SCIENCE, RELIGION HELD COMPATIBLE

Washington, D. C.—A joint statement holding that there is no antagonism between science and religion was issued here as representing the conclusions of a group of 40 distinguished Americans on a subject which has aroused bitter and widespread controversy.

The names of two cabinet officers, Secretaries Hoover and Davis, three bishops and many others in positions of leadership in the political, business, scientific and religious world are attached to the declaration, which was prepared by Dr. R. A. Millikan, director of the Norman Bridge laboratory of physics at Pasadena, Cal.

The purpose, said an accompanying explanation, is to assist in correcting two erroneous impressions that seem to be current among certain groups of persons. The first is that religion today stands for medieval theology; the second that science is materialistic and irreligious.

STRIKE IN RUHR SPREADS

300,000 Men Now Out, According to Germans.

Essen.—The workers' and the communists' strike in the Ruhr is spreading and German officials estimated that 300,000 men were out. The strike was extended from the Dortmund region, where many mines and metal works are closed, into the Bochum mining district, where 31 shafts and 15 metal works are shut down and 70,000 men are idle.

Band of communists attacked and looted the warehouses here and overran the market place.

Fishermen Lose Canadian Privileges.

Ottawa, Ont. — American fishing trade in the North Atlantic is seriously threatened as a result of the decision of the Canadian government to cancel all Canadian port privileges to United States fishermen. Canadian officials denied this was in reprisal for the customs barrier erected against Canada by the United States. They claimed it was the result of American refusal to grant similar privileges to Canadian fishermen.

Washington, D. C.—President Harding has received a petition signed by a notable array of prominent persons asking for the release of the 52 political prisoners still serving time in federal penitentiaries. Five governors and 11 college presidents are among the signers.

Under the agreement Greece renounces the principle of indemnity for reparations. Turkey renounces its claims to indemnity in cash.
