McAlester, Okla.—W. J. Smith, alias Porter "Nick" D'Autremont, alias J. B. McAlester, who declared himself to be Ray D'Autremont, wanted for train robbery and murder in Oregon, is not to be taken in custody by federal officers as he is not the man wanted.

Under the eyes of high officials of the navy department the resistance of the uncompleted hull of the battleship Washington to attacks by shells, aerial bombs and depth bombs is being tested, forty miles northeast of Cape Henry.

COOLIDGE DECLINES TO DICTATE CHOICE

President Won't Take Part in Contests for Republican Leadership.

Washington, D. C.—President Coolidge, it was stated officially at the White House will take no part in the contests for republican leadership in congress.

Mr. Coolidge felt, it was said, that it was not his part to dictate or to suggest in such decisions and that he believed such a choice as was made by the memberships would be satisfactory to the administration.

A formal call was sent out by Senator Curtis of Kansas, the republican whip, for a party conference Friday, when a senate leader will be selected and other party organization problems settled. The notices were sent to all senators listed as republicans, including Senator La Follette of Wisconsin.

The contest in the house over the speakership made vacant by the election of Speaker Gillett to the senate from Massachusetts, will not come up for decision until the organization of the new congress.

It was said at the White House that Mr. Coolidge would not participate in this contest in which Representatives Madden of Illinois and Longworth of Ohio are now the principal candidates.

The president was represented as believing such decisions to be of a different character than those concerning legislation, in which it was declared he would not hesitate to lend assistance or give advice when asked.

BRITISH COLUMBIA NOT TO INTERFERE

Victoria, B. C.—The British Columbia government is not attempting to interfere with the United States in its efforts to prevent the smuggling of liquor into California on Canadian boats operating out of British Columbia ports, and has not warned American officials against prosecuting Canadian citizens.

This clearcut statement was made in the provincial legislature here by A. M. Manson, attorney-general, following the publication of statements in American newspapers to the effect that he was moving to save Canadians arrested in connection with the seizure of the Canadian liquor-carrying ship Quadra off San Francisco recently.

The seizure of the Quadra has caused a sensation here because of the interest of well-known business men in her operations.

BRITAIN REPUDIATES TREATY WITH SOVIET

London.—The new government has shown its hand as regards its policy toward Russia, by publishing communications addressed to M. Rakovsky, soviet Russian representative in London, in continuance of the correspondence on the famous Zinovieff letter, so suddenly interrupted by the downfall of the MacDonald administration.

Most important is the somewhat curt notification that the British government does not intend to ratify the treaties concluded with the soviet government by the MacDonald ministry.

A suggestion was made in Russian quarters for the renewal or reopening of the negotiations, but apparently from the tone of the correspondence this is a closed chapter so far as the Baldwin government is concerned and any further initiative in this direction must come from the soviet government.

Mrs. Harding died at the home of Dr. Carl W. Sawyer, son of the late Dr. C. E. Sawyer, President Harding's physician. She had been critically ill for several weeks at White Oaks farm, the Sawyer home, where she had been living.

UMATILLA RAPIDS PROJECT FEASIBLE.

Salem, Or.—Development of the Umatilla rapids project on the Columbia river in eastern Oregon is feasible from an engineering standpoint, according to a report filed in the offices of the state engineer here by E. R. Crocker, engineer for the United States reclamation service. The report said power could be developed at a cost of .0012 of 1 cent a kilowatt hour, or \$7.70 to the horsepower year, opening the possibilities for great development as soon as the market for power justifies.

EGYPT AGREES TO BRITISH DEMANDS

Government Agrees to Apologize and Pay Indemnity of Half Million Pounds.

Cairo.—The Egyptian government's reply to the British note in connection with the assassination of Major-General Sir Lee Oliver Stack, governor-general of the Sudan and sirdar of the Egyptian army, agrees to Great Britain's demand for an apology, punishment of the assassins, and an indemnity of £500,000. It also promises to prevent any disturbance of the peace by demonstrations.

Great Britain delivered an ultimatum to Egypt threatening "appropriate action" if an apology and indemnity for the assassination of Sir Lee Stack are not forthcoming immediately.

Lord Allenby, British high commissioner, informed the Egyptian premier, Zagloul Pasha, that instructions had been given for British forces to occupy the Alexandria customs. This, he said, was the last measure to be taken in consequence of Egypt's non-acceptance of all the British demands.

The Egyptian cabinet, headed by Zagloul Pasha, tendered its resignation to King Fuad, who accepted it. The king summoned Zivar Pasha, president of the senate, who consented to form a cabinet.

