## DAWES HAS SCHEME TO HELP FARMERS

### Impartial Commission Held the Chief Reliance for Soil Problems.

Portland, Or.—(Special).—Common sense will solve the problems of the American farmer, just as it has opened the way for rehabilitation of Europe, according to Charles G. Dawes, republican vice-presidential candidate, in a recent speech.

General Dawes would apply the remedy of common-sense in much the same way it was administered in the European situation. He urged a commission, non-political, competent and strictly non-partisan in its makeup.

He said the situation in agriculture is now comparable to the dilemma in which European industry found itself and with which the reparations commission had to grapple, after five years of futile bickering and with Europe on the brink of chaos.

John W. Davis, head of the democratic ticket, has sniffed at the Dawes agricultural scheme and referred slightly to "moth balls" in connection with it. But this was as nothing compared to what critics said of an expert commission to untangle European affairs. One prominent man said the plan was like prescribing a pill to cure an earthquake.

But General Dawes was equal to that sneer and said he had always held the opinion that common sense is a universal remedy, whether given in the form of a pill or taken as a steady diet.

The commission the President is about to appoint, it was admitted, would meet with many difficult situations and in order to get results worth while, it would have to be divorced absolutely from politics, it was said. General Dawes held it an economic problem and not a political question at all.

He pointed out the disparity in earning capacity of agricultural and industrial portions of the population and pointed specifically upon the situation not only of the beef, wheat, fruit and cotton growers but of the whole body of farmers throughout the nation.

"The idea of an economic, non-partisan and impartial commission, which the president has announced he will appoint to suggest a plan for legislative and other relief," he said, "is to have the subject impartially and competently considered from all standpoints."

"There is at present no consensus of either economic, agricultural or political opinion behind any specific remedy. It has not been possible to secure, for any proposed plan of relief, endorsement of all the leading agricultural organizations."

"The commission plan is the only one, as I see it, by which this great agricultural problem of the nation can receive a common-sense consideration, free from political poison."

"The experts' plan in Europe was accepted because settled public opinion demanded its acceptance and any government which had opposed its acceptance would have been overthrown by public opinion."

"There come crises so great in national affairs that by common consent there is a turning away from political quack doctors. It seems to me that such a crisis is confronted in the agricultural situation."

## Plans Announced for Snake River Dam

Washington, D. C.—Plans for the construction by the government of an immense reservoir at American Falls, Idaho, to furnish additional water for irrigating 1,500,000 acres of land in the Snake river valley, were announced by Secretary of the Interior Work. ## MRS. FERGUSON WINS IN SUPREME COURT

Austin, Texas.—Mrs. Miriam A. Ferguson, democratic candidate for governor of Texas, is eligible to hold office and she has a right to have her name printed on the ticket, the supreme court decided.

The question was raised by Charles M. Dickson, San Antonio, who brought suit in the 53d district court of Austin for a writ of injunction to enjoin Mrs. Ferguson's name from appearing on the official ballot on the ground that she was ineligible to hold the office of governor on account of her sex.

The injunction was denied and the case was appealed to the supreme court, which took it under submission last Saturday.

All six questions raised in the injunction suit were decided in favor of Mrs. Ferguson.

## GERMAN LOAN IN DEMAND

Bonds Go at Premium Above Price Intended for Flotation.

New York.—Five-fold over-subscription of America's \$110,000,000 portion of the \$200,000,000 German loan—a reception unprecedented in the history of foreign financing—overshadowed all other developments in last week's bond market.

Official estimate of subscriptions placed the total in excess of \$500,000,000, but bankers who participated in the offering estimated that on the basis of their individual orders more than a billion dollars' worth of the bonds could have been sold.

Public demand for the new bonds was so great that they commanded a premium of so much as 3% points above the offering price of 92 in stock exchange trading.

## Your Conversation

### "ACCOLADE"

In these days of historical movies all fans know that the hero may kneel, receive the tip of his sovereign's sword on his shoulders and arise "Sir Knight." They may not know that the ceremony is called an accolade, a noun derived from the Latin "ad collum." These two words mean on or near the neck, where the sword taps must fall in a properly administered knighting. The pronunciation is "ak-ko-laid," with accent on the first syllable.

Only 5 light trucks and 2 heavy trucks were checked, while the motorcycles totaled 3 and horse drawn vehicles 11. The fact that the count was made on Sunday accounts for the exceptionally light truck traffic.

## INFANT CHILD IS KILLED IN 200FT FALL WITH CAR

### Two Women and Four Year Old Boy Badly Bruised and Cut In Highway Accident

As a consequence of the sudden extinction of the head lights on a Ford car Thursday night, the six months old baby of Mr. and Mrs. A. W. Bielenberg of Union Town, Washington, was almost instantly killed and the baby's mother, aunt and little brother were severely injured when the car after leaving the highway plunged for a distance of nearly 200 feet over the bluffs, landing in a gruesome tangle of human and mechanical wreckage on the O-W right of way near the bank of the Columbia River about 5 miles west of Arlington.

Mrs. Bielenberg suffered severe bruises and a dangerous scalp wound requiring fourteen stitches before the dressing. The other woman Mr. Bielenberg's sister and the four year old boy were badly skinned and bruised in the long and terrible fall.

Besides the women and children Mr. Bielenberg and his brother were in the car. As near as they could tell, and from an examination of the scene of the accident the car swerved to the left off the highway and smashed its way through a wire fence about 50 feet from the brink of the cliff. Thinking they had stopped the car both men jumped out in the darkness, on a comparatively level bench. The car however headed straight on for the edge of the cliff and tumbled into space with the sorrowful consequences.

## ROBBER CAUGHT MAKES ESCAPE

Ray Hart after being picked up by the police in Salt Lake on suspicion, was held for sheriff Montague of Gilliam county and confessed to helping rob the Wade and Wilkins store in Arlington during the week of the Round-Up. He was brought back by the sheriff to Condon the first of the week and the authorities were busy tracing down information leading to the possible recovery of the stolen merchandise. He is also believed to have been implicated in the recent post office robbery at Hermiston. His arrest was brought about by the cooperation of the railroad, Portland and local officials.

Wednesday evening, however, Mr. Hart had departed from the county jail having apparently walked out of the front door at his leisure and disappeared. According to reports received here, Sheriff Montague was not sure whether Hart had picked the jail lock or whether he had slipped out while some visitors called to see some other prisoners. None of the other prisoners attempted to get away.

So far as known no trace has been found of the escaped man and his present address is not known.

The mash was sitting near at hand being made of prunes. One Mexican by the name of Miguel Asedo plead guilty and was given 3 months in the County Jail and a fine of \$250 by Justice W. A. Goodwin.
