To Breed Hens So They Lay Two Eggs per Day
Morgantown, W. Va.—Experiments, conducted at the West Virginia university agricultural station here by poultry experts, has led them to believe that it may be possible to breed chickens which will lay either two eggs a day or one egg every day of the year. H. G. Knight, the director, announced.
Hen No. 345 has two generative organs, according to the director. Her record shows, he said, that for three or four days she lays eggs long and narrow, and then for a few days the eggs are a natural shape.
If hens can be bred with two generative organs, according to the experts, it would be possible to have such a chicken lay two eggs a day.
Supporting a large family used to be career enough for any man.

Power of London Council.
The London county council spends annually \$25,000,000 of the taxpayers' money and controls the welfare, health and amusement of more than 4,000,000 people.
Some Men Like Rivers.
Some men are like rivers. A river may have a very small head, but it has a great flow at the mouth.—San Francisco Chronicle.

Yale Yelled, "Going, Gone."
Elihu Yale, the founder of Yale college, is said to have been the first man in England to conduct a sale by auction.
A Way to Learn.
Asking questions is one way to find out, but just listening is about as certain and arouses less suspicion.—Acheson Globe.

Lines to Be Remembered.
A true American sentiment recognizes the dignity of labor and the fact that honor lies in honest toil.—Grover Cleveland.
Highway Bridge Construction.
Since 1916 more than thirty miles of bridges have been built under the federal-aid highway program. One of the largest of these bridges, that from Mandan to Bismarck, N. D., is more than three and one-half miles long and cost \$1,428,000.

New Roads in Pennsylvania.
The Pennsylvania department of highways will build 275 miles of durable highways in 1923-24. The state has \$15,000,000 available for the new construction.
Best Way to Grow Onions.
The most economical way of growing onions is from seeds. It requires about four or five pounds of onion seed to plant an acre. These seed usually cost \$2 to \$3 per pound. The seed should be sown in shallow furrows 18 inches apart and covered about three-fourths of an inch deep.

Ducks Lay in Morning.
The duck lays early in the morning. Unless they are kept in until they have laid there will be difficulty in finding the eggs.
Grain and Mash for Pullets.
It has been shown that with a normal growing ration, the pullets ought to consume a little more grain than mash, and that when laying begins, the grain ration should be cut so they will consume about equal parts by weight of mash and grain.
Grit Grinds Hen's Food.
Chickens have no teeth and utilize grit for this purpose. The grit grinds the food they consume and prepares it for digestion. Grit should be hard and sharp and cubical in shape.

Conrad Nagel

Conrad Nagel, the "movie" star, was born March 16, 1897, in Keokuk, Ia., and received his education in Des Moines, graduating from Highland Park college in that city at the age of seventeen, with a bachelor of arts degree. His first experience was in college plays; later he appeared in stock and vaudeville. During the war he served in the navy. He is six feet tall, has light hair and blue eyes.

MEN YOU MAY MARRY
By E. R. PEYSER
Has a Man Like This Proposed to You?
Symptoms: He's alert and snappy. Talking nothing but business. Is fairly successful, dresses fairly well. You like him at first a lot. You ask him if he likes shows. "Oh, yes, I'm not too fagged after work." Adores his work. Never heard of "Pilgrim's Progress," Ella Wheeler Wilcox, or Raphael, never reads anything but advertising and business journals. "Cafes and jazz all right," says he, "after a business banquet, but don't think music much use in the home; I'm for the mazurka when I'm young; then I'll go out for culture!"

IN FACT
As far as culture goes he'll always be an infant culture!

YOUR HAND
How to read your characteristics and tendencies—the capabilities or weaknesses that make for success or failure as shown in your palm.
THE HAND OF A DOCTOR

THE HAND OF A SUCCESSFUL PHYSICIAN, or one who may become a successful physician, should be supple and smooth. The following are some of the traits of a good doctor, as indicated in the hand:
Tact, shown by a thumb that is well "waisted," that is, indented or marked at the joint.
Kindness, shown by a mount of Venus, or ball of the thumb, which is moderate in size.
Self-confidence, the line of life and the line of the head well apart.
Trustworthiness, a line of the heart that is forked at the beginning.
Popularity is indicated by a line of fate which rises on the mount of Luna (at the side of the hand) and runs into the mount of Saturn, at the base of the second finger. This shows unusual popularity, but also dependence on public caprice for success.
(© by Wheeler Syndicate, Inc.)

City of Flowers.
Florence, Italy, is known as the city of flowers. Here the famous orris root perfumes are produced from root of the large purple iris or flag, which is grown extensively throughout the surrounding districts.

A LINE O' CHEER
By John Kendrick Bangs.
MY SONG
MY SONG must dwell on loveliness. And things of joy and cheer. That those who dwell 'mid scenes of stress, May feel their spirit near. And be reminded in their pain That as the sunshine follows rain So on their night of woe the morn Will light the way to peace re-born.
(© by McClure Newspaper Syndicate.)

