

LOCAL HAPPENINGS

The Hereims had as New Year's dinner guests: W. A. Murchie and wife and A. L. Larsen and family.

Tom Dempsey has gone to College Place at Walla Walla to the sanatorium for treatments for a few days.

The Misses Runner, Glatt, Price and McNeil returned Monday, after a pleasant vacation at their respective homes.

M. B. Signs, Caryl and Melvin, returned home Monday from Portland, where they visited with Mrs. Signs during vacation.

Mrs. Jack Gorham was in Hermiston one day last week to visit the dentist, she having had difficulty with a wisdom tooth.

W. A. Murchie and Harry Murchie received the sad news of the death of their brother, M. B. Murchie in Sacramento, Calif. M. B. lived in

Hermiston at one time.

Mr. and Mrs. E. Pattee are new comers on the project, having arrived from Yacolt, Wash. They will farm the Campbell place this year and expect to make Boardman their future home.

Mrs. Claire P. Harter and Mr. and Mrs. Morgan have moved from the Ballenger residence out in the west end to the Edwards house. Mr. and Mrs. W. A. Murchie have moved into the Ballenger house. They have been staying at Harry Murchie's.

E. P. Dodd spent Wednesday in Boardman between trains. Mr. Dodd doesn't feel that the time is ripe for any county division, and he thinks that we could use a gasoline or land tax much more advantageously to boost the John Day than the 1925 exposition.

One of the pleasant social affairs of last week was the informal card

party given by Frances and Lyle Blayden at their home last Thursday evening. Pedro was the amusement of the evening, and later a dainty lunch was served. Guests were the Misses Ethel and Edna Broyles, Wilma Glibreth, and Messrs. Opal Wagner, Adna Chaffee and Leroy Glibreth.

Mrs. W. H. Klegas is quite ill at present, threatened with pneumonia. The Ladies' Aid met at the church in regular session on Wednesday. A new secretary-treasurer was elected to fill the vacancy created by Mrs. Fennell's resignation. Mrs. Edith Crawford was elected by acclamation to the position. Work for the future was discussed, and a food sale for the latter part of January was talked of.

The night of the bazaar at the school house there were two paper shopping bags left or misplaced. If anyone knows of them we would be glad to get them back. One belonged to Mrs. Alice Dingman and had her name written near the top. Their intrinsic value is not so great but they are very convenient and one hates to lose them. The other belonged to Mrs. Fennell.

The Riverview Cemetery Association has completed permanent organization with the confirmation of the temporary officers: Leo Root, president and M. B. Signs, secretary. A board of directors was also appointed consisting of J. R. Johnson, H. H. Weston, S. H. Boardman, E. K. Mulkey, and Lee Mead. The present activities of the board will be to plan a survey of the cemetery tract for future development as soon as irrigation is available.

HEALTH NURSE RESIGNS

Miss Bunge, who came here several weeks ago to take the position of public health nurse, has resigned her position and returned to her home in the East. Mrs. Tom Johnson, whose ability as a trained nurse is well known here, has been appointed to fill the vacancy.—Heppner Herald.

MAY GET FARM

LOANS NEXT MONTH

It is expected that \$100,000 in farm loans will be distributed to Boardman farmers within 30 or 40 days. This assurance was given by Asa Thompson, secretary of the farm loan bank at Spokane, while in Echo during the holidays. The local federal farm loan board has approved approximately the above amount.

Bargain Offer till February 1st

Your little paper will soon be a year old. Started at the beginning of the slump, under adverse circumstances, the Mirror has enjoyed some prosperity, nevertheless, and the solution of the small town paper has been solved.

Boardman is not large enough to support a printing plant and publish a paper of her own, but under the present arrangement she is getting a bigger and better paper than many other towns of three times the size.

The publisher knows you have your own little setbacks and "getting by" is the chief interest in life just now. But when things go "fluey" with the farmer, the printer has hard sledding too.

So, to co-operate with you and share the loss, we are going to offer the Mirror at a reduced price for a few weeks.

Most of you are in arrears to some extent, but it is because money is scarce. But money is just as scarce with us as it is with you.

To all who will pay their subscriptions in advance for one year between now and February 1, 1922, we will make a rate of

\$1.50 Per Year

We have never asked you to pay the second installment of your subscription, fully appreciating the condition of the rancher these days, but by meeting you half way, may we not expect renewals from all of you and new subscriptions from the few who do not take the paper.

THE MIRROR.
