SAN BOARDMAN CUSTODIAN PIERCE FUNDS FOR WINBURN

The following article from a recent issue of the East Oregonian, will be of special interest to Boardman people, as Jesse Winburn is the man with whom S. H. Boardman is working at Ashland. When Mrs. Boardman was here a few days ago, he spoke enthusiastically of Senator Pierce and is doing all he can to help Pierce campaign. Senator Pierce is to speak here soon. Below is the article as it appeared in the East Oregonian:

Portland, Ore., Sept. 29.—Jesse Winburn, of Ashland, won to the cause of Walter M. Pierce by an address made by him in the Southern Oregon town, has sent his check for \$5,000 to the Democratic state headquarters for use in the gubernatorial campaign.

Winburn is a man of means who after making a fortune in street car advertising in New York came to Southern Oregon to live, settling at Ashland. It was announced at one time that he contemplated the erection of a large hotel at that point.

In his letter to Senator Pierce, accompanying the check, Winburn says "I am an eastern man who has come to Oregon to live, because here I find in the climate, the scenery and the soil an environment that appeals to me strongly. I came with the intention of making an investigation in an enterprise of considerable magnitude, but upon investigation, I find that the taxes are so heavy on the contemplated investment as to make the profits on it highly problematical. As a matter of fact, taxes in Oregon, based on population, are higher and its bonded indebtedness larger, I am told, than in any other state in the Union. "Recently I heard you speak in Ashland on the subject of taxation, and your sound reasoning, your common sense views your proposals for the equalization and reduction of taxation and your general policies impressed me profoundly. I could see how, if you were elected governor and your policies carried out, the great state of Oregon could be relieved of the tax burden it now carries. Particularly was I impressed with the frank and open manner in which you publicly discussed the situation that now exists."

"The result of it all is that I have resolved to support your candidacy for governor, and as an evidence of my sincerity I enclose a check for \$5,000 to be used in your campaign expenses. I want to see Oregon grow, and the way to make it grow is to reduce taxes to the point where newcomers will find it advantageous to settle here. Where taxation is great, enterprise declines, and where the cost of government is heavy, newcomers stay away and old settlers often go where conditions are more favorable.

"Putting you in the governor's chair means putting my taxes down and I am just selfish enough to vote to that end.

"I well know that an administration which has increased taxation to the point now reached in Oregon is not the administration to put taxation down. So I favor a change, and I believe that a change in governorship to Walter M. Pierce will do two things: "Increase the population "Decrease taxation.

"That is why I am for you and why I hope you will accept my contribution."

An interesting feature of the Winburn case is that up to the time of Mr. Pierce's speech in Ashland Winburn had been a supporter of Governor Oleott and is said to have made a \$500 contribution to the Oleott fund. Upon hearing Senator Pierce he decided that the Eastern Oregon man is the preferable man for governor and switched to his support. He wrote Governor Oleott to that effect.

WHEAT RISE IS PREDICTED

High Treasury Official Says Better Prices Are Coming.

Washington, D. C.—Better prices for wheat in the near future were forecast by high treasury officials. The present low level, officials declared, is bound to be bettered with improvement in transportation facilities and the demand for wheat abroad which will come later.

Inability of the railroads to transport wheat to seaboard has been partly responsible for low prices, it is believed at the treasury, but there also has been a lack of demand in Europe. While no world wheat shortage is forecast, it is declared there will be need for all the surplus wheat of this country and Canada, particularly since little Russian export wheat is expected.
