SCHOOL COMPOSITIONS

"Loyalty" by Nellie Messenger.

The success of every high school depends largely upon the high school students themselves, they look toward the teachers for their help, but they are not always ready to do what they can for themselves even when they are told. They must always keep in mind the honor of high school and even the grade children are responsible for their conduct, but they aren't expected to act with as much responsibility as the upper classmen. The student must uphold his school at all times and be ready to help anybody who needs their help. They must try and learn their lessons from day to day instead of learning them in class or not at all. If they haven't time at school, take them home and study about three hours.

We should be polite at all times and always be ready to do whatever our teachers wish done. We should not appear angry, but appear quiet and orderly about the building. There is a time and place for everything. We must not mar the school building in anyway, for it was built for a place of learning instead of a place to destroy. We should always be sportsman-like in every thing and we should never play "hooky".

1. Courtesy is good will toward others. Treat others as you yourself like to be treated.

2. Promptness at assembly and recitations is a sign that you are alive.

3. Attention in the classroom to the particular subject in hand is the only way to get profit from it. Otherwise you are a nuisance.

4. Chewing gum is well enough on the athletic field when engaged in a violent exercise, but it has a cheap look under ordinary circumstances.

5. Move about quietly; the little machine makes the most clatter.

6. Be honorable, truthful and trustworthy in everything.

7. President Coolidge gives this as his best advice to you: "Work hard and behave yourselves." Behave like a man, work don't shirk.

Junior Senior Class News

Elmo Russell has been confined to bed the past ten days with a bad sore throat and bronchitis. He must have contracted a cold while playing the games at the Pendleton basketball tournament.

Katherine Brown and Mildren Duncan of the Junior class were out the latter part of this week on account of illness.

Francis Gilbreth was required to serve on the hay baller for the past five days.

Here's hoping all will be back on the school job next Monday.

Delbert Johnson is now finishing a piano stool which he intends to give to his sister, Rachel. This stool is made of oak, shows a wonderful piece of craftsmanship and it is a good specimen of the work that the manual training class is doing, under the supervision of J. H. Griggs.

Arthur Bailey is finishing a fine drawing of an anvil, and his skill shows prospects of a good draftsman.

Freshman Class News

After four weeks of absence we are glad to welcome Sophia and Russell Mefford back to our class which now numbers sixteen. They have recently been removed from quarantine for the scarlet fever.

ITALY

A Composition Lesson from the Eighth Grade by Helen Boardman

In my opinion, Italy is about the most interesting country in Europe, with its blue skies, golden fruit and impressive scenery. Just imagine the very quaint, picturesque, historically interesting old cities, if you can.

Florence, a city northwest of Rome, is noted for its picture galleries and other art works. It was the home of Dante, Giotto, Michelangelo, Leonardo and Galileo, who were some of Italy's famous artists and writers. Today one may view Cathedrals, castles, and palaces, which are the results of their artistic efforts. There are also many wonderful libraries in Florence, among which are the Laurentian and the National. The latter receives a copy of every book printed in Italy and has about half a million volumes besides pamphlets, prints etc.

An especially interesting city is Venice, at the head of the Adriatic Sea, which is situated on one hundred and twenty small islands with sand dunes

to protect it from the open sea. The railway enters the city over a causeway two and a third miles long. The water usually remains at a level and is somewhat stagnant, but if the wind blows, its raises several feet. The climate is warm in summer but somewhat raw and foggy during winter.

Venice is unique with its narrow canals, crooked paved streets, old half decayed edifices and wonderful art galleries. Sixteen thousand buildings are built on pile foundations with over one hundred and fifty canals curving among them to serve for streets. These canals are spanned by some four hundred stone bridges. The famous black gondolas take the place of horses and vehicles.

One beautiful palace of Venice, the Doges, holds many of the first pictures of the city. In the rear of the palace and crossing a narrow canal from the third story, is the famous Bridge of Sighs. The prison is used nowadays, but the horrible places of confinement under the palace, ceased to exist a good many years ago.

A much visited Cathedral is Santa Maria Formosa, noted for Palma Vecchio's masterpiece, "St. Barbara", an altar picture.

In the eastern arm of Venice are the arsenal and public gardens. About 6000 men are employed in the arsenal which is one of the finest in the world. The public gardens are small but very attractive.

Italy has much of interest besides cities, for instance the Apennian Way, Mt. Vesuvius, Pompeii and the Roman Catacombs are also closely associated with the word "Venice".

Mrs. Laura M. Pierce

GOVERNORS WIFE DEAD FOLLOWING LONG ILLNESS

Mrs. Laura M. Pierce, wife of Governor Walter M. Pierce, died at the family home in Salem Sunday March 8, following an illness of several years duration caused by cancer.

Mrs. Pierce was born in what is now Wheeler county, near Monument on May 30, 1871. Her parents were pioneers, crossing the plains in the early days. Early in her girlhood she removed with her parents to Milton, Oregon where she attended the public schools. In 1887 the family moved to Walla Walla and she entered Whitman college where she graduated with the class of '91, preparing herself then for a teacher. She attended Ellensburg Normal in the class of '92.

