CHANGES IN TREATY REJECTED IN SENATE

Opposition Lacks Enough Votes to Secure Adoption of Two Amendments.

Washington, D. C.—After a stormy debate, the senate rejected by a division almost on party lines the first two of the proposed amendments to the four-power Pacific pact.

At the peak of their strength, with 11 short of the full membership present and voting, the opposition to the treaty marshaled 26 democratic and four republican votes, within two of a third of the full senate membership, but three less than enough to upset the two-thirds needed for final ratification when all senators participate in this vote.

The first of the two amendments acted upon was offered by Senator Robinson, democrat, Arkansas, and provided that the four powers should refrain from aggression against non-signatory as well as signatory nations, and that all interested nations, whether signatories to the treaty or not, should be invited to any conference over a Pacific controversy. The proposal was lost, 30 to 55. Later a similar amendment in different form was presented by Senator Walsh, democrat, Montana, and was voted down, 27 to 50.

On both rollcalls four republicans, Borah of Idaho, Johnson of California, France of Maryland and La Follette of Wisconsin, voted in the affirmative, while an equal number of democrats, Pomeroy of Ohio, Ransdell of Louisiana, Underwood of Alabama and Williams of Mississippi, joined the opposition.

AMERICAN CLAIM IS IGNORED BY ALLIES

Paris.—The allied finance ministers signed an agreement here for the distribution of the first billion gold marks of German reparations. The agreement disregards the American claim of priority for its expenses in connection with occupation of the Rhineland, so far as the actual sharing of this money is concerned. It recognizes the claim, however, by a special clause which states that all the agreements on this question are subject to American rights as the various governments may establish them, the finance ministers contending that they do not have the power to decide this question.

The memorandum handed to the reparations commission by Roland W. Boyden, representative of the United States with the commission, states that the cost of the American army of occupation up to May 1, 1921, was about \$241,000,000.

\$7700 IN BONDS IS FOUND

Securities Are Identified as From Centerville, Wash., Bank.

Portland, Or.—Liberty bonds totaling \$7700, identified as having been taken from the Farmers' State bank of Centerville, Wash., when that institution was looted by burglars last week, were found on the east bank of the Willamette river, about three-quarters of a mile below Municipal Terminal No. 4, by John R. Frank of St. Johns. In addition to the bonds there was a note for \$370, eight shares in the Centerville Elevator company and other papers.

Frank was fishing, he told police, when he noticed a brown cardboard folder lying on the sand at his feet. When he picked it up he found that he held a small fortune.

When Frank found the bonds he took them home, dried them out and counted them. Then he carried them to the police substation at St. Johns.

The bonds were in denominations of \$1000, \$500, \$100 and \$50. They were all registered, and the news of their location was telegraphed to Centerville, together with the names of their owners.

HUGHES DEFENDS TREATY

Failure to Ratify It Would Be National Calamity.

Washington, D. C.—Secretary of State Hughes injected himself into the treaty fight in the senate by writing a lengthy letter to Senator Underwood, one of the American delegates at the conference, in which he scored the thinly veiled intimations made in the senate that the American delegates were "imposed on" in the making of the four-power pact.

The secretary's letter hinged about questions that have been raised in the senate as to the authorship of the treaty and the open charges made by some senators that it "was conceived" by Balfour and written by Kato.

While not answering the question of "who wrote the treaty" directly, Secretary of State Hughes indicated in his letter that he himself was the author of the pact.

The failure of the senate to ratify the treaty, Hughes declared, would be nothing short of a national calamity.

MELLON ATTACKS NEW BONUS BILL

\$1,200,000,000 Is Estimated as Cost Under Measure in Four Years.

Washington, D. C.—The new soldiers' bonus bill, as drawn by house republicans, was attacked by Secretary Mellon as involving a "dangerous abuse of government credit."

Replying to a request for the secretary's comment on the new bonus bill, Mr. Mellon, in a letter to Chairman Fordney of the house ways and means committee, made public by the treasury, sharply criticized the features of the proposed measure providing for loans by banks upon adjusted service certificates as indirect and "forced" borrowing by the government. He suggested that the "direct and regular way" to provide for a paid-up endowment insurance feature would be to authorize insurance certificates with provision for direct policy loans to be financed by the government.

A favorable report on the long controverted soldiers' bonus bill was ordered by the house ways and means committee by a vote of 19 to 5.

The vote on the measure was taken ten minutes after Secretary Mellon, Controller of the Currency Crissinger and Governor Harding of the federal reserve board had been questioned for two hours in open session as to their ideas of the bank loan adjusted certificate plan. The five members voting against a favorable report were Garner of Texas, Kitchin of North Carolina and Collier, Mississippi, democrats, and Treadway of Massachusetts and Tilson of Connecticut, republicans.

MANY KILLED IN TRANSVAAL STRIKE

Johannesburg.—The mine war that has blazed up over the Transvaal rands in the vicinity of Johannesburg threatened to develop into insurrection against the government.

Heavy casualties were reported on both sides as fierce fighting in the Fordsburg and Joppe districts continued. The Union of South Africa government takes a most serious view of the situation. General Smuts has characterized it as "one of the gravest crises that ever has arisen in South Africa."

The government fears the mine war, which is the climax of a three months' strike at the gold mines, may grow into rebellion. Worse than this, it was said here it would be a race war between whites and blacks.

The fact that Boers have sided with the strikers and taken part in the fighting, including the capture of towns, lends weight to suggestions that the trouble may be more serious than a battle between strikers and police.
