

ASHLAND DAILY TIDINGS

VOL. XLIII

ASHLAND, OREGON, MONDAY, SEPTEMBER 15, 1919

NUMBER 13

NATION'S HEAD IS NOW HONORED GUEST OF STATE OF OREGON

President Will Arrive at Noon Tomorrow

The special train bearing President Wilson and party is scheduled to arrive in Ashland at 12:30 tomorrow, Tuesday, noon. It is expected that the train will remain about 10 minutes.

Miners and Operators Will Try to Cut H.C.L.

TONOPAH, Nev., Sept. 15.—The gold and silver mines of Tonopah and the divide reopened today after having been closed for several weeks on account of a strike of miners and mine workers.

An agreement adopted provides that the men return to work at the old scale with recognition of the miners' committee.

The operators agree to establish a commissary selling food, clothing, etc., at cost. At the end of 60 days a conference is to be held to consider results and to formulate other plans for reducing the cost of living.

The settlement conforms to President Wilson's new program in dealing with railroad employees.

SUCH NERVE!

SAN FRANCISCO, Sept. 15.—Two bandits entered the Hansen jewelry store, bound and gagged N. L. Lewis, the manager, and walked out with diamonds worth \$7500 and escaped in an auto.

WILL ASK HIM WHY

(By the United Press)
PORTLAND, Ore., Sept. 15.—Provided they are able to gain an audience this afternoon, a committee of five which was selected by the Portland Labor Council will call on President Wilson some time this afternoon.

The committee was appointed for the purpose of "finding out from him the reason for our apparently unwarranted interference in the internal affairs of Russia."

8,000 SHIPMEN OUT OF LUCK

(By the United Press)
NEW YORK, Sept. 15.—Eight thousand shipyard workers who "automatically" established a 44-hour week schedule by quitting at noon last Saturday found themselves without jobs when they reported for work this morning.

The employers declared that the men "automatically" resigned by their action, and announced that all the strikers would be paid off this afternoon.

The trouble arose when the shipyard workers demanded a 44-hour working week with Saturday afternoons off. The shipyard owners refused to demand and the men then declared a strike for every Saturday afternoon.

The yard owners announced today that they are filling the places with other workers. The unions have started picketing.

Platinum Strike On Evans Creek

The attention of all hunters and prospectors is called to the platinum strike made on Evans creek about a year ago, says the Gold Hill News. Nothing much was learned

Texas Is Swept By Big Storm

(By the United Press)
HOUSTON, Tex., Sept. 15.—One man is known to be dead, property damage is expected to run into thousands of dollars, rail and wire traffic is interrupted and ships are held in Texas gulf ports as the result of a recurrence of the tropical storm which struck the Texas coast from Galveston to Brownsville yesterday.

It is believed this morning that the worst of the storm is over. It extended far inland and the wind reached a velocity of 50 miles per hour.

ROOSEVELT IN MEDFORD

Colonel Theodore Roosevelt, who is visiting the coast in the interest of the American Legion, has been secured to speak in Medford tomorrow afternoon at an open air meeting. This will take place from 4:30 to 5:30, and an invitation is extended to every member of the G. A. R., the Spanish war veterans and the world war veterans of Ashland to be present. The securing this noted man is the work of the Medford post, American Legion, who have moved heaven and earth, figuratively, to get the date there and were finally successful. Everyone attending is asked to bring flags, as the meeting will be a great patriotic event. Medford Post asks the cooperation of Ashland at this time.

about the strike at the time, but the more important fact showing that a big body of platinum was actually discovered have just come to light.

Platinum ranging from dust to the size of a hazel nut, it has been learned, was taken out, a pound of which was sold at Eugene.

Ever since placer mining has been followed on Evans creek, platinum in more or less quantity has been taken out of the sluice boxes assuring miners that somewhere up stream this metal could be found in quantity. The present value of this precious metal is reported at about \$105 per ounce, and the deposit from which the "hazel nuts" were taken, if opened up, will certainly make the locator independent of the H. C. L. for a long, long time.

No record is reported of any claims ever filed on this discovery and our information shows that the man who could uncover this rich find died a short time ago in the East. Any person who re-locates this strike will doubtless have very little difficulty in establishing clear title to the property.

John Day—Canyon creek to be bridged here.

PRESIDENT HEARS OF MOONEY CASE

MINORITY REPORT IN

(By the United Press)
WASHINGTON, Sept. 15.—That the changes in the treaty proposed by the foreign relations committee are "couched in a defiant, discourteous and overbearing manner, and seem intended to express a jingoistic spirit that ought to be eliminated from American statesmanship, Senator McCumber, republican, declared in a dissenting report laid before the senate today.