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

GOAT DRIVE—"GOOD TURN"

The "daddy good turn" of the boy scout has taken many interesting forms, but among the most unique is the following goat drive which benefited numerous harassed cattle raisers. When a ranchman near the Hawaiian coast recently discovered feasting on the sparse grass of the lava stretches of his acres, a horde of wild goats which had been forced down from their mountain home by an exceptionally dry season, he concluded it was time to rid his cattle's grazing land of the pests. It was estimated that about 100,000 of these hungry creatures, and the ranchman decided to enlist the aid of the boy scouts in the work of saving his pastures. The idea was to have the scouts drive the goats down to a peninsula where they could be imprisoned, and whence the ranchers would prevent their return.

With the sanction of the local executive, two hundred of the scouts were enrolled for the good turn. The first day's drive was to be ten miles, but the boys were new at the work, and more than one goat evaded the line, returning joyfully to the mountain slopes. The second day's drive saw a more experienced army. The work began at 6 a. m., with each boy stationed 75 yards from his neighbors, thus forming a living line ten miles in length. Each lad carried a quart of water and an extra pair of shoes. The scouts had ample opportunity to show their adherence to the scout doctrine of smiling in face of difficulties, for a more difficult hike would be hard to imagine. The miles over the jagged lava were a tedious pull, as the lava resembled a confused waste of huge pieces of splintered glass. To add to the discomfort the sun beat down unmercifully. On through the heat went the valiant scouts, and just as the sun was setting in the golden glory of an Hawaiian afternoon, the shaggy culprits were pushed onto the neck of land which was to be their prison. The ranchmen nearby estimated that in the flock were at least 10,000 full-grown goats and numerous kids.

A BOY SCOUT MUSICIAN

For special attainments in music, a scout can win the merit badge for that subject. Photograph shows the champion saxophone player at the 1923 camp of the Brooklyn, N. Y., scouts, Palisades Interstate park, N. Y.

BOY SCOUTS LEARN FORESTRY

The first out-of-door boy scout school of forestry, the only school of its kind in the world, recently finished its initial sessions in the heart of the woods near Tuxedo, N. Y. The school is to be permanently a part of the boy scout camps at Kanawahike lakes, Palisades Interstate park, N. Y. The program of instruction is under some of the best forestry experts of the East. It is planned to have two sessions yearly, one in July and one in August, each to be attended by 40 scouts.

The curriculum will be placed before the leading schools of forestry and agriculture throughout the country in an endeavor to arrange an agreement whereby work at the boy scout forestry school will be counted as entrance credit.
Field demonstrations and practice at the scout school include developing a seed bed, tree planting in the open, shade tree planting, pruning and care of trees, clearing of dead standing trees and brush from a given tract, clearing for fire trails, digging of fire trails and comparative study, which will include the planting of pine and spruce in selected tracts, and developing a check tract.

Get Maximum Production of Eggs During Winter

If you are planning to add more pullets to your laying pens get them as soon as possible, in order to get the maximum production of eggs this winter. Just as a cow's milk production is decreased by moving her from one place to another, disturbing her routine, laying is delayed where pullets are disturbed by moving them from one farm to another or from their regular quarters. Disturbing pullets also retards growth.

Worth Thinking Over.
Many politicians lay it down as a self-evident proposition, that no people ought to be free till they are fit to use their freedom. The maxim is worthy of the fool in the old story, who resolved not to go into the water, till he had learned to swim.—Macaulay.

Wisdom's Whispers.
It is said that if Noah's ark had had to be built by a company, they would not have laid the keel yet; and it may be so. What is many men's business is nobody's business. The greatest things are accomplished by individual men.—Spurgeon.

Mrs. Jennie Butterfield

Portland, Ore.—"All my life I have known of Dr. Pierce's medicines. My mother was a physician and she thought so well of Dr. Pierce's medicines that she quite frequently recommended them to her patients, especially the 'Favorite Prescription' for women. For about two years after the birth of my fourth child I suffered with feminine trouble of a very serious nature. I had all the aches and pains a woman could have. I was nervous and weak—just able to be around. I was in distress all the time, when I began taking Dr. Pierce's Favorite Prescription, but was completely relieved of all my ailments and restored to perfect health.
"When my daughter was growing into womanhood she was backward and had such poor health that she was compelled to quit school. I gave her the 'Favorite Prescription' and it completely restored her to health and she came into womanhood in a very natural way."—Mrs. Jennie Butterfield, 821 Mich. Ave.
Write Dr. Pierce, Pres. Invalids' Hotel in Buffalo, N. Y., for free medical advice or send 10c for trial pkg. tablets.

Good Advice for Women

Hope Leads Onward.
That the spirit of man should entertain hopes and anticipations beyond what it actually knows and can verify, is quite natural. Human life could not have the scope, the depth and progress it has, were this otherwise.—Matthew Arnold.
Good Word for Winter.
Take winter as you find him and he turns out to be a thoroughly honest fellow with no nonsense in him and tolerating none in you, which is a great comfort in the long run.—Lowell.
Ancient Industries.
The art of timing iron appears to have originated in the Sixteenth century, and tinplate was first manufactured in Great Britain in 1670.
Brevity the Soul of Strength.
Small words are the strongest words. They are more easily understood and make deepest impressions. It takes more skill to use small words right than to use big words because the small words have to mean something.

Red Cross BALL BLUE
is the finest product of its kind in the world. Every woman who has used it knows this statement to be true.
