THIRD YEAR Edited by the High School Students NO. 23.
EDITOR, Zoe Hadley, '24 Ass't. Editor, Edward McClellan, '25
Joke Editor, Alton Klitz, '24

The Washington's birthday program was given in the school assembly room and the children did their parts well.

The exercises and drills by the little folks seemed to be the main attraction although the character of the work put on by all the grades and high school were of a high order. The songs by the third and fourth, fifth and sixth were well received and the concert recitation by the seventh and eighth grades showed excellent preparation. The high school was represented by Blanch Inuus, Mildred Duncan and Nona Rands.

The Glee club, consisting of the seventh and eighth grades and high school students entertained with a number of songs.

No attempt was made to produce a finished program. The exercises pertained to birthdays of noted men in the month of February, notably Washington, Lincoln, Lowell and Edison, and grew out of work incidental to class room.

That these exercises are growing in interest is noted by the increasing number of visitors who attend them. Come again, patrons, we appreciate your interest in our work.

On the sixth of September I started to school. The birds were a singing and the weather was cool.

We took up our books and studied them hard.

For we knew at the close we would get our reward.

Some of the girls' faces were smeared with powder.

Which was much scorned by our good Mrs. Crowder.

And some of the boys who had much yet to learn.

Would pass up their looks without much concern.

But most of us try to make our conduct the best.

And wish the same about all the rest.

But we must get busy to make way for our successor.

So pray for our instructors especially our professor.

—ERMA BOYLES.

Two things that will take one swimmingly through High School:

1. The Faculty of Working.
2. Working the Faculty.

A popular style of recitation:

Rise slowly, leisurely place hand on desk to support body, stand on one foot, then say in low but clear and confident tones: "I don't know."

A mouse! A mouse! was all it took to set the high school in an up-

road and to send Mr. Mulkey scurrying frantically about looking for a "catcher's mitt" in which to catch or capture the poor little fellow.

You see, Zoe didn't seem to be exactly used to petting a "mouse"—but—Oh well, we'll let it go at that.

An Ode to Latin

They are all dead who wrote it, They are all dead who spoke it, They all must die who learn it, Oh happy death, they earn it.

Freshie (In Ancient History)—"The Spartan youth put the wolf under his vest and never said a word while it ate out his victuals."

The month of February is usually one of cold weather, but we are confronted this year by one of pleasant spring weather. We are all enjoying the weather by taking part in outdoor sports as baseball, jumping etc.

Six months of school ended with a total enrollment of 138, there being 72 boys and 66 girls. Seventy-nine were neither absent nor tardy. The per cent of attendance was 98 per cent.

Friends of Warren Brice will be pleased to learn that he is much improved since receiving injuries due to falling from an automobile. He is now at Ridgefield, Washington.

The grade school pupils received their report cards last Wednesday for the month just closing. The high school will receive theirs either Thursday or Monday.

Jokes

Mildred—"I wonder why it is a girl can't catch a ball like a man." Carl—"Oh, a man is so much bigger and easier to catch."

Ed—"Ole, sing louder, I can't hear you."

Jim (Who is sitting next to Ole)—"You're lucky."

Mr. Griggs—"Does your watch keep time?"

Mr. Mulkey—"Yes, it keeps it a secret."

Weldon—"Marriage is a great game, isn't it?"

Mildred—"Yes, but it always ends in a tie."

Mr. Griggs—"What is the difference between a noise and music?"

Ole—"Sometimes there isn't any."

IRRIGON NEWS ITEMS
By N. Seaman

C. E. Johnson, one of our early settlers, who left here a few years ago, has purchased an interest in the Irrigon-Paterson ferry and is now working with Mr. Holmes. Mr. Johnson will move his family from Zillah, Washington, after the school term is out, to Paterson. This will insure the best of ferry service as Mr. Johnson ran a ferry at Irrigon in the days of the old Ogeon Land and Water company boom and knows the business thoroughly.

Rev. Wilbur, who is taking the place of Mr. Harper for this district, was in Irrigon Saturday between trains.

Mrs. N. Seaman and daughter, Fredia, went to The Dalles and Portland on a little visit and shopping tour Tuesday.

It became necessary to close the school for this week on account of so many of the children having the measles. Only a very few were able to attend school.

Hugh Holmes, brother of Gordon Holmes, ferryman, took number two Monday for Keokuk, Iowa. He has been visiting his brother at Paterson, Washington.

The seed potatoes for farm bureau members ordered by N. Seaman arrived Sunday and were distributed Monday. They are the finest certified Early Ohios coming into Irrigon district for some time.

The bulk of the melon acreage is now signed up through the association and the seed has been distributed to all who have signed the contracts.

Don't forget the Farm Bureau meeting Saturday evening, March 1st.

Large Portion of Hay Shipped

Many rumors as to the actual hay situation in the state of Washington have been circulated and with a view of correcting this condition and believing that accurate information is of general public value, the Northwest Hay Association has just completed a careful survey of the situation.

In examining the records of the railway shipments it appears that 92 percent of the hay of Yakima Valley is shipped over the Northern Pacific and that the record of this railway can be taken as a fair barometer to the hay movement.

The average car movement for the past three years over this line from Easton to Pasco, for the season, July 1, to June 30, of the succeeding year is 14291 cars and that the lowest figure for any year was 12768.

That during the average year about one-third moves before January 1, and two-thirds after.

That prior to January 1, 1923, there had been shipped over this line 5733 cars as compared to 5548 cars for the preceding season.

A very careful district survey obtained to date shows that there is now in this territory not to exceed 5700 cars of which both the Milwaukee and O. W. will take some toll. This will mean that if every ton available is shipped that the valley will establish a new low figure of hay movement this season.

In the Yakima Valley and the Walla Walla Valley and that part of Oregon shipping through the Wallula gap there is available less than 7000 cars, much of which hay is unfit for shipment.

It must be borne in mind that last season there was a practical clean up of hay and there was much hay damaged during the last summer.

It is not unusual to see a small carry-over of hay in an occasional season but the present situation does not justify the assumption of a carry-over this year.

For County Judge

To the Republican voters of Morrow county: I hereby announce myself a candidate for the nomination at your hands for the office of County Judge at the primary election in May, 1924. My experience of many years as county commissioner makes me conversant with the duties of the office I seek, and I shall greatly appreciate your support at the primary and for all past favors, I thank you kindly.
