

# ASHLAND DAILY TIDINGS

VOLUME 1 Successor to The Semi-Weekly Tidings. Vol. 43.

ASHLAND OREGON, MONDAY NOVEMBER 3, 1919

NUMBER 55

## ALL IS QUIET IN COAL STRIKE

### Great Power May Be Given

(By the United Press)  
WASHINGTON, Nov. 3.—Representative Burke today presented a resolution in the house authorizing the president to seize and operate the coal mines as long as the president deems necessary.

(By the United Press)  
WASHINGTON, Nov. 3.—Secretary of the Interior Lane today said that at the next cabinet meeting he will call attention to the proposal of the Brotherhood of Locomotive Engineers for the appointment by the government of a commission to deal with the coal strike and general industrial situation.

Lane said he regards this proposal as an endorsement of the offer the president made to the miners to submit their demands to a commission to be appointed by him.

It is considered likely that the cabinet will recommend to the president that he name such a commission, provided the coal mine strike is first declared ended.

#### NEW MEXICO HAS CAVALRY

GALLUP, N. M., Nov. 3.—A squadron of United States cavalry arrived here today for duty in event of disorders in the New Mexico coal fields. Governor Larrazola requested the troops.

#### TROOPS TO UTAH

SAN DIEGO, No. 3.—A company of regulars is speeding toward the Utah coal fields today from Camp Kearny. Other troops are held in readiness to leave at a moment's notice if needed.

#### MORE GUARDS OUT

DENVER, Nov. 3.—With ten mines already under the protection of state troops, Governor Shoup today ordered additional guardsmen to all the principal mines of the Southern Colorado coal fields.

Nine of the nineteen Colorado Fuel and Iron company mines have opened with police protection. Thirty-two percent of the normal working force is on the job, the company announced.

#### SHIP NO MORE COAL

WASHINGTON, Nov. 3.—Coal shipping operations have been temporarily suspended by the shipping board due to the coal strike.

With the exception of 25 ships partly loaded no cargoes of coal will leave the United States now, it is announced.

### YOUNG WIFE DIES IN WRECK

(By the United Press)

SAN FRANCISCO, Nov. 3.—Mrs. Fred Morely was killed today when an automobile her husband was driving plunged off the San Bruno road.

The two were pinned under the machine for several hours. Morely was unconscious when rescued. When revived he told of vainly calling for help while his young wife lay dead beside him.

Adense fog caused the accident. Morely's injuries are serious.

#### PASTORS OPPOSE HIGH FARE

(By the United Press)  
BOSTON, Nov. 3.—High fares are discouraging church attendance, in the opinion of prominent ministers here, who advocate a five-cent fare on Sunday. The present fare in Boston is 10 cents.

Rev. George R. Sair, D. D., a Baptist pastor, advocated a system similar to the plan now in effect by which students pay a five-cent fare.

Wool growers get \$4.50 for fleece in average suit of clothes.

## WOULD FORCE TREATY VOTE

(By the United Press)  
WASHINGTON, Nov. 3.—The administration forces today decided to ask a final vote on the peace treaty Thursday.

Voting, under this proposal, would be continued until 3 p. m., Saturday when, if no resolution of ratification had received the necessary two-thirds vote other business might be taken up.

The tentative agreement which will be presented by Senator Hitchcock has the following clauses:

The senate to meet each day at 11 a. m., no senator to speak more than once, and no longer than fifteen minutes on each question. All amendments to the treaty will be voted on at today's session. Tomorrow and Wednesday will be devoted to consideration of reservations.

If the treaty receives the necessary two-thirds vote the president shall be notified. If it does not receive the required majority, Friday prime object, one of the first concrete creation of the other resolutions of ratification which a minority of the senate foreign relations committee has proposed, these to be voted upon no later than 3 p. m., Saturday.

Under the democratic proposal, final voting on the resolution of ratification would begin next Thursday and a dif no resolution proposed received the necessary two-thirds vote by Saturday evening the senate would then consider itself deadlocked and turn to consideration of other business.

WASHINGTON, Nov. 3.—Efforts to fix a time for a vote on the peace treaty failed in the senate. Proposals by Senator Lodge for a vote on November 12 were rejected by Hitchcock, whose suggestion for a vote this week, in turn, opposed by Lodge.

Despite numerous pleas for prompt action, the treaty situation was left in its previous indefinite stage.

Hitchcock said his plan would "do away with the idea that a mere majority can pile up the resolution of ratification, and that if this is lost the treaty is killed."

Lodge retorted that the constitution gives one-third of the senate power to defeat a treaty but that it does not give it power to control the form of ratification.

"That is a matter reserved for the majority," said Lodge.

### Rumania Must Answer Quick

(By the United Press)

PARIS, Nov. 3.—The supreme council of the peace conference today decided to order Rumania to reply to the council's note of October 12, at once.

The interallied transports commission has been ordered to Poland to open the railways between Germany and Poland.