In 1893 she was married to Walter Pierce and moved to Pendleton where her husband was county clerk of Umatilla county. Here four of her children were born. In 1907 they moved to La Grande where she and her husband lived until he was elected governor in 1922, since which time she has been a resident of Salem.

Mrs. Pierce was the mother of five children all of whom with the father, survive her. Early in her life she became affiliated with the Methodist church and has ever lived a true Christian life, beloved of all who knew her. She always took a deep interest in her husband's political career, although she seldom appeared in public of late years.

The funeral services were held in Salem on Tuesday afternoon and in accordance with the wish of Mrs. Pierce her body was laid to rest in the cemetery there. All state departments were closed during the funeral hours.

Lyle Seaman says he can now compete with Montgomery Ward & Co. on automobile batteries and guarantees them. See his ad elsewhere in this paper.

Minstrels Please In Fun and Song

Darktown Entertainers Draw Large Crowd—Solo and Chorus Work Proves Exceptional Treat

(From The Arlington Bulletin)

The minstrel show put on by the Louis Leidl Post No. 116 American Legion of Goldendale, on Monday evening at Louy's hall was a howling success from start to finish. The program was made up of dapper songs, jokes on local folks and minstrel crossfire which met with loud applause from the audience.

Owing to the sudden illness of one of the most important players, the program was delayed a little later than the starting time advertised. Mr. Martin Collins, who was to have taken the part of Tabasco, was taken ill with an attack of grippe and a substitute had to be provided in the person of J. R. McEwen. Mr. Collins was removed to his home at Goldendale on Tuesday.

The principal players of the evening were Mr. Tamba Washington, played by M. C. Thorn, Mr. Tabasco, J. R. McEwen, Mr. Erastus Green, R. J. Willis, Mr. Phillip McCavity, Wm H. West, A. C. Bonebrake acted as Interlocutor.

A splendid chorus was made up of 13 voices under direction of Mrs. Charles Hill with Mrs. Z. O. Brooks at the piano. Marvin Youngquist, former resident of Arlington, acted as property man.

A packed house greeted the entertainers to see a show which has already been put on in Goldendale and Wasco and after the appearance here, was scheduled for Kilkittat on Thursday evening.

Arlington Getting Ready For Tourists

New Refrigerator Plants to Keep Summer Refreshments Cool—Restaurants Make Improvements

(From The Arlington Bulletin)

Extensive interior improvements have been going on for several weeks at the Vendome hotel. After re-dressing all of the guest rooms sometime ago, Manager E. T. Williams has had the dining room and lobby re-tinted, wainscoted and the woodwork re-finished. New linoleum has been laid in the cafe and a brand new soda fountain installed.

Out of sight considerable other improvements have been going on including new stock rooms in the basement and the installation of a new refrigeration plant which will cool all meats and foods as well as take care of the fountain.

Bakery Installs Machine
W. A. Eggmann of the Arlington Bakery, has this week installed a new automatic refrigeration system to keep the fountain and ice boxes in the bakery cool this summer. The ice cream will also be frozen by the new method. Considerable rearranging has been done in the salesroom and a new pastry case added.

Restaurant Plans Work
Frank and Hank's are planning on a number of improvements including new linoleum and a change in the front of the building which will include a painting job and general exterior improvement.

In Life's Odd Moments
It is what we sow in the minutes and spare portions of a few years that grows up to crowns and scepters.—Jeremy Taylor.

FEEDERS MEETING FRIDAY AT EXPERIMENT STATION

Speakers Announced For March 20th Meeting of Lamb Feeders—Test Complete for Winter

As a means of marketing hay, the lambs are again this year proving profitable. During the past two years the lamb feeding tests at the experiment station at Hermiston show that lambs have paid, on the average, about double the market price of hay in the stack after all items of expense, such as cash outlay for grain, labor, interest and incidentals have been deducted.

The tests for this winter will be completed during the coming week and Friday afternoon, March 20, at two o'clock, the results of these tests and those of previous years will be discussed in a meeting at the Experiment Station at Hermiston. The meeting will not be confined to lambs but will cover all phases of the sheep industry of interest to irrigation farmers.

E. I. Potter, head of the Animal Experiment Station, will open the discussion under the topic, "Lambs, Ewes or Hay". Robert Withycombe, who for 20 years has been conducting farm flock tests at the Eastern Oregon Experiment Station, at Union, will talk on the "Selection and Management of Farm Flocks". R. P. Bean, Superintendent of the Prosser Washington Station will give the results of five years feeding at that station.

The present interest in the farm flock should justify every project farmer in spending the afternoon at the Hermiston station next Friday.

J. E. BURDETT SERIOUSLY ILL AT MCMINVILLE

J. E. Burdett, formerly resident of Arlington and a stockholder in the Arlington National Bank, is seriously ill at McMinnville hospital, after the second operation which he has undergone within the last ten days. Mr. Burdett was first operated on about ten days ago for appendicitis and second operation was performed last Monday. From late reports his condition was unchanged and he was just holding his own.

