Brief Review of Week's News Events

Burton K. Wheeler, United States Senator from the state of Montana, was acquitted of a charge of unlawfully using his influence as a United States Senator before the department of the interior by a jury in the federal court at Great Falls, Montana, Friday night, April 24th.

Distinct earth tremors were reported Friday, April 24, from several points in southeastern Massachusetts. New Bedford felt shocks, accompanied by a rumbling sound at 3:30 A. M., and at Middleborough the disturbance was timed at 3 o'clock. No damage was reported.

A war time romance that started when the American army of occupation was stationed at Coblenz, Germany, culminated at Vancouver, Wn., Friday of last week with the marriage of Charles M. Splawn of Ceryville, Or., and Elsa C. Leinig, who arrived in Portland the day before directly from Germany. Splawn was in Germany five years and Miss Leinig was employed at the Coblenz postoffice.

The John Day highway is to be finished without delay. The last 20 1/2 miles, has been ordered advertised for grading at the May meeting of the state highway commission. This action was taken just before the road body adjourned Friday, April 24. It is probably the most important of the steps taken at this meeting of the commission. Bidding was so keen on jobs awarded at this meeting that the commission was satisfied that this was a "good building year," so the members loaded up the program with 14 projects for the next meeting. The work is scattered around the state, but seven of the jobs are on the Roosevelt coast highway.

The Gold Standard has been resumed in England, and the Bank of England has received a special license to

export gold. Also taxes have been reduced on large and small incomes, and credits with America for \$300,000,000 have been arranged, if necessary. This news of improved conditions in Great Britain is considered one of the most important announcements of modern times.

In contrast to the cold weather of last week, reports on Wednesday said that at Portland the mercury hit the 70 degree mark. On the same date, Roseburg recorded a temperature of 85 degrees and Salem reported 83 degrees, the highest temperature of the year thus far. Conditions in Portland and the western part of the state indicate cloudiness and rain in the near future.

At the elections held in Germany on Sunday for the choosing of a president of the so-called German republic, ex-Field Marshal Von Hindenberg was declared elected by a majority of over 2,000,000 over his nearest opponent. While world governments generally do not seem to think that the result of this election means an immediate return to a monarchy, yet is generally taken to indicate that the old militaristic spirit has not died out in Germany and, to say the least, prospects for world peace have not been improved.

Major William A. Radcliffe, engineer representing the veterans' bureau, arrived in Portland Monday of this week and spent the day in considering various phases of the proposed veterans' hospital for Portland. According to those who made the inspection with him, Major Radcliffe was very well pleased with the site and intimated that his report would be the last approval necessary. The last session of congress approved a hospital to cost approximately \$1,350,000 at Portland and a 15-acre site has been donated to the government by the University of Oregon medical school.

Send Tree to Belgian Children

A beech tree from the school children of America to the school children of Belgium was placed on board the S. S. Belgeland at New York amid ceremonies attended by a large gathering of notables. Baron de Cartier de Marchienne received the gift in behalf of Elizabeth, queen of the Belgians, to whom it was consigned. The tree is a duplicate of one planted by Queen Elizabeth in Central park when her majesty visited New York in 1913.

Boardman Utellem

Edited by the Students of the Boardman High School
— FOURTH YEAR, 1924-1925 —
FRIDAY, MAY 1, 1925

The Freshmen are giving a party to the rest of the high school and have promised them a good time and also a good feed. The president of the class said that all the upper classmen had to was to bring a smile and to be there at five o'clock, so they would have plenty of time to enjoy themselves. That's the way, Freshies: we knew that you would wake up after a while.

Freshmen to Give Party

Friday, after the ball game, the Freshmen are going to give the upper classmen a picnic. A "moonshine" party, they call it. After the game, everybody is requested to meet at the school and are to be taken to the famous Green House camping and picnic grounds. All except a delightful time.

Grounds Prepared

The lawn and steps have been supplied with necessary decorations for the May Day program, Thursday. A committee of high school boys went to the river for branches to do the necessary decorating about the May Day performance area. The May Day program will prove to the pleasure of everybody and will be a great day for the school children.

New Constitution For Student Body

The four high school class presidents will draw up a new constitution for the Student Body. The need of it was found when the basket ball letters were given out last month. The present constitution did not state the nam-

ber of games necessary to be played before a girl was entitled to receive a basketball letter. The new constitution is to be drawn up and presented at the next Student Body meeting.

Senior English

The Senior English class has been practicing on the English examinations required for entrance to college. The tests are beneficial in many respects and were enjoyed by the members of the class. The practice obtained will eliminate many errors for those who will enter college next fall. Such instruction is like some of our other work, which is of special and immediate value. The students need more of it.
Ed McClellan.

The U. S. History class has completed the year's work, with the exception of reviewing the work in order for the final examinations. The Physiology class is also reviewing the semester's work.

The Graduating Class

The Senior Class is fast nearing the end of its career. The cards have come out and they are expecting the arrival of the announcements cards soon. Everyone is hustling here and there, one trying to arrange for the class program, another buying clothes for the last night of high school. The Senior Class invites you one and all to its activities. Don't forget the class program on May 13th, the Baccalaureate on May 9th and finally the graduation exercises on the 15th.

Many Sheep Raised Here

The project is becoming quite a center for the sheep raising industry. Most of the farmers do not keep their sheep from one year to another, but buy them in the fall and sell after shearing. As nearly correct as we could, we obtained the following information as to the approximate number of sheep here. Pete Farley moved his band of 1500 to Six Mile. Pete Slavin has taken his flock of 1700 to Castle Rock. Both these bands were sheared at Mike Marshall's. John Jenkins has moved his band to Coyote prings. Healey had about 200 but sold them to Deltman, of Yakima, so did Kelly and Mulkey, who have about the same number. M. Marshall is one of the largest wool growers here.
