FARM WOMEN WILL NOW HAVE THEIR OWN FARM BUREAU DEPARTMENT

Mrs. V.B. Schuttler, Chairman; Mrs. A.E. Bridgen; Mrs. Ezetta Brown; Mrs. John C. Ketcham

Chicago, Nov. 17.—The newest thing in the farm bureau movement is a woman's department which will, just as nearly as possible, represent the great and important congregation of farm women in the country.

President Howard of the American Farm Bureau Federation, has appointed a committee of four women to work out the details of the women's farm bureau department and they will no doubt present an outline of a plan shortly.

The committee consists of Mrs. Vera Busick Schuttler, Missouri; Mrs. John C. Ketcham, Michigan; Mrs. Izetta Brown, West Virginia, and Mrs. A. E. Bridgen, New York. The personnel of the committee was chosen by President Howard from a long list of names of women already well identified with farm bureau or farm organization work. Mrs. Bridgen is known throughout

New York for her active labor in developing the home bureau. She is president of the Cortland county home bureau and president of the state federation of home bureaus.

Mrs. Vera B. Schuttler, chairman of the committee, has played an important part in the organization and development of the farm bureau in Missouri. She has served as a member of the executive committee of the St. Francois County Farm Bureau, a member of the executive committee of the Missouri Farm Bureau Federation, voting director in the American Farm Bureau Federation, member of the committee on relations to the College of Agriculture and Secretary of the Farm Bureau Road Convention.

Mrs. Izetta Brown is the owner and manager of a dairy of pure bred Holsteins and Jerseys in West Virginia. In addition to her dairy she operates two general farms. Mrs.

Brown has had an active part in national affairs.

Mrs. John C. Ketcham also brings to the committee a wealth of experience. She was for years closely associated with her husband in his work as Master of the Michigan State Grange. For the first two years she was a member of the executive committee of Michigan Farm Bureau Federation. At present Mrs. Ketcham holds a number of important offices.

A woman with the title of Assistant Secretary will head the new department. The committee will also develop a program of work for women members of the farm bureau. This program of work will probably be largely concerned with the improvement of the social side of farm life. It will have to do with the establishment of community centers, the rural church, boys' and girls' clubs, consolidated schools, etc.

FARM POINTERS

From Department Industrial Journalism, Oregon Agricultural College.

Clover or alfalfa should not be seeded this late in the year, regardless of the good weather, as it probably would be heaved out by the freezing and thawing which is common in January. Early spring seeding is much more advisable.

Hard federation wheat again proved its superiority to other sorts, by winning sweepstakes and second place at the Land Products show in Portland. Those interested in obtaining seed of this variety should communicate with the farm crops department at once to get the names of growers having seed for sale.

The drains can be installed more cheaply now than any time since the war began owing to the lowered cost of labor and materials. Farmers owning wet lands have an opportunity this winter of making a permanent and profitable improvement to their places and at the same time can help relieve the unemployment situation.

Old cabbage roots, onions, and sweet corn ears left in the garden harbor maggots and ear worms over winter, and cucumber and bean beetles are known to winter over under old vines which, though frozen, afford some protection. As a consequence many of these insects reappear in the garden the next year in increasing numbers whereas they could be considerably reduced if all ground which is not now planted to any crop were plowed or thoroughly disked.

1925 EXPOSITION TO BE VOTED ON SATURDAY

Saturday is the vote on the 1925 Exposition. There seems to be quite a difference of opinion on the advisability of voting a \$6,000,000 tax at this time for a Fair, and the question of the constitutionality of voting a tax for such a purpose since the Constitution reads for government purposes only shall a tax be levied. Of course there were many boosters for the Fair. Anyway, we will have a chance to decide on it.

NEW HOSPITAL SOON READY

Umatilla's new hospital will be ready for occupancy in about a week. Frank Payne and Mark Griffin are doing most of the repair work. It is to be an ideal place when finished.—Umatilla Spokesman

LYCEUM AND CHAUTAUQUA ARTICLE FROM THE BOSTON TRANSCRIPT USED AS AN EDITORIAL BY CHICAGO EVENING POST

The average citizen has some knowledge of lyceums and chautauquas, but he little realizes what they amount to in the life of this nation. Officially collected figures for the year 1920 present an astonishing total of effort put forth by these forces of popular education. There is no state in the Union without lyceums and chautauquas. Between 10,000 and 15,000 lyceums were in being the last year, with an aggregate attendance of over ten millions, and 8,581 chautauquas were reported, with an aggregate attendance of 35,449,750. About one-third of the aggregate attendance in each case is said to represent different individuals. An invariable increase in business during 1920 is reported, and a greater increase in sight for the coming year. And what is of equal importance are reports of a steady demand to keep up and improve the quality of the instruction or edification given.

One of the hopeful things in life is that if you can get to know people you generally like them. Chautauqua in a great degree, and the lyceum in a lesser, brings people to know other people. Especially does Chautauqua gain a harvest in this way in having Chautauquas for children—a wise provision for a bet-

ter America by and by. Another hopeful thing is the avid way students at lyceums and chautauquas absorb and revel in the expert explanation of an unfamiliar subject. The war, with its flood of lectures explaining what we had to do for our country and what other countries were doing to us, has left its influence on our people and enlarged the view of the average man and woman, so as to include the world and its problems and people beyond our waters.

The Lyceum-Chautauqua, or popular lecture, is an American institution. It is the university of the people.

IRRIGON NEWS ITEMS

Effective at once, the Union Pacific system has reduced local freight service to one crew applying between The Dalles and Umatilla on account of very light business moving. The local will leave The Dalles on Mondays, Thursdays and Saturdays. This will leave the train crew at their home at The Dalles over Sunday. We believe this will be very satisfactory as the company cannot be expected to run crews each way daily without having some business in sight.

Bring your cleaning and pressing to Mrs. Alice Dingman. 391F
