BOARDMAN HIGH SCHOOL NEWS

In a fast game of basket ball on the Stanfield floor, the Boardman quint met and defeated the Stanfield boys by a score of 18 to 16. Stanfield had the best end of the score at the end of the first half. But a keen rally on the part of the visiting team won the honor for which they contested.

Fossil high made long journey to the Pendleton tournament for the explicit purpose of being trimmed by the Boardman quint. This looks like what they did for their crack team was defeated on the first round by the local team on a neutral floor with fine officials in charge, by a score of 19 to 16. This defeat on the part of Fossil goes to show all the more that the Fossil floor is a freak one.

Boardman is to play McLoughlin High in the second round. Here's good "going" to our boys.

HIGH SCHOOL VAUDEVILLE BIG SUCCESS

If the sentiment expressed by the applauding audience is any sure sign of success, then the High School Vaudeville and Athletic Benefit was one big wearing success. Let us state briefly what took place, for it may be that some wondering soul was not an eyewitness.

The show started off with a gypsy camp scene, when Miss Barbara Hixson did the tambourine dance, accompanied by three melodious gypsy lasses and the musical strains from the violin of Miss Swift, the gypsy lover of the dancer. At the fiddle was noted fortune teller and steaming kettle.

On came in quick succession the two Dark Town Comedians, Edward McClellan and Norman Bailey. They held the audience on their toes with jokes and maneuvers for several minutes. The Spanish Dancers pleased all with their terpsichorean art. The dancers were Elmo Russell and Edna Reinhart.

The Misses Hixson and Aldrich pulled one of the cleverest stunts ever seen in local vaudeville when they appeared in "Hayseed" costume, and sang and recited to the complete upset of the entire audience. Laughter was a mild name for the pleasure they afforded.

Weldon Ayers in his "Tramp Monolog" spoke not of the ridiculous but was able to lead his hearers from the cheap stuff to the more sublime.

Oh, Boy! Those athletic lads can do the "Arrow Dance." The "Red Corn" girls are not in it for such grace and beauty (???)

Edward McClellan, assisted by Master Tommie Bailey, could do the ventriloquist stunt with pleasing applause.

When it comes to the Scotch, Elmo Russell was "jake" with his admirers. His reproduction in costume was especially well received, and answered to several encores.

The "Egyptian Dance," so effectively given by Miss Alice Aldrich, was rated as one of the top-liners on the program for the evening. The excellent costuming and fantastic steps were so well done that they paid tribute to the dancer of Cleopatra's day.

Coach J. N. Griggs with his announcements and thanks to the eager audience was the unexpected intruder. His artistic touch on the "famous" violin will hold us all for a while—that is while he enjoys his "weak end" trips.

Last, but not least, came the beautiful pantomime of the American National hymn, "My Country 'Tis of Thee," by Miss Beautiful, Helen Cluff. The poses and displaying of "Old Glory" as the hymn was sung by a full mixed quartette made a most fitting close to what seemed to be almost too short a program which had run for nearly two whole hours.

Special mention should be made of the fact that Mrs. J. O. Russell, who presided at the piano through the entire program should be given her portion of the praise and esteem for such services. Without them we would have been much handicapped in putting over our big vaudeville show. Our janitor, Mr. McComber, did his bit in handling the "spot light" for us.

The gross receipts for the night were \$61.75. With a 50c admission, we should have had a house well over \$80. But we are thankful for the fact that we can pay out and be free from debt once again.

SENIOR CLASS NEWS

The senior class boasts of three members on the first string in basket ball. Elmo Russell is a senior and the captain. Earl O. is a senior and "Longby" center, and Edward McClellan is the "chumpy" guard who

stands as the mighty sentinel near the opponent's basket.

The "Only Senior Girl" B. L. L. stayed on the "Job" last Thursday morning. It pays to be loyal to our school.

What is the matter with the Senior-Junior class party to the underclassmen? It looks like the Sophs are about to beat us to it.

MR. COX RETURNS

Enjoys Months Vacation at Frisco — Visits Legislature on Return Glad to be Back

Business and trade in and around San Francisco appears to be quite active, reports H. M. Cox, cashier of the Arlington National bank, who returned on Tuesday from a months vacation spent in the Bay City with his brother. The almond trees are in full bloom along the highways in the Santa Clara valley, and the famous southern climate most enjoyable.

Mr. Cox stopped over in Salem to visit the legislature one day last week and spent several days visiting with his daughter Mrs. Miriam Urquhart in Portland before coming on home. He says he enjoyed the trip immensely and feels much better for the vacation from duty.

Modern Beliefs

"There are three extremely common myths," says William Lyon Phelps, in Scribner's. "Every writer except the most popular believes that his publishers do not sufficiently advertise his works; every owner of a rising house believes that his architect does not give the case sufficient personal attention; every golf player believes that his friend plays his worst game when he is a partner and his best when he is an opponent."

"Liquor Now Poisonous." "I never get drunk," he hastened to add. "I never got drunk in my life. But the trouble is the liquor now is not good. It is poisonous."

BATTLESHIP REMAINS FINAL WAR ARBITER

Naval Board Reports Airplanes Would Never be Paramount on the Sea.

Washington, D. C.—President Coolidge added a new chapter to the air service controversy by making public the report of a special naval board which found that the battleship remained "the final arbiter in sea warfare," and airplanes would never "assume paramount importance."

