Manual Training

The seventh and eighth grade boys are again putting their knowledge of manual training to a good purpose, by erecting playground apparatus, which is hoped will provide wholesome means of exercise and enjoyment. The plan is to erect two pieces of apparatus, one for the little folks and a larger one for the older boys and girls. The apparatus for the little folks will be put up on the north side, and will consist of a swing, a 12-foot bar, and two teeter-boards. The larger piece of apparatus will be erected on the east side of the building, where the old apparatus was, and will consist of two swings, a trapeze, a bar for the high school boys, a bar for the smaller boys and three teeter boards. The boys are working hard in order to get the apparatus up by the time good weather arrives. When the wind has tempered its chilly nature and coats and wraps will no longer be needed to enjoy the long much needed play ground equipment. Efforts are being made to keep the costs to a minimum, even to the boys carrying the heavy lumber needed, to save the cost of transportation.

First and Second Grades.

The attendance in the primary room is steadily increasing, two new pupils have just enrolled, making a total of 34.

We know that Valentine's day is drawing near, because the primary children are busy making valentines.

In hygiene, the primary children are learning songs in connection with that work.

Fifth and Sixth Grade News.

The fifth and sixth grades have chosen Wanda Glibreth, Nellie Partlow, Mildred Messenger and Helen Boardman as decoration committee for this month. They are now placing the Lincoln Log Cabin border on the blackboard. Jyve Olson and Mildred Beck are busy making the valentine box.

The fifth and sixth grade boys are going to make a library table in manual training for their room, and the girls will supply it with a runner.

Lillian Brice is still unable to attend school. This is her second week of absence.

Seventh and Eighth Grades.

The few sunny days of this last week have aroused the baseball fans to the realization that it is about baseball time. Already, several teams have organized and on next Friday the seventh grade boys will play a match game with the boys of the sixth grade.

The decorating committee of the seventh and eighth grades has put a border of hearts and ribbon on our blackboards and in many ways have made the room more cheerful. On Valentine day they have planned to have a Valentine box.

The boys of the manual training class with Mr. Lee's assistance, are making play apparatus for the little folks this week.

The girls of the sewing class are embroidering luncheon sets. They are very enthusiastic over this new work.

The Boardman school will forward \$10 to the Near East headquarters in Portland for the benefit of homeless children.

The community park board was organized last week consisting of a president, secretary and treasurer, and five directors. A community park for Boardman will be hailed with delight and the success of the enterprise is most earnestly hoped for. It has been suggested that the school cooperate by planting of trees, designating them as class trees, from every grade in the school or as family trees. Come on school! let's do our "best!"

The regular meeting of the Student Body was held Friday afternoon, Feb. 2. But as there was no business to come before the students the meeting was adjourned.

Junior Notes.

The Junior class held a meeting Friday and decided on Pink and Green as class colors. We have ordered a pennant and will probably have our caps later in the season.

"JAN OF THE BIG SNOWS" DRAMA OF LOVE AND HATE

A picturization of James Oliver Curwood's throbbing human story of the Hudson Bay country, "Jan of the Big Snows," will be the attraction at the New Theater, Umatilla, Wednesday, Feb. 14. All the romance, adventure, thrills and spirit embodied in Mr. Curwood's story have been visualized by Charles M. Reay, an able director of virile outdoor pictures. For powerful acting, scenic splendor and tense situations this combination of a great author, a fine story and a capable director places "Jan of the Big Snows" well up in the roster of big outdoor productions.

A THRILL FOR HE-MEN— AND THE LADIES, TOO

There is always a thrill for the he-men in a political battle, and now the ladies—God bless 'em!—have the ballot, their interest is no less keen. In "His Wife's Husband" the Pyramid Picture now being presented at the New Theater, in which Dotty Blythe is being starred, there is a political intrigue which is very true to life and which provides one of the high spots in the tense climax of the story.

"His Wife's Husband" is a picturization of Anna Katherine Green's famous society novel, "The Mayor's Wife."
