THE LINCOLN MEMORIAL

THOSE who have visited foreign lands say that no other similar structure compares favorably, in either size, beauty or location, with the great, simple and admirably-situated monument erected by the people of America, in the capital of the nation, as a fitting tribute to the memory of the kindness and the greatness of our Lincoln.

Near the White House and the Washington Monument, and between the Capitol building and the National cemetery, this memorial is destined to become one of the most-visited of all the public buildings of the world.

The building is 202 feet long, 132 feet wide and surrounded by a row of marble columns, several feet in diameter at the base and 44 feet high. In the center of the interior is a colossal statue of Lincoln, in a seated position, including the base, it is 30 feet high. It weighs 175 tons. It took twenty marble cutters eighteen months to carve this statue.

In each of the side walls are set monumental bronze tablets—one of Lincoln's famous Gettysburg address, the other of his masterful second inaugural address, while between these and the statue is a row of 36 columns, representing the states which existed when Lincoln died; on the walls above are 48 memorial wreaths, supported by eagles, representative of the states of today. At either end is a massive painting—12 feet high and 60 feet long.

IRRIGON NEWS ITEMS

Mr. Thurston Grim, pioneer of Oregon and one of the first settlers in Irrigon passed away at his home on the Riverview Boulevard Saturday April 8th after a long period of illness from leakage of the heart. The funeral services were held at the house Monday at 12:30 and conducted by Rev. E. F. Harper, of Milwaukie, Oregon and the church choir. Mr. Harper is a friend of Mr. and Mrs. Grim and has called upon them whenever time would permit on his many visits to Irrigon. The interment was made in the Irrigon Cemetery. The school was closed at noon and the entire community turned out for the services. Several large spray of pink and white carnations made a very beautiful display. He was well liked by every one. He is survived by his wife and three sons, Clyde, Hugh and Chauncey, of Irrigon and our brothers and two sisters.

Mr. Grim first bought six acre south of town in 1903 and set it out in orchard, living in town. He sold to J. H. Smith in 1907, moving back to his boyhood community near Aurora, Oregon, being born near Aurora and growing up to marry there and married Miss Ellen ones in 1873. He farmed near Paquise, Washington for a few years and spent the seasons of 1898 and 1899 in Alaska but each time, Oregon called him back.

Prof Jameson, of O. A. C., by arrangement of Mr. C. C. Calkins, County agent, lectured on various subjects on the dairy business at Rieker ranch at 2 p. m. Wednesday. He spoke mainly on breeding, this subject not being touched upon in his former lectures at Irrigon. On account of the very busy season, the attendance was smaller than on other similar occasions.

There was a light frost on the morning of April 12 but apparently no damage was done.

The apricots are in full bloom and promise a record crop at this writing. We seem to have been favored as the frost was much heavier in other fruit sections.

M. E. Lund and son arrived on the Monday morning train from Portland for a visit with her parents, Mr. and Mrs. Walpole.

Mrs. C. E. Glasgow made a business trip to Portland Tuesday, returning the same day.

Another T. B. Test has been completed of the cows in this district. We understand no tuberculosis was found.

We hear the next test will be on goats, preparatory to getting clean stock for the big goat ranch. This is no joke; We expect to hear of a big deal closed in the near future, as negotiation are on for a big tract of land. The only apparent difficulties

Rev. Benson, of Umatilla was in Irrigon the first of the week looking over the field here in connection with the work at Umatilla and Boardman, for the purposes of rendering his opinion on the advisability of the joint pastor for the three places. Mr. Benson may fill the pulpit here temporarily. It is hoped this will be accomplished or the church thrown open to other denominations who are handling the work here quite satisfactory but under difficulties for want of a suitable church building.

TREASURERS STATEMENT OF LADIES AID OF BOARDMAN COMMUNITY CHURCH

March 16, 1922—April 1, 1922

EVERARD GRAY WILL SPEND SOME TIME HERE

The religious interests of the community have taken added impetus with the coming of Rev. W. L. Gray, of Portland who plans to spend some time in this section with a view of improving local religious activities. Mr. Benson, of Portland, who is just now in charge of the newly organized church in Umatilla, preached a strong sermon on "Salvation" in the evening. Rev. Gray took up with the local workers plans for increasing the efficiency of the church activities of the community. Next Sunday, he observes of Easter will include a program by the Sunday school and a special sermon by Rev. Gray.

BULLETIN OF BOARDMAN COMMUNITY CHURCH SERVICE

Every Sunday
Sunday School 10:30 a. m.
Church Service 11:30 a. m.
Christian Endeavor 7:30 p. m.
Prayer Meeting, every Thursday at 8 p. m.
All are welcome.

SMALL TOWNS

We used to think that the delinquent girls were recruited from the cities or innocent farm girls, but in a recent survey an army officer of the Salvation Army tells us that of the 5,000 girls gone astray who have come under their care during the past year, the great majority came from the small towns and were rescued and educated in the larger cities.

It is safe to say that the modern forms of dances, like the Camel waltz and the moonlight dances are no improvement to the ethics of the young town girls. Moonshine may be responsible for much of it.

