### AMERICAN IDEALS GIFT TO NEAR EAST

"I have always been interested in Near East Relief," stated a prominent social worker of Portland a few days ago, "but, until the last few months the whole thing seemed so hopeless it seemed to be just one dreary round of massacre and sorrow over and over again."

"I am sending a larger check this year for now that the children are out of Turkey and there is no more danger of massacre it seems to me we have the big chance for which we have been looking for these many years. It seems too good to be true that the massacres are ended but such is the case."

"Another thing that encourages me is the great constructive program which the relief agency is carrying out and where methods of education, hygiene and industry have replaced relief methods. This I understand is true of the larger part of the Near East program although much relief work is still necessary in the pitiful camps in Greece and Syria where thousands of children are still homeless and many will die this winter unless help is given."

"The going to the Near East of men like Dr. Paul Monroe of the Teachers College of New York and a nationally known authority on education, and Dr. R. R. Reeder, equally well known who with Dr. James I. Vance formerly moderator of the Presbyterian Church and the carrying out of their suggestions for the training of these children may mean much for the future welfare of that stricken country."

"I give money now to the Near East Relief just as I give it to a college or any other character forming organization in this country expecting my reward in knowing that boys and girls are being trained for successful lives in their own countries. One hundred thousand children going out through the Near East to carry American ideals of life and culture will be one of the greatest contributions that any people could possibly make to a war stricken land."

### RELIEF WORK HEROINE BACK FROM NEAR EAST

MRS. W. E. RAMBO

Mrs. W. E. Rambo, a former resident of Chehalis, Klamath Falls and Baker, recently returned from the Near East.

She and her husband were singled out by the Queen of Greece for special thanks in connection with the rescue of fifty thousand Greeks in Batoum, following the World war. With her husband, she walked literally in the steps of the Apostle Paul as they took hundreds of children from a Turkish besieged village through Tarsus to safety on the Isle of Cyprus under the direction of the Near East Relief.

"We are familiar with suffering and even starvation," states Mrs. Rambo, "before we went to the Near East, for we spent our honeymoon in India in the midst of a great famine where hundreds of children were left at our very doors. With relief money sent from America we gave employment to hundreds of men who were thus able to support their families, and the buildings are in use today as orphanages."

"Our oldest son, Victor, returned a few weeks ago as medical missionary to the very spot where he was born, and he finds that the leaders in the community are the children whom we saved from death twenty-five years ago. With this experience back of us we naturally look for great results from Americans taking care of a hundred thousand children in the Near East."

### ARMENIAN CHILDREN WANT AMERICAN FLAGS

Jerusalem.—Armenian children in the Near East Relief orphanages in Palestine and Syria have petitioned the American consul here to secure American flags for all their orphanage buildings. In a letter to the consul, they state: "It is the only flag we have, and the only one that means a homeland to us. America has been our father and mother, and we want the Stars and Stripes always with us as a constant reminder of what we owe to your country." The consul has invited contributions of flags, 2 feet by 5 feet, or larger.

### "BLUESTOCKINGS"

Ladies who can discuss intelligently the latest topics are often known as "bluestockings." Boswell, in his "Life of Johnson," tells us about the "bluestocking" clubs which flourished in London. The literary lions of the day were frequently the guests of women who gathered to listen to their words of wisdom. A certain Mr. Stillingfleet, a popular conversationalist of Johnson's day, wore to these affairs the brilliant blue stockings from which the clubs derived their name.
