First Earth-Encircling Airway to Be Charted---To Take 5 Months.

Clover Field, Santa Monica, Cal.-Airmen of the United States army started around the world from here Brief Resurre Most Important Monday to chart the first globe-en- Committee's Plans Submitted circling airway. Eyes of 23 nations will be upon the skies between now and August as the American aviators wing their way on the 30,000-mile voyage in an effort to accomplish that in which recent attempts of the French and British airmen failed.

The flight started at 9:32 o'clock when, amidst acclaim of thousands, Major Frederick L. Martin of Chanute field, Rantoul, Ill., zoomed. His takeoff was followed immediately by that of Lieutenant Lowell H. Smith of Los Angeles and Lieutenant Leigh Wade of Cosmopolis, Mich. A score of army and civilian airplanes followed as an escort and soon disappeared into the clouds to the northward, which for more than two hours had raised doubts in the minds of the flight commanders as to whether they should attempt to dart through them over the Techanapi pass.

America's attempt to map the first world airway will be carried out in a series of flights ranging from 135 miles to \$60 miles. The first jump was from Clover field to Mather field, Sacramento. The second, will be from Sacramento to Vancouver, barracks, Washington, across the river from Portland, Or. The world cruisers are pontoons will be installed for marine landings until the fliers reach Calcutta, India,

The beginning of the flight, expected by many to be but a simple dash of 4845 votes in Tuesday's election, of 41/2 hours of ideal weather conditions, proved to be a beginning of the many problems that the intrepid airmen will be called upon to solve in their journey.

Endowment Policies to Be Given Veterans-Cost to Be About Two Billion Dollars.

Washington, D. C .- The proposed bonus to soldiers of the world war would cost a trifle more than \$2,000, 000,000 spread over 20 years, according to the majority report of the house ways and means committee on the pending adjusted compensation bill, which was made public Sunday night.

The average ex-service man, under the terms of the bill would receive adjusted compensation amounting to \$382 in the form of a 20-year endowment insurance policy for \$962. The amount of the policy would vary acscheduled to fly to Seattle, where cording to the age of the soldier and the length of his service.

After two years loans would be obtainable for 90 per cent of the value of the policy at the time, the loans on a \$1000 policy, for example, ranging from \$87.93 in the third year to \$900 in the 20th year.

The bill, says the report, provides

1. The fixing of the amount of the adjusted service credit to the surviving veterans.

2. The payment in cash of the adjusted service credit to those veterans to whom \$60 or less is due. 3. Provision for payment of the

adjusted service credit to dependents of veterans who have died be fore application has been made. 4. The issuance of an endowment insurance ceretificate to the remain-

der of the surviving veterans applying therefor in amount and on the terms hereinafter set forth. 5. The privilege of borrowing upon

such certificates after two years, in the manner hereinafter explained. 6. Security for such loans and prevention of their being "frozen assets."

#### ETERNAL MASTERS

To CHOOSE the right color for a sunset sky, or the exact tone for a storming sea, flinging its foam against the dripping rocks, is one of the many perplexities of the earnest painter. Living colors cannot be put on can-

vas at one stroke. The tints, shades, lights and shadows composing them must be "coddled" and worked in until they meet

and blend in natural harmony, and make a perfect whole, otherwise they lack sincerity and fall short of truth. To arouse admiration and hold it, the gold and purple of the west must

flash, glint and shine; the grays, greens, whites and umbers of the ocean and cliffs must sing their diapason notes in tune with Neptune's roaring voice.

To paint the truth, the artist must paint truthfully. He must at every stroke of his

brush hold to sincerity. A mere "daub" will not suffice for true painter. The picture over which he works and ponders must be a living, breathing offspring of Na-

It must be an aesthetic creation of exquisite beauty, showing in its atmosphere perspective and breadth, boldness and delicacy of treatment.

An artist may spend a life time in producing his masterpiece, just as a musician may consume years in composing an oratorio of stirring movements and entrancing changes of sufficient endurance to go singing and dancing down the ages-down to millions of music lovers yet unborn.

If we people of lesser gifts would give our homely endeavors such devotion as the genius bestows upon his we, too, would soon find ourselves rising to fame and honor and riding proudly on golden streams.

The young man in the field, at the forge or beside the desk, with his future before him, has within him the power to shape his own destiny. It is for him to decide whether he shall be master builder or a tinker.

If he holds to truth, loyalty-fears not to soil his hands in manual labor -is patient, industrious and accepts advice in the spirit in which it is given, no opposing force can hold him back in the race. Faith and industry are the eternal masters of Fate, ( by McClure Newspaper Syndicate.)
