

Boardman Utellem

Edited by the Students of the Boardman High School
— FOURTH YEAR, 1924-1925 —
FEBRUARY 6, 1925

Despite the fact that the Boardman schools were closed for a week on account of scarlet fever quarantine, we resumed our school duties last Wednesday morning. While the attendance is not up to normal due to colds and sore throats, yet the larger proportion of pupils are on the job. Only three are absent from high school this week. The first two rooms show the greatest shortage in attendance. We hope to have practically all back again the first of the coming week.

Quarantine regulations were lifted from the Ayers home last Wednesday and the chances are good for no further trouble in making any additional "shut-ins".

Goodwin Bros. are making needed exits for the purpose of installing the new fire escape exits from the school auditorium. Two doors are required from the two west corners of the room, and from these two openings, there will be built the necessary steps to the ground extending, one North and one South, alongside the main building.

The Old Oregon Trail
Here's to the memory of the Oregon Trail.
"Ore which rode heroes brave and free
They were men who could never fail,
To find and win our own Country."

This famed pass we read about.

Was made by men who fought and won.
The lurking Indians were put to route,
After a full days work was done.

A mighty Eagle sails on high,
A living emblem of our Nation.
He is king of all the sky,
His shadow falls on our relations.

For sideby of this tall so still—
A fast moving train now does roar.
A fleeting shadow across a hill,
The graves of men who rode before.
Howard Packard, Eng. 8.

The Midnight Ride

The night was dark,
The mud was deep;
I lounged to park
And go to sleep.

The wind blew strong,
The ford ran weak,
The thing went wrong
And sure did squeak.

The gas was gone,
It then did balk;
I rode not on
But took a walk.

The rest you know,
Had lots of kick;
My walk was slow
As mud does stick.

James Howell, Eng. 8.

AMBASSADOR HOUGHTON

Alanson B. Houghton, now ambassador to Berlin, has been selected by President Coolidge to succeed Frank B. Kellogg as ambassador to Great Britain.

ALLEGED MONOPOLIES TO BE INVESTIGATED

Washington, D. C. — The federal trade commission was directed by the senate to investigate alleged monopolies in the electrical power and the tobacco industries and to inquire into the existence of a national propaganda to discourage public ownership of utilities.

A resolution by Senator Norris, republican, Nebraska, calling for investigation of the "extent to which the General Electric company" or its subsidiaries monopolize production and distribution of electrical energy was attached, by a vote of 55 to 25, to the tobacco investigation resolution of Senator Ernst, republican, Kentucky.

The Ernst resolution, which provides for inquiry into reported agreements between the Imperial Tobacco company of Great Britain and the American Tobacco company by which, it was alleged, co-operative organizations in the United States are boycotted and each concern was given a monopoly in its own country, was then adopted without a record vote.

BRIEF GENERAL NEWS

Julius Fleischmann, millionaire yeast manufacturer and sportsman, dropped dead while playing polo.

The allies, through representatives at Athens, intervened actively to prevent hostilities between Greece and Turkey.

The senate seated Senator Mayfield, democrat, of Texas, dismissing the contest brought by George E. B. Peddy, defeated candidate in the 1922 election.

Sentences of two years in the federal penitentiary at Leavenworth, Kan., and \$10,000 fines each, were imposed on Charles R. Forbes, former head of the veterans' bureau, and John W. Thompson, St. Louis contractor, for conspiring to defraud the government in connection with bureau hospitalization contracts.

Beet Sugar Combine Charged.

Washington, D. C.—Charges of unfair methods in competition are made by the federal trade commission against the Larowe Milling company of Detroit, and 17 manufacturers of beet sugar, in a complaint made public by the commission. The complaint charges that the respondents are engaged in a wrongful combination and conspiracy to suppress competition in the marketing of beet pulp, a by-product of beet sugar manufacturing.

Tacoma Bank Teller Shot.