## ZAPATISTAS CAPTURED

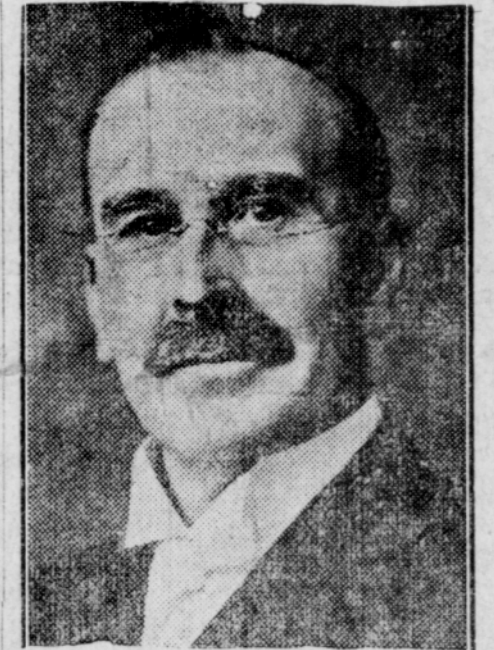

(By the United Press)

GALVESTON, Texas, Nov. 3.—General Manuel Palafox, Zapata's secretary, principal leader of the Zapatistas, and Evarado Gonzales, Zapata's successor, with all the Zapatista troops remaining since the death of Zapata himself, have been captured in an old Spanish mine in the state of Morelos.

Official advices to the Mexican consulate here recount on of the most sensational surrenders in the history of Mexican revolutions.

## GREAT PROHIBITION SPEAKER COMING

Louis Albert Banks, D. D., of Delaware, Ohio, who will speak in the Methodist church tomorrow, Tuesday, evening, in the interests of nation-wide prohibition, is well known on the Pacific coast where he began his work in the ministry. At the age of 16 he began to preach the gospel in Washington territory, and received his first regular appointment as a minister in the Methodist church at Portland. Since then Dr. Banks has served remarkably successful

Dr. Louis Albert Banks

pastorates in the leading churches of the largest cities from coast to coast. As an evangelist his itineraries have been nation-wide.

As an advocate of temperance reform the past quarter of a century, Dr. Banks' name has been well nigh a household word, and for the past two years or more he has been giving his entire time to the campaign for nation-wide prohibition as one of the national lecturers of the Anti-Saloon League of America. He recently completed a tour to the Pacific Coast and back, speaking daily, covering a period of almost three months.

The lecture platform contains no more able, popular and successful speaker. He is one of the truly great men in the prohibition reform. He has the sunny face, the sparkling eye, the hearty laugh, that puts his audience in the same happy humor.

Ashland is most fortunate to be able to have this man speak and his name should insure a large audience.

## NATIONS MAY BE BARRED

(By the United Press.)

WASHINGTON, Nov. 3.—Discussion of the eight hour day and 48 hour week will begin late today in the International Labor Conference, following the seating of the German delegates.

Delegates representing organized labor are planning to begin a fight before the credentials committee to bar from voting several nations that sent no labor delegates—only government representatives.

Under the rules each nation is entitled to four votes, one each for labor and employers and two for the government.

#### ROUND UP BOMBERS

NEW KENSINGTON, Pa., Nov. 3.—State troops are today rounding suspects in connection with three bombings yesterday in which five homes of steel workers were damaged. Two foreigners have been arrested. None were injured.

## Miners Fight the Injunction

### New Conference Now Proposed

(By the United Press)

WASHINGTON, Nov. 3.—President Wilson and other officials are today considering the calling of a new industrial conference, following proposals from the Brotherhood of Locomotive Engineers that an "industrial commission" be set up to settle capital and labor disputes.

It is understood the president and other officials believe an industrial code must be drawn up and subscribed to by the workers and employers, or else many serious strikes will trail the steel and coal walkouts, and with no lesion between labor and capitalists the situation will become steadily more acute and interference with production will become more widespread.

Since the industrial conference dissolved after having split on the question of collective bargaining, the president has been considering calling another.

It is learned his list of delegates is already partly made up.

The Brotherhood proposal gives him an opportunity to act. While drafting an industrial code acceptable to both sides would be the prime object, one of the first concrete problems to be put before a new conference would be settlement of the coal strike.

## BOLSHEVIK ADVANCING

(By the United Press)

LONDON, Nov. 3.—Unofficial Helmsingors dispatches today reported that the Russian northwestern army evacuated Gatchina, Thursday night.

Anti-Bolshevik troops captured Gatchina several weeks ago and were using it as a base for the advance on Petrograd. Evacuation was presumably caused by a Bolshevik counter offensive.

## TO CUT OUT ONE BUREAU

(By the United Press)

WASHINGTON, Nov. 3.—Senator Jones of Washington today introduced two bills setting up a peace time shipping program and aimed to make the United States equal to other great powers in foreign trade.

One bill would abolish the emergency fleet corporation which now is building vessels. The other bill would give to the shipping board authority to build and sell ships and take from the board the authority to operate ships.

#### COMMISSION GETS POWER

(By the United Press)

WASHINGTON, Nov. 3.—The senate today adopted the conference report on the Cummins bill restoring to the interstate commerce commission its pre-war rate making powers.