Rates Show Reductions

Changes in the express rates and Commerce Commission, effective March 1, have resulted in many economies for shippers according to R. S. Davis agent of the American Express company at Boardman.

Mr. Davis has compared the following rate comparison showing the new rates compared with the old, from this city to other important points thruout the country.

	First Class	2nd Class	New	Old	New	Old
	Rate	Rate	Rate	Rate	Rate	Rate
The Dalles	\$1.55	\$2.98	\$1.16	\$1.56		
Portland	\$1.82	\$2.08	\$1.39	\$1.56		
Seattle	\$2.69	\$2.91	\$1.95	\$2.18		
Chicago	\$8.80	\$11.92	\$6.60	\$8.94		
New York	\$11.70	\$13.17	\$8.77	\$9.88		

RECOVERING FROM ACCIDENT

S. Attabury who was quite severely injured a few weeks ago, when his team ran away and he was thrown from the wagon and dragged, is able to be up from latest reports. His many friends are glad to know that he will soon be about again.

COMING HOME SOON

Clifford Olson will be home from the hospital at PPendleton shortly. He has been there since about February 27th, when he was badly burned about the arms and face when his car caught fire as he was filling the gas tank.

Education

"De way education works," said Uncle Eben, "depends on de man dat has it. It may do nuffin' mo' dan give him more an' bigger words to 'spress foolishness."

Spring Styles Reign

Mrs. J. L. Cox announces the arrival of a large selection of Spring garments, including dresses and coats in new spring materials right up-to-the minute in style. Also a complete showing of Spring Millinery. The ladies of Arlington and surrounding territory are invited to call and see the lines. Watch the windows and our ads for news of the latest in spring styles. pd. adv.

FOR SALE—Jay Hawk Stacker and buck rake, used one season. C. S. Calkins, Boardman Oregon. 2tp

Mrs. Max. Doweese of Boardman visited with relatives in Arlington over the week-end.

Sheriff M. V. Logan was scalded to Portland the first of the week on account of the serious illness of his mother at that city.

Irrigon Items

Melion Association Negotiates With Growers—Smoker Success—Bull Injures Man—Rehire Teachers

Lee Carrol was injured by Lyle D. Sallings bull Monday while trying to separate the animal from some of the other stock as he was watering his stock at the Salling place. He says his injuries are not as bad as he at first thought, but were painful for several days.

The school board announces having re-elected two grade teachers, Miss Francis Bradford and Mrs. Edith Jones. Other staff has not been chosen yet.

The smoker was a big success. The hall was crowded and all reserved seats were sold early. Happy Graybeal had to be substituted against Shorty Ayers of Boardman and Bob Smith took his place. Bob had no training and lost out. Pete Dove and Bill Knight each won over their opponents by decisions. Each case was decisively in their favor. Harold Ahalt won over Frenchie Smith in a four round match by decision. Ahalt refused to go more than four rounds with Frenchie, probably realizing the possibility of Frenchie getting the best of it had he had the chance of using his dodging methods until he had Ahalt trimmed to his size. Ahalt weighs some thirty pounds more than Frenchie so there was no hope for Frenchie, other than wearing the heavy man out.

The Irrigon Co-operative Melion Growers are again ready to sign up contracts with the growers. Several meetings have been held recently and the various problems discussed and growers given a chance to offer suggestions that might make the conditions under which they signed more favorable to them. These meetings have not brought out much except a more thorough understanding among the growers which they had not been able to see before. The management was outlined to them by President Glasgow and Secretary N. Seaman. The manager explained the methods employed to carry on the business, the different books and entries and the necessity for each move. N. Seaman will continue to handle the management and secretary work but R. F. Williams has been employed to keep the books and Hugh Grtm will be in charge of the inspection, local sales at the shed and treasurer. The business had to have additional help as it was impossible for Mr. Seaman to handle everything and these additions will be necessary more so this year than in former years. The average sign up promises to double.

Book form tickets will be used by the manager in every move and these books will be an additional safeguard to the business and will make it ready and convenient to audit at any time.

Reduced rates announced by the Express company, and effective March 1, have proved much lower than many of the postal rates on packages weighing 6 or 8 pounds and upwards in the more distant shipments. The local rate on cantaloupes to Portland and other places are also reduced by the new block arrangement and will save the growers some money this coming season.

Boxed Over 50,000 Rounds

George Decker, boxing coach at the University of Pennsylvania, who has boxed over 50,000 rounds with the students who are followers of the padded gloves.

Birth of the Shilling

An Anglo-Saxon coin, worth five-pence, and marked with a cross, to enable it to be broken into four pieces, was known as a "scylling," from the word "skill," to divide; hence comes the modern term shilling.

Air Service Memorial Model

Mme. Marie Apel, New York sculptress, putting the finishing touches on her model for the national memorial to the men of the air services of the army, navy, marine corps and coast guard killed in the war.
