**LOCAL NEWS ITEMS**

Harry Warren left Monday for Portland.

Ralph Davis and wife, and Bob Smith's motored to Umatilla Sunday.

W. A. Goodwin was pleased to have his son from Condon for a few days' visit last week.

J. C. Ballenger and Mr. and Mrs. E. Messenger and family motored to Pendleton Wednesday.

F. F. Kiltz and son, Noel, were Hermiston visitors Wednesday, both going up for dental attendance.

Arthur Mefford and Blanche, Father and Ona Imus drove to the Imus home in the Ione country.

Paul Hatch visited Boardman last Sunday. He has been working in Baker this year but plans to return to O. A. C. next year.

J. Imus and wife were Boardman visitors Monday. Their daughter, Mrs. Arthur Davis and son, Ted, returned with them after visiting her parents.

Ira Berger and wife drove up from Portland for the week-end. They were guests at the Albright home.

Miss Jessie Montgomery left for her home in Hood River, Sunday, after a several weeks' visit at the Royal Rand's home.

A pleasant surprise was carried out Monday night on Harold Rice at the Ernest Brown home in honor of his seventeenth birthday. The following families were present: Miller's, Healey's, Schuell, Co-

hooon's Ray Brown's and Miss Genevieve Gorgor.

Arthur Allen left Sunday for The Dalles, where he will drive a truck on the highway again.

Pat Pattee is enjoying a siege of the measles at the Olson home. His father, Mr. Pattee motored down from Condon Sunday to see him.

Frances Blayden is assisting at the Demarrou home for a time, Mrs. Leach (nee Lila Hecker) having left Tuesday for her home in Tillamook.

Tom Dempsey returned last Thursday from Longview, Wash., where he has been since early winter. He says things are very dull down there.

Bob Mitchell returned Thursday, from Kllickitat, where he has been. Mrs. Stevens and child came with him, and she will keep house for Mr. Mitchell.

W. A. Murchie and wife left Monday for their Wasco home after spending the week-end with the Ballengers. Mrs. Hattie Andrews left Monday for Portland.

Mrs. McKeaynold left Sunday for her home in Pilot Rock after several day spent in visiting with her daughter, Mrs. Kate Macomber and family. She came down to see the play.

Miss Force, of Portland, and Si Berry came up Saturday and visited at Prof. Mulkey's home over the week-end. Mr. Berry delivered a new Ford coupe to Miss Sears, the fifth and sixth grade teacher.

Lucile Sinclair left Monday for her home in Corbett, Ore., after spending several months here where she has assisted her aunt, Mrs. Sprague in the Service Station. Ethel Broyles has taken her place.

Max Dewesse and John Bruce went to The Dalles Monday and brought Mrs. J. F. Dewesse, the former's mother, up to Arlington. Mrs. Dewesse has been in the hospital under the care of Dr. Thompson, but is much improved.

**IRRIGON NEWS ITEMS**

By N. Seaman

Dale Watkins has accepted a position to drive a truck near Hepner and left on No. 1 Sunday.

Chas. Peters has finished the two jobs drilling wells in the Irrigon district (Warner's and Seaman's) and has returned to Mr. Nugent's place near Umatilla where they are driving deeper for more water. Mr. Warner's well is 81 feet deep and water came up within a few feet of the top. The well at N. Seaman's is down 76 feet with a lot of water. Bedrock was struck at this depth.

M. F. Wadsworth went to Hot Lake for further medical attention Friday and doctors have not yet been able to decide just what they can do for him.

Bishop Wisdom is assisting in Mr. Wadsworth's store until Mr. Wadsworth returns.

Fruit buds are opening up fast. The apricots are about 75 per cent in full bloom this week. N. Seaman and Son have their alarm thermometer connected with the house and smudges all ready for immediate action. No frost damage reported up to this writing. This should make apricots on the market about the 20th of June instead of the first week in July on account of three weeks' early bloom.

As a result of home demonstration work in Sparta-burg county, South Carolina, one rural family made a profit of \$1,345.14 in 1923 from their fanny flocks. Two years ago the husband and wife started with 20 hens, according to a report received by the United States Department of Agriculture. Their success has been largely due to their unwillingness to feed non-layers. They grow and mix their own feed and cull regularly. The capacity of their hatchery has been increased from 480 to 2,280 eggs. On the first of the year they had on hand an order for 2,000 baby chicks to be delivered in 1924 to two customers, one taking 1,500 and one taking 500.

ANY GIRL in trouble may communicate with Ensign Lee of the Salvation Army at the White Shield Home, 565 Mayfair Ave., Portland.

**FARM POINTERS**

(From O. A. C. Experiment Station)

An ounce or more of salt a day is required by the dairy cow. A little salt mixed with the feed and rock salt placed where the cow may reach it is the common practice of handling the salt problem.

Hawks, owls, skunks and snakes are the farmers best friends in rodent control.

A milk fever apparatus, sterilized and in working order, is kept constantly available on the most successful dairy farms. Plenty of exercise for the cow up to a week or two before calving will go a long way in preventing milk fever.

Silage fed directly after milking will seldom taint the milk.

Prevention is cheaper than cure in handling the fly problem. A single female house fly lays about 120 eggs at a time in animal excrement or filth. These eggs hatch and in ten to fourteen days are ready to lay eggs of their own.

Pound worms are the cause of unthriftiness, loss of appetite, rough feathers, loss of flesh and in severe cases of infection, may cause death. Now is the time to clean brooder houses and yards well. Keep the drinking water and feed clean and disinfect the feed troughs.

**Economic Work Is Stressed**  
The work of the Bureau of Agricultural Economics, United States Department of Agriculture, is now organized in three major groups dealing with the economics of production, marketing and general agricultural matters that concern both production and marketing, including agricultural finance, land economics, agricultural cooperation and farm population and rural life.

The organization comprises a Washington office with 990 employees and a field organization including 148 branch offices in 79 cities, and employing 936 people. The bureau has contracts through its own staff with every important agricultural industry.

The leased telegraph wire system of the bureau covering over 7,000 miles, formerly used for market news only, has also been made available for the dissemination of crop and livestock estimate information. A system of radio broadcasting provides communication with all the important agricultural sections of the country.

Let us print those butter wrappers.

**Political Notice**

To the Republican voters of Morrow county: I hereby announce that I will be a candidate for the nomination of County Clerk at the Primary Election to be held May 16, 1924.

GAY M. ANDERSON,  
41f (Incumbent.)

**For County Judge**

To the Republican voters of Morrow county: I hereby announce myself a candidate for the nomination at your hands for the office of County Judge at the primary election in May, 1924. My experience of many years as county commissioner makes me conversant with the duties of the office I seek, and I shall greatly appreciate your support at the primary and for all past favors, I thank you kindly.

G. A. BLEAKMAN, Hardman.

Just two things have made it possible for us to give you this 20% reduction on Tuxedo:

1. A reduction in the cost of Kentucky Burley tobacco and in package materials, as well.
2. The consolidation of three of our big plants into one. (Mr. Ford may not be in the tobacco business but he is right about consolidation.)

You know that it is the desire and policy of The American Tobacco Co. to extend to its customers the maximum of service.

Reducing the price of a great favorite like Tuxedo is our idea of delivering this service.

Tuxedo is always FRESH. Every package is--