#### WEATHER FORECAST

For Oregon—Rain, warmer east.

(By the United Press)

INDIANAPOLIS, Nov. 3.—Leaders of the striking coal miners are today concentrating their efforts on fighting the legal battle, started by the government to interfere with the strike.

Attorneys are conferring as to the best means of meeting the injunction.

Reports from various parts of the country indicate there is no change in the strike situation.

(By the United Press)

INDIANAPOLIS, Nov. 3.—The striking coal miners, the operators and the government are all standing pat today while the public watches the coal pile steadily diminish.

The miners believe coal production has been reduced 90 per cent by the strike. Mine operators claim this figure is high.

Shortage of coal is already felt by many industries. It is reported that the Oliver Plow Works and other concerns at South Bend have wired to Washington officials that they will be forced to shut down if coal is not forthcoming.

Union officials claim the strike is "one hundred per cent effective."

Reports from important districts, according to the miners' leaders, show no decrease in the number of men out Saturday, when many men would have observed a holiday anyway.

#### THREATEN ANOTHER STRIKE

PITTSBURGH, Nov. 3.—Pennsylvania is threatened with a statewide strike in event General Sproul refuses the request of the State Federation of Labor for a special session of the legislature to "restore constitutional liberty in the state."

This is a result of the authorities refusing to permit steel workers meetings.

## WORLD LABOR COMMISSION IS PROPOSED

(By the United Press)

WASHINGTON, Nov. 3.—Appointment of a commission composed of fifteen representatives of as many countries to make a world wide probe of the unemployment question was advocated today at the International Labor Conference by Viscount Deza, head of the Spanish delegation.

## FRISCO MARKETS

SAN FRANCISCO, Nov. 3.—Following are market quotations:  
EGGS—Extras 89c.  
BUTTER—Extras, 66 1/2 c.  
POULTRY—Broilers, 42c; hens, 36c.  
CATTLE—Top steers, 14c.  
HOGS—Top, 13.  
SHEEP—Ewes, 7c; wethers, 9 1/2 c; lambs, 9 1/2 c.  
BARLEY—Spot feed, \$3.15; shipping, \$3.10.

## Consider Control of Water Carriers

(By the United Press)

WASHINGTON, Nov. 3.—The house interstate commerce committee is now debating the question of whether control of water carriers, including coastwise ships should be included in the railroad bill. Because of the necessity of passing this legislation as soon as possible some members of the committee favor leaving the water carrier regulation problem until later.

## Japanese Prestige and Interests at Stake

(By the United Press)

TOKIO, Oct. 8.—"Japan's prestige and interests are at stake in the Washington labor conference," was Premier Hara's statement at a luncheon today when he entertained Uhei Masumoto and other members of the labor delegation, about to leave for the United States.

The reference made by the Japanese premier to Japan's prestige was taken by many to refer to her commercial ability to undersell America on account of lower production costs through cheaper labor.

"The great covenant under which the forthcoming labor congress will be held, will become an absolute law with the ratification of the peace treaty," the premier said. "The delegates of all countries will, no doubt, bring forward propositions based on conditions in their countries, and there is absolutely no reason for the differences in the conditions of various countries affecting any country in the least."

"In the peace conference at Paris, Japan has been sitting as one of the five great powers and it is a matter of course that the same right and position will be accorded the Japanese delegates to the Washington conference. It will be a matter of course that the delegates for the employers should endeavor to protect their interests and that those of the workers should do the same. It should be borne in mind, however, that in doing so they must not lose sight of the existence of the state."

"Our delegates should remember Japan's prestige and interests, which are at stake and at the same time they should try to satisfactorily discharge their mission which is of world-wide importance."

## FRANK DODGE DIES FROM PNEUMONIA

(By the United Press)

Frank Dodge, a brother of Mrs. C. L. Loomis and nephew of J. P. Dodge of Ashland, died Friday night at his home in Klamath Falls after a very short illness, due to pneumonia. His wife was visiting at her former home in Dillard when tidings reached her of Mr. Dodge's illness. She started for home immediately with Mrs. Loomis and Blaine Klum of Medford in the latter's car, but failed to reach her husband's bedside before he died. Mr. Dodge was former Southern Pacific agent at Dillard and was well known in Ashland.

#### FAIR CASHIER SITS ON PAYROLL; FOILS ROBBER

CHICAGO.—Miss Anna Weiss sat down and thereby saved \$1000.

Miss Weiss, 20, is cashier of a branch store of a tailoring company. It was payday. Miss Weiss was putting the money into the employees' envelopes. She had filled twenty-five envelopes, and as fast as she stuffed the envelopes she put them on the chair near the table that contained the money.

Suddenly the routine of payday was disturbed. Three men with revolvers had entered. One stood at the entrance of the work room where eighty-five employes, mostly girls, were busy making trousers. Pandemonium ensued.

Miss Weiss screamed when one of the robbers came into her office and then she sat on the twenty-five envelopes. The man stood guard while another scooped up the money on the table.

And then the men fled.