Tacoma, Wash.—H. H. Schmidt, 40, teller in the National Bank of Tacoma, who was shot down by bandits in the streets of Tacoma as he was carrying \$3900 in silver and currency to the bank's branch, died from his wounds. The bandits, four in number, one of them a woman, made their getaway with the \$3900.

French Envoy Not Authorized to Act.

Washington, D. C.—Emiel Daeschner, the new French ambassador to the United States, had not received any instructions from his government to take up the matter of funding the French debt of \$4,000,000,000, it was learned at the French embassy.

Sessions on World Court Postponed.

Washington, D. C.—After two hours discussion the senate foreign relations committee indefinitely postponed further action at this session on world court legislation.

Approved Styles for Little Girls

The new wash fabrics for spring are in the shops and so are pretty and sturdy frocks made of them, for little girls. Neither the materials nor the dresses reveal anything startlingly new in design, but there are details of finish and adornment that put the signature of this spring on the new arrivals, and they wear the colors of the season.

Plain linen in high colors, chambray checked gingham, voile and other dependable cotton goods, with crepe de chine and other crepes in silk, afford a sufficient choice for any sort of wear. Outline embroidery in cotton floss is the outstanding decoration on play frocks while patterns like that shown in the picture, appear on dressier models.

IMPORTANT BILLS HANG IN BALANCE

Vital Measures Not Likely to Be Cleaned Up Before Congress Adjourns.

Washington, D. C.—With only a little more than three weeks left of this session of congress, the fate of many important executive measures is hanging in the balance.

Leaders are prepared to bend every effort to complete action on the Muscle-Shoals leasing bill, the postal pay and rate increase measure, a co-operative marketing bill, the McFadden banking bill, the measure for purchase of the Cape Cod canal and the \$150,000,000 good roads bill.

If these can be put through, together with the remaining appropriation bills, the republican leaders will be well satisfied with the accomplishments of the short session. But they are not at all certain that this program can be carried out.

In the realm of foreign affairs the senate has abandoned all hope of action on the world court questions, and there is doubt that a vote can be had on the Isle of Pines treaty. The German commercial convention may be ratified with reservations broader than those suggested by the state department.

The house and senate agricultural committees are moving so slowly that even the friends of farm aid legislation realize that only a part of the program recommended by the president's agricultural commission can be translated into law before March 4.

Turkey Will Ignore Action of League.

Constantinople.—Turkey will ignore any decision of the League of Nations relative to the expulsion of the patriarch of the Greek Catholic church, according to semi-official information. Turkey regards the expulsion of the patriarch as a domestic matter.

RUSTY JUST HAD A NICE BIG BONE FOR LUNCH TOO

WELL, IT WASN'T ENUF FOR HIM

HOW DO YOU KNOW IT WASN'T ENUF FOR HIM

CAUSE HE JUST STARTED TO EAT A MAN OUT THERE

WILL INVESTIGATE COLLINS TRAPPING

Cave City, Ky.—Circumstances surrounding the trapping of Floyd Collins in Sand cave, and the efforts of volunteer rescuers to release him will be made the subject of a military court of inquiry. Brigadier-General H. H. Denhardt, in command of guardsmen here, announced.

Three principal theories have developed in the Collins case—that the imprisonment of Collins by a rock slide on his leg is a publicity hoax; that enemies, finding him trapped, caused the walls of the cave to collapse so he could not be rescued alive, or possibly caused the slide which trapped him; and the most generally accepted theory, Collins' own story in the early days of the rescue work, that he really was accidentally trapped after discovering a cavern more beautiful than any yet found in the region.

Five electrical tests conducted with voice amplifiers Monday have convinced H. T. Carmichael, in charge of the Floyd Collins rescue work at Sand cave, that Collins is still alive after ten days' imprisonment.

Pullman Surcharge Held Not Unfair.

Washington, D. C.—The present surcharges on Pullman sleeping and parlor cars is not unreasonable, the inter-state commerce commission held. This surcharge, which is in addition to the regular passenger fare for the transportation of passengers in Pullman cars, goes entirely to the railroads.

Child Labor Bill Refused by Idaho.

