COUNCIL OPPOSES MOB GOVERNMENT

The city council held the first regular meeting of the month last night in the council chamber at which time they transacted much business and listened to reports and requests. Among the alter was one from E. R. Hosler, water commissioner, asking for a ten-days' leave of absence for his annual vacation. This was granted and will take effect today. J. R. Robison, of the fire department was also granted a ten-days' vacation to take effect November 1. The matter of building some sort of a shelter for the elk in the park during the coming winter was discussed, and was turned over to the realty committee with power to act. By the suggestion of Councilman G. M. Frost the council expressed themselves as entirely and unquestionably opposed to mobs and acts of violence that are prevailing all over the country at this time, and any bolshevism

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.