The senator urged that the six reservations he presented be adopted instead of those inserted by the committee. He took exception to the entire attitude of the republican majority's report.

TEAMSTERS OUT

(Special to The Tidings)
PORTLAND, Sept. 15.—Teamsters and truck drivers employed by local mining concerns went on strike Saturday in sympathy with the flour and cereal workers who walked out Thursday for recognition of their union and the closed shop principle, as well as higher wages.

This will prevent the mills from making deliveries to the trade and the situation is now somewhat serious. Several milling plants have gone to half time, and with the drivers out some plants may be compelled to close until an adjustment is reached.

FRISCO MARKETS

SAN FRANCISCO, Sept. 15.—Following are market quotations:
BUTTER—Extras, 62 1/2 c.
EGGS—Extras, 67 1/2 c; pullets, 58 1/2 c.
POULTRY—Broilers, 33c; hens, 35c.
CATTLE—Top steers, 10 1/2 c; second, 8 1/2 c; cows, heifers, 8 1/2 c; calves, 13c.
HOGS—Top, 16 1/2 c.
SHEEP—Ewes, 7c; wethers, 9c; lambs, 10c.
BARLEY—Feed, \$3.00; shipping, \$3.12 1/2 c.

ITALIANS AT FIUME

(By the United Press)
ROME, Sept. 15.—Latest reports from Fiume state that the situation arising from the entrance into the city of Gabriele D'Annunzio's forces continued to be serious, Premier Nitti announced in the chamber of deputies today. "I am filled with humiliation," Nitti said, "because it was the first time sedition has entered the Italian army. The Fiume incident will injure our cause."

"Persons advocating acts against France and the United States, without whose aid Italy cannot recover, are lunatics and traitors. Italy is no longer in a position to tolerate a policy of adventure without being brought into a state of anarchy."

Premier Nitti announced that the offenders at Fiume will be prosecuted.

WASHINGTON, Sept. 15.—The state department has received official Fiume dispatches outlining the advance of the Italian troops on that city. Fiume shops are closed, both in protest at conditions there and in fear of damage when the Italians reach the city.

MAIL ROUTE CHANGED
WASHINGTON, Sept. 15.—The postoffice department has canceled the order for delivery of mail to Airline, Ore., over the valley and Siletz line by way of Independence and Heppkins and restored the Southern Pacific service. Senator McNary was advised today. Numerous protests from patrons of the Airline postoffice caused the change.

Contract let for Rieth to Echo section of Eastern Oregon highway.

SENATE TAKES UP PEACE PACT

(By the United Press)
WASHINGTON, Sept. 15.—"Call up the treaty of peace with Germany." With these words Senator Lodge, chairman of the foreign relations committee, formally opened the discussion in the senate of the treaty as reported by the foreign relations committee.

For the first time in the senate's history a great treaty was considered in open session before thronged galleries, instead of behind closed doors.

(By the United Press)
WASHINGTON, Sept. 15.—Actual consideration of the peace treaty begins in the United States senate today, Chairman Lodge of the foreign relations committee being scheduled to call up the pact this afternoon.

Reading of the treaty, with the ensuing debate, will probably start immediately. The amendment first to be reached will be the one moving that the United States have the same number of votes as Great Britain in the League of Nations. The vote on this change, which was adopted by the foreign relations committee is expected to furnish a test as to whether any of the amendments can command a majority in the senate.

While treaty opponents admit there is doubt of their ability to pass the amendments they declare that reservations of some sort are certain.

EARTHQUAKE AT EUREKA

(By the United Press)
EUREKA, Cal., Sept. 15.—The fifth earthquake in a week struck this section at 7 o'clock this morning, demolishing a number of chimneys.

It was the most severe of the series and was accompanied by a heavy roar like thunder. Another sharp shock was felt at 9 o'clock.

Weed Wins; Story Of Game Tomorrow

Weed, with Bill James of Sacramento, three years ago world series hero of the Boston Red Sox, defeated Ashland by one run at Yreka yesterday in the fastest and most nerve-racking game of ball ever played in this section. The story of the game in full with an analysis of the "breaks" which lost for Ashland despite the fact that they out-hit and out-fielded the Northern California all-stars, will appear in tomorrow's Tidings.

PORTLAND, CITY OF ROSES WELCOMES HIM ROYALLY

(By the United Press)
PORTLAND, Ore., Sept. 15.—With throngs massed along her patriotically-dressed streets, Portland—observing a half holiday, which was proclaimed by Mayor Baker—greeted Woodrow Wilson, president of the United States, this morning.