The president also issued a formal statement in explanation of the \$30,000,000 supplemental naval items recently submitted to congress by the budget bureau which were founded on recommendations of the naval board but sharply modified. The complete building program submitted by the board involved expenditure of \$80,000,000 a year for three years.

The president makes no reference to the board's findings as to relative military value of aircraft, battleships and submarines, the problem he assigned it for study last September. He adopts the board's view, however, that modernization of old battleships (not including the elevation of guns) is the first requirement and completion of aircraft carriers and their planes second.

REPORT AGAINST CAR CONTROL BY PACKERS

Washington, D. C.—Divorcement of the big five meat-packing companies from their control of meat refrigerator cars was recommended by the federal trade commission in a report sent to the senate in response to a resolution calling for information regarding the consent decree entered into by the packers with the department of justice in 1920.

The commission also recommended that steps be taken either by the courts or congress to separate the big packers finally from their ownership of stockyards through sale either to existing agencies such as the principal connecting railroads, or to separate companies, "entirely independent both in law and in fact." Stockyards and railroad cars are in fact adjuncts of transportation, the commission held, and as such, their operation should be subjected to regulation of the interstate commerce commission.

STATE HAS \$14,000,000

Olympia, Wash.—State coffers hold \$14,172,868.59 as the cash balance of all funds February 14, according to report of State Treasurer Potts, with business for the week of \$344,955.95 in receipts and expenditures in warrant payments of \$166,994.80.

The state general fund is holding up well with a balance of \$4,414,465.11, the motor vehicle fund has \$1,490,557, to which will be added the \$2,268,382 in the suspense fund representing receipts from motor vehicle licenses. The accident fund holds \$1,713,903 and the reclamation revolving fund has \$757,062.

There is an overdraft in the capital building fund of \$551,426, which will be paid off from tax receipts on last fall's levy.

Relics of Incas Found in Peru.
Buenos Aires. — A dispatch from Lima, Peru, says that ancient cities, one of the Inca and the other pre-Inca origin, have been discovered in the mountains near Cuzco. The discoverer says that he found remains of strong buildings, a temple and a fountain in the Inca city and that there were traces of a wide road descended from the city down the mountains into the valley.

Five Bank Robbers Captured.
South Bend, Ind.—After the robbery of the Millburg, Mich., bank of \$2900 in currency and \$52,000 in negotiable securities, sheriff's posse and citizens chased the five members of the bandit gang more than 40 miles, engaged in revolver and shotgun duels with the bandits, wounding four of them and capturing them at New Carlisle, Ind.

England Awaits Arms Parley Call.
London.—The next move concerning the proposed limitations of armament conference is expected to be taken by Washington. Word was passed around in unofficial circles that Great Britain stands ready to accept an invitation to participate in such a conference just as soon as it is received.

Food Prices Increase Two Per Cent.
Washington, D. C.—Another boost of 2 per cent in the average retail price of food in the month ending January 15 was reported by the department of labor on the basis of figures from 51 cities.

DATA ON COLUMBIA BASIN IS SUBMITTED

Washington, D. C.—A summary of the findings of a group of six engineers recently appointed to review engineering, agricultural and economic data on the proposed Columbia river basin reclamation project in the states of Washington and Oregon was received at the interior department. Details will not be made public until the full report is received and studied.

A delegation of officials of the state of Washington and representatives of the Columbia River Basin league held a conference with the committee at the interior department presenting additional information regarding the project. Congress authorized the secretary of the interior to make a survey and report on the proposed Columbia river basin irrigation project, appropriating \$100,000 to cover the cost of the investigation.

Give Us the News

It may tickle your vanity to "close up" about some little news item and then find it all in the paper but it's darned poor co-operation from our standpoint.

We are not mind readers. We want the news from everyone but we cannot spend all our time chasing people around who could tell us the item if they would.

We are trying to give you a good paper. We cannot give 100 per cent satisfaction, because we know that is impossible. The human capacity to accept all benefits as natural personal reward and to "bee" at anything detrimental to each ones individual self standard of personal importance is past the ability of any newspaper to overcome.

Still we go on doing our best, trying to exert a stimulating influence for the welfare of the Community and to give you a newspaper that is really worth talking about whether you "bee" or praise.

But—please send in the News. We thank you for your help and co-operation along this line. Your home,

business, your hobby, all occasionally engage in activities that are interesting news if we only know about it. Don't hang back but call us up, send in the news or come in and see us. Again we thank you.

GILLIAM COUNTY MAN EXHIBITS AT NATIONAL CORN SHOW

H. Weiss of Lone Rock is an exhibitor in the National Seed Corn Show to be held in Chicago March 2 to 7, according to advices from the Sears-Roebuck Agricultural Foundation which is sponsoring the show and offering a reward of \$17,000 in prizes. Mr. Weiss is out after the Kittle trophy of \$1,000 offered for the best ear of seed corn in America.

The National Seed Corn Show is bringing home to corn growers the necessity for careful selection and testing of ears this spring in order to insure a normal crop for 1925. E. B. Heaton, General Manager of the show, estimates that if farmers will pick out their seed corn and test it for germination before planting it will mean a total increase of one billion bushels next harvest time.
