children we have saved from death are still too little to take care of themselves, and conditions throughout the Near East are still too uncertain to let them shift for themselves. It is morally sure that for at least five years, and until these little ones that we have snatched from a terrible fate are able to support themselves and enjoy an even chance of life as useful citizens, the American people who have rescued them must see them through.

"It is the purpose of the Near East Relief to do just this, and we appeal to the generosity of the American people to see this noble work is carried out in the spirit of mutual helpfulness and Christian charity which is so essentially characteristic of the American ideal."

Contributions to the work of the Near East Relief may be sent to Cleveland H. Dodge, Treasurer, 1 Madison Ave. New York City.