The special presidential train reached Portland at 9 a. m. and the president and his party were escorted to awaiting automobiles at the union station by the official reception committee, Governor Ben W. Olcott, Mayor George Baker, Edgar B. Piper, C. S. Jackson and W. B. Ayer, of Portland; Judge Alfred S. Bennett of Salem, T. H. Crawford, of La Grade, and Judge W. R. Bilyeu, of Albany. Mrs. Wilson was greeted by Mrs. Olcott, Mrs. Baker and Mrs. Jackson, and was presented with a shower of Oregon roses.

Then, following a pilot car bearing the president's flag and the national colors, President Wilson, members of his official party and the general reception committee started a procession through the business section, which did not end until the chief executive of the nation and his "followers" had traversed a route totaling 57 miles.

Crossing the Willamette river, after winding its way through the thoroughfares of the business section of the Oregon metropolis, the procession passed through residential districts of the East Side and onto the Columbia River highway, which was traversed as far as Crown Point.

It was at that picturesque spot overlooking the mighty Columbia river that the general reception committee formally welcomed President Wilson to Oregon. Returning to Portland, the president was taken over a different route, affording more thousands an opportunity to get a glimpse of the nation's leader. A stop was made at Gresham, Ore., where Wilson opened the Multnomah county fair.

Probably the most cosmopolitan audience ever assembled in the state of Oregon will hear Wilson tell why the United States senate should

adopt the peace treaty and the League of Nations covenant without mutilation, at the Auditorium tonight.

Portland newspapers, for several days, printed coupons which were clipped and signed by Oregonians in every section of the state, and then sent to the Auditorium here. Thirty-thousand of the coupons were recorded. Then a lottery was held, resulting in 6690 names being selected. Tickets were issued and mailed to the winners. Only persons possessing those pasteboards will hear Wilson talk.

The result will be that the logger from Coos county will rub elbows with the Astoria banker tonight, with a Portland society matron sitting beside an eastern Oregon sheepherder.

The presidential special will depart at 11 o'clock tonight for California, Portland being the only stop in Oregon.

WOODROW BLUSHED

SEATTLE, Sept. 15.—Somewhere in Seattle is a young woman who made President Wilson blush. Just before he boarded his train for Portland last night there was a swish of skirts, some one darted into the circle of dignitaries saying farewell, and before the president knew it an extremely good looking girl had kissed him on the hand. He was plainly embarrassed. The girl smiled and disappeared in the crowd.

BOSTON, Sept. 15.—It is reported in labor circles here that President Compton of the American Federation of Labor, will take personal charge of the policemen's union strike.

GERMAN SPIES MAKE ESCAPE

SALT LAKE, Sept. 15.—From ten to seventeen German spies escaped from the compound at Fort Douglas this morning.

Four men, believed to be some of the escaped enemy aliens, were captured before noon at Ogden.

The prisoners cut a large hole in the wire fence forming the compound.

The escape, which was carefully planned, was discovered at 1 o'clock this morning by a sentry.

JOHNSON HITS K.C.

DES MOINES, Sept. 15.—Having addressed between forty and fifty thousand men and women who vociferously cheered him during the first four days of his tour, Senator Johnson arrived here from Kansas City today to resume his fight against the treaty.

"It is obvious from the response of the people to the issues I am presenting why the administration insists upon haste in disposing of the treaty," said Senator Johnson.

"Its prophets desire to have it hurriedly approved before our people can learn what it really means to them. The senate has had the treaty just two months, while the president spent seven months with it, while European and Asiatic powers pieced their secret agreements together as the basis of the document now presented."

REPORTERS ON STRIKE
NEW HAVEN, Conn., Sept. 15.—Reporters on the four papers here struck for an increase of wages this morning. The newswriters, who are fully organized, immediately began the publication of a new daily paper known as "The Reporter."

WASHINGTON, Sept. 15.—The comptroller of currency has issued a call for a statement of the condition of all banks at the close of business on September 12.

WILL CAGE PRESIDENT

(By the United Press)
SAN DIEGO, Sept. 15.—President Wilson will be "caged" when he speaks in the Stadium here next Friday. He will stand in a glass cage with 250 newspaper men and the official reception committee.

The precautions taken are due to his physician's advice against outdoor speaking. The audience, however, will hear every word uttered through a new invention, the "mag-novox," which magnifies the voice of the speaker and carries it for a great distance.

It will be one of the most unique settings for a public speech in history.

THE WEATHER
For Oregon—Fair.
