Many Instructors and Teachers at Institute

About 200 teachers, instructors and visitors are in Ashland this week at the county institute in session at the Senior high school, and much interest is being felt in the splendid addresses and discussions given by the various prominent educators of the state who are present.

One of the most attractive features of the institute is the music. The assembly singing is in charge of Miss Bay, the new musical instructor in the Senior High school, and her introduction to Ashland is affording a great deal of satisfaction to music lovers in the city. Special numbers by local talent have been provided by a committee composed of Mrs. Van Fossen, Miss Mary Young and Prof. Appelhoff. The music yesterday was particularly fine and much appreciative comment has been made by all who heard it.

On account of President Wm. T. Foster of Reed college in Portland not being able to arrive for the morning session at 9 o'clock today, it was thought best to rearrange the program somewhat. The teachers met at 9 o'clock for the department sessions, the general sessions taking place at 10:30 to 12.

Yesterday the special music were a piano solo by Miss Nellie Beaver and Scotch songs by E. W. Hunter at the meeting session, and a violin solo by Prof. Appelhoff and a vocal solo by H. H. Corlis in the afternoon. Today's features were a vocal solo

by Charles King, and a bass clarinet solo by Prof. Appelhoff in the forenoon, while a ladies' trio by Mrs. Ashcraft, Misses Poley and Allen, and a vocal solo by Mrs. Ashcraft were rendered in the afternoon.

The same interest that started the opening sessions of the institute held good to the closing, and the annual assembly will go down in history as one of the most helpful and inspiring that had been held in Jackson county for many years.

Necessity for Increased Telephone Rates

Increased telephone rates are necessary to meet increased costs.

Recent increases in wages alone to employees totaling for the State of Oregon upwards of \$225,000, made an increase in telephone rates not only necessary but imperative to pay these wages.

The net return to the Company under the rates now in effect is less than 3 per cent on the valuation of its property at \$13,282,378.00, as found by the Public Service Commission.

Would you be satisfied with such a return on the capital invested in your business? Would you consider it sufficient?

There has been no general increase in telephone rates for many years. Every user of a telephone who stops to think knows that he would be paying an inadequate rate now if he was not paying substantially more than he was before the war.