The indemnity of £500,000 demanded by the British for the death of the sirdar, was paid by the Egyptian government Monday.

The payment was accompanied by a note protesting against the British demands for evacuation of the Sudan by Egyptian troops and for the withdrawal of all opposition to the wishes of the British government, concerning the protection of foreign interests in Egypt.

ACHESON SURVEYS AMERICAN OPERATIONS

Barclay Acheson, well-known to many in Oregon and Washington because of years of residence in Chesham, South Bend and Portland, sailed from New York on November 5th, to continue his work as Director of Overseas Operations for the Near East Relief. Acheson has recently spent more than a year in the Near East, making careful survey of the different fields where American charity is caring for more than 50,000 children.

Speaking before clubs of Portland, Seattle and Tacoma business men, Acheson declared that the Near East Relief is coming into a new phase of work. "Except for Syria and Greece, there is little more than the normal amount of suffering in the Near East," he said. "It is true that the situation in those camps is desperate, and there are thousands of children there who will perish this winter simply because there are some folks in America who are getting tired of giving. Anyone who has ever seen the miracles that I have seen—homeless and hopeless, ragged children turned into happy, confident, healthful children—would never talk about being tired of giving."

"During the past year we saved 16,000 children from going blind and we trained hundreds of girls to go out as nurses to save the sight of other thousands of children, as well as to raise the health standards everywhere they go."

"Boys trained in modern methods of agriculture by Sam Newman of Seattle and Leonard Hartill of Corvallis, are revolutionizing the ideas of farmers who are securing twice their former crops by the use of these modern methods."

"Sometimes people say to me, 'Why don't these people do something for themselves?' And I wonder if they mean the children, some of whom begin as early as eight to help earn their own way."

"The Near East Relief is not giving aid to adult refugees except in the distribution of old clothing. And last year we gave help to 500,000 in this way. Our program is purely one of child-care, and as soon as our children are able to support themselves, our work will be finished. But these are children, mostly orphans, strangers in a strange land, with no claim whatever upon the governments who have given them a place to live."

Acheson declared that the Greek government is doing more to aid the refugees than all the relief agencies combined, and is spending more on them than on all governmental agencies combined.

INTERNATIONAL GOLDEN RULE SUNDAY DEC. 7

International Golden Rule Sunday is a test for our religion—our sincerity. It is a day for personal stock taking, for measuring our lives by a universally accepted standard of life to ascertain how nearly we have attained to an ideal. It is intended as a day of plain living and high thinking.

On this day all persons who believe in Golden Rule are asked to provide for their Sunday dinner approximately the same simple menu provided for the tens of thousands of children in the Near East Relief orphanages.

A standard menu for a Golden Rule Dinner is as follows: Pilaf Armenian or macaroni and cheese, stewed apricots with corn syrup, brown bread and cocoa.

A stew of beef and vegetables may be substituted for the pilaf or macaroni is desired.

The food should be donated by local merchants.

The recipe for pilaf of the chef of the Hotel Les Bergues, Geneva, Switzerland, where the first International Golden Rule Dinner was held, is as follows: 4 cupfuls well-washed rice, 2 cupfuls butter or butter substitute, melted, 2 cupfuls tomatoes cut up, 1/2 cupfuls real and lamb broth, 7 tablespoonfuls chopped onions. Mix the onions with the butter; add the tomatoes; allow to stand for five minutes; pour over the broth and when boiling add the rice, salt and pepper. Stir with a fork to keep it from burning, cover tightly and cook in the oven for 30 minutes. Then take from the oven and let stand for 15 minutes. Take the rice from the kettle with a skimmer, lifting it from the bottom to the top to keep the grains separate. It is imperative to have a kettle with a cover that closes hermetically so that the steam may be absorbed by the rice.

The above quantity will provide for ten people.

AIRMEN DROP IN COLUMBIA

Two Fliers and Plane Crashed From Water Below Cascades.

Portland, Or.—Seven army airplanes, cut off by fog from their landing fields in Portland and Vancouver, cruised up the course of the Columbia river Sunday afternoon and landed in a small field on the Washington side about ten miles below the Cascades, just as the last of their gasoline was consumed. The eighth plane of the squadron, its emergency gasoline tank falling at the crucial moment, landed in the water, and its occupants, Lieutenant A. W. Davis of Hood River and Sergeant Smart of Portland, were rescued, wet but unhurt, by boatmen. The plane was dragged ashore and, aside from a broken propeller, was said to be little worse for the experience.