Boise, Idaho.—Idaho was added to the states refusing to ratify the federal child labor amendment when the house defeated the resolution for ratification by a vote of 18 to 38.

NINE BILLS GIVEN SENATE PRIORITY

Washington, D. C.—Faced by a jam of legislation in the single month remaining of the present congress, the republican steering committee of the senate had selected a priority list of nine measures to be pressed for action in that body before adjournment March 4.

Heading the list is the German commercial treaty, which the foreign relations committee took up Tuesday with a view to a prompt report to the senate. Second in line is the McLean bill authorizing the treasury to reduce the interest rate on government loans to railroads.

Omission from the list of the farm relief measures recommended by the president's agricultural commission was explained by leaders as due to the fact that they are still in a formative stage. Conspicuous among other omissions from the list were proposals for American adherence to the world court and the Crampton bill to establish a separate prohibition enforcement bureau.

Other measures on the steering committee's program include the civil service retirement bill, the McFadden banking bill and the governmental department reorganization plan. In addition to the committee's program, there is now pending in the senate the \$75,000,000 good roads bill and the Isle of Pines treaty. There appears little chance of action on the treaty at this session.

Moses Lake Dam Goes Out.

Spokane, Wash. — Several houses were wiped out and winter-sown crops were ruined when Moses lake dam, 20 miles north of Othello, in Grant county, burst shortly before noon Saturday.

Dr. H. O. Turrentine

Dr. Hugh O. Turrentine, eye specialist, who has been appointed chief medical adviser of the Near East Relief commission in Armenia. Doctor Turrentine, who is a graduate of the Kansas City College of Medicine, and of the Chicago Eye, Ear, Nose and Throat college, has called for the Near East Relief orphanage center for 12,000 at Alexandropol, Armenia, from where a campaign is being waged against trachoma.

Give Us the News

It may tickle your vanity to "close up" about some little news item and then find it all in the paper but it's darned poor co-operation from our standpoint.

We are not mind readers. We want the news from everyone but we cannot spend all our time chasing people around who could tell us the item if they would.

We are trying to give you a good paper. We cannot give 100 per cent satisfaction, because we know that is impossible. The human capacity to accept all benefits as natural personal reward and to "beef" at anything detrimental to each ones individual self standard of personal importance is past the ability of any newspaper to overcome.

Still we go on doing our best, trying to exert a stimulating influence for the welfare of the Community and to give you a newspaper that is really worth talking about whether you "beef" or praise.

But—please send in the News. We thank you for your help and co-operation along this line. Your home, business, your hobby, all occasionally engage in activities that are interesting news if we only know about it. Don't hang back but call us up, send in the notes or come in and see us. Again we thank you.

SEED WHEAT BILL VETOED

Gov. Hartley Regards Legislation as Wrong in Principle.

Olympia, Wash.—Governor Hartley vetoed the \$400,000 appropriation from the reclamation revolving fund for seed wheat for the farmers of the drought stricken region.

He gives as his reason that this bill asks him to put the finances of the state into a proposition which is considered unsafe and unsound for private capital.

He also takes occasion to say that he regards this kind of legislation wrong in principle, and not a proper function of government, "certain to lead the government into the by-paths of group or class legislation, and into the pitfalls of paternalism, a policy to which I cannot subscribe."

Notice For Publication

Department of the Interior, U. S. Land Office at The Dalles, Oregon
January 29, 1925.

Notice is hereby given

that Werner Rietmann, of Iona, Oregon, who, on February 21, 1922, made Homestead Entry No. 021708, for NE 1/4 and S 1/4, Section 34, Township 3 North, Range 29 East, Willamette Meridian, has filed notice of intention to make final three year proof, to establish claim to the land above described, before G. M. Anderson, United States Commissioner, at Heppner, Oregon, on the 14th day of March, 1925.

Claimant names as witnesses:

T. W. Craig, George Gogger, Victor Rietmann, and P. M. Roche all of Iona, Oregon.

J. W. Donnelly, Register.