FEDERAL JUDGE BILL PASSED BY SENATE

Washington, D. C.—The bill to provide a score more of federal judges, advocated as a measure to relieve congestion in federal courts, and opposed as a political patronage "pork barrel," was passed by the senate and sent to conference with the house. Twenty-three more federal district judges distributed throughout the country and one more judge for the fourth circuit are provided by the senate bill, as against 22 district judges under the original bill passed by the house last December. The senate vote on final passage was 44 to 21, with party lines broken. The bill provides for an annual fall conference of circuit judges at Washington, with the chief justice and attorney-general of the United States, to make a comprehensive survey of judicial business of the country bench assignments. It provides also for assignment by the chief justice of judges to districts where there is congestion or where the public interests generally require such assignment.

TROOPS FOR STRIKE DENIED

Request of Governor of New Mexico For Federal Soldiers Refused. Washington, D. C.—The administration's determination not to use federal troops in the coal strike unless all state agencies fail in preserving order was set forth clearly after a conference between President Harding and Secretary Weeks. A request for troops from the governor of New Mexico was denied flatly. As a public announcement of the administration's hands-off policy so far as use of federal troops is concerned, Secretary Weeks made public after his visit to the White House a telegram to Governor Mechem of New Mexico, replying to an appeal for help in handling the situation in his state. "Unless disorder develops to a point where state authorities are unable to preserve order," said the message, "federal troops cannot be used in connection with the coal strike."

Explorer Amundsen Nearly Killed. Clarion, Pa.—Captain Roald Amundsen, the Arctic explorer, and four flying companions narrowly escaped death at Miola, near here, when the monoplane in which they were making a flight from New York to Cleveland, the first lap of a transcontinental journey, turned over when it was forced to land in a field.

Floods in Middle Western States. Chicago, Ill.—Spring freshets which have already flooded many lowlands threatened serious damage in many middle western states. Rains almost torrential sent the rivers up in Michigan, Wisconsin, Illinois, Missouri, Kansas, Oklahoma and Arkansas.

Representative McArthur has introduced a bill authorizing the secretary of the treasury to pay the sum of \$25,000 to school district No. 1 of the county of Multnomah, in full settlement of the claim of the Benson Polytechnic high school on account of moneys advanced at the behest of the federal board for vocational training for the purchase and installation of machinery for vocational rehabilitation work at this school.

Motor vehicle operators apparently are little interested in signal bells and "wig wag" systems at grade crossings, according to a report prepared by T. A. Raffety, chief inspector for the law enforcement bureau of the state motor vehicle department. Mr. Raffety has prepared a letter calling the attention of his field operatives to the apparent lack of interest taken by drivers in avoiding accidents on crossings. Mr. Raffety advises his men to require all drivers using crossings to bring their machines down to a speed not in excess of 15 miles an hour. Drivers who refuse to comply with this law, Mr. Raffety said should be arrested and prosecuted.

MOVE TO DEPORT SEMENOFF

"Butchery" of Americans By Russian General in Siberia is Charged. Washington, D. C.—Chairman Borah of the senate labor committee, declaring that he had received charges that American men, women and children had been "butchered" in Siberia by General Semenov, announced he would endeavor to bring about deportation of the anti-bolshevik leader, now under bail in New York after arrest in connection with a civil suit. Senator Borah said the charges had been laid before him by officers and enlisted men of the American expeditionary force that served in Siberia and were supported in part if not fully by an official report to the American government by Major-General William S. Graves, who commanded the expeditionary force.

Marie, Nellie and Mildred Messenger have returned to school after a seven weeks absence, during which they were quarantined for the scarlet fever.

At assembly Friday morning, two new songs were learned. One was an arbor day song sung to the tune of America, and the other was the Rose Festival song "Beautiful Oregon Rose". Mr. Signs announced that some form of entertainment would be given on the evening of May 6th to raise funds to help pay our share on the amount expended by the county for prizes for the field and track meet last year.

Friday morning, April 14th, there will be a short arbor day program after which each class is to plant a tree. In the evening the Junior class play "A man without a Country" will be given. Everybody come.

The American History class is taking up the study of Oregon. Marvin Rancier has returned to school.

Are you eating Boardman Cheese? If not, why not?

I have for sale one team of mares, a good set of harness, your choice of two farm wagons and a Chevrolet 490 chassis that can be made into a good farm truck. Cash value is cheap for \$500. The outfit can be seen at Irrigon. Might figure trade for automobile.

W. R. Walpole, Irrigon, Ore.

FOR COMMISSIONER
I hereby announce myself as a candidate for the nomination to the office of County Commissioner, subject to the will of the Republicans of Morrow county, to be expressed at the Primaries in May, 1922. Present incumbent.
G. A. BLEAKMAN,
Hardman, Oregon.

Inventor of Telephone Sees Radio Future

Wireless days for commercial telephoning have arrived. The radio-telephone has been taken from the "playing" class. Alexander Graham Bell, inventor of the telephone, smiles as he recalls that his invention received the same public reception. The Bell Company announced the opening of a million dollar radio broadcasting station at New York. Similar plants are to be built in other cities throughout the U. S. Services may be had for any purposes except advertising, say officials. This new photo of Mr. Bell was taken at Atlantic City. With him is his daughter, Mrs. Gilbert Grosvenor.

WANT ROAD BUILT TO COST LESS

Thomas H. MacDonald, chief of the Bureau of Public Roads, wants to cut down the cost of road building throughout the United States. He called highway officials of many states to Washington, and asked for standardized specifications which would permit plants to furnish materials to all states at greatly reduced costs.
