The Tidings has a greater circulation in Ashland and its trade territory than all other newspapers combined.  
 Entered at the Ashland, Oregon, Postoffice as Second Class Mail Matter.

**LIVE MEETING OF CO. FARM BUREAU**  
 The first meeting for organizing the Jackson County Farm Bureau for 1920 was held at Bellevue last evening. County Agent Cate, Home Demonstration Agent Miss Poole, Roland Flaherty, manager of the bureau co-operation exchange, and George A. Mansfield, president of the farm bureau, were present to assist in the work.  
 The farm bureau is no longer an experiment and it is only necessary to tell of the splendid work accomplished during the past year to make any farmer see that the movement holds wonderful possibilities for the future.  
 Manager Flaherty pointed out a few of the ways in which the bureau will be able to enrich Jackson county by many thousands of dollars the coming year and in years to come. By the co-operative handling of livestock alone it is possible to keep in the county close to a quarter of a million dollars that now go to enrich the middle man in Portland or San Francisco.  
 Miss Poole told of the work for the housewife and children, that can not be counted in dollars and cents. By a few well chosen examples she showed the great value of the work and gave her hearers a glimpse of the wonderful future of the movement.  
 President Mansfield dwelt on the farm bureau movement in a general way urging all to lend their support to a work that is bound to become a powerful factor in increasing the production of our farms and of giving the farmer a chance to market

his produce to the best advantage. Mr. Mansfield has the work of the bureau at heart and is throwing all of his energy into making the year's work highly successful. Jackson county is indeed fortunate in securing such a man to direct the affairs of the organization.  
 Albert C. Joy urged his neighbors to support heartily the bureau and assured them that knowing the workers to be of more than ordinary ability for carrying on the movement, they might feel sure that Bellevue would be proud to point to the fact that the people responded and united as a unit in supporting the Jackson County Farm Bureau.

**HEALTH OFFICER MAKES STATEMENT**

County Superintendent G. W. Ager has issued a statement received recently from Dr. David Rogers, State health officer, in regard to the necessity of vaccination in the public schools. The letter contains a copy of paragraph 141, page 52 of the Oregon School Laws of 1919, and also the following ruling from the State Board of Health: "If smallpox exists in a community, the county or city boards of health shall provide free vaccination for persons desiring protection against infection. When smallpox exists in a community, no child shall be permitted to attend school without presenting satisfactory evidence of having been successfully vaccinated within seven years."

The above ruling applies only to those communities where the epidemic actually exists. Even in such cases, the superintendent states, it is not desirable to resort to vaccination of all school children when only one or two segregated cases of smallpox are to be found. Vaccination should be required only where indications would lead our county health officer to believe an epidemic is liable to occur.  
 When the question of whether vaccination should be required, or whether a school should be closed for fear of an epidemic is raised, the advice of the county health officer should be obtained. Superintendent Ager states he is informed that there is no cause for alarm here in Jackson county except in a few cases now well under control. No school should be closed just because one of the larger schools finds it necessary to close. The advice of the county health officer may be obtained by calling Dr. T. J. Malmgren, Medford, 6P3.

**CHAS. RAY COMING TO THE VINING**

Almost everyone agrees that Charlie Ray is one of the most entertaining stars now before the public. When he plays the rubed kid with a good heart and a shy exterior the people that don't want to see him are the exceptions.  
 The only trouble with Charlie Ray stories is that they don't come often. But when they do come no one wants to miss them. That's why we're telling you about his showing. Don't forget the dates—Sunday and Monday.

On the same bill another post nature scenic—Shadows and Sunshine.  
 BELLEVUE NOTES.  
 A large number of Bellevue people met at the school house Friday evening and went on record again as a progressive up to date community.  
 A vote was taken to decide the question of sending the school children into the Ashland schools for the school year 1920-21.  
 The entire vote of the district was present and the fact that the vote was favorable toward educating the children of the district in Ashland, goes to show that the Bellevue spirit is still alive.

it of being in favor of the best along all lines is as much alive as ever.  
 The first meeting for organizing the Jackson County Farm Bureau for 1920 followed the election.

E. V. Carter, banker of Ashland, who likes to hunt and fish, is at the Imperial. Mr. Carter is the chairman of the newly created state board of fish and game commissioners. He is the man who presides over the meetings, but doesn't vote unless the game commissioners and the fish commissioners fail to agree, and then Mr. Carter steps in. He hasn't had to do that yet, but the chairmanship is designed especially as the place for a mediator or arbitrator between the two sets of commissioners when they are at loggerheads. Mr. Carter comes from Jackson county, where the Rogue river fish fight is ever being stirred up, and where the commercial fishermen at the mouth of the Rogue and the sportsmen along the upper reaches have never been able to tolerate each other.—Oregonian.

**Graduate 1000 Service Men First Year**  
 STUDENTS FOR EVERY STATE IN UNION ENROLLED IN PRESENT CLASS  
 During the first year of its existence, the Ford Service Course, organized January 1, 1918, by the Ford Motor Company, graduated more than 1000 service men who came to Detroit from Ford dealers in various parts of the United States to learn the proper and most efficient way to repair Ford cars. It is the intention of the company to eventually have every service man and mechanic employed by Authorized Ford dealers come to Detroit to take the course.  
 Appointments are made through the Ford branches, one of which sends five delegates each day. The time occupied is one month and it is divided between theory and practice. The students are paid by the Ford company for their time—a part of which is spent doing actual work on cars in the factory. In the present class are 120 students, and every state is represented.  
 The expenditure of \$150,000, which was the cost of beginning this course, is looked upon by company officials as a good investment because it will help to give standard service to car owners.

**It Makes Every Forkful of Manure Count for a Bigger Yield**

ASK any user of the John Deere Spreader and he will tell you it is the best machinery investment he ever made—not only because it saves hard work and valuable time, but because it makes every forkful of manure count for a bigger crop yield.  
 Manure goes farther and does more good when you use a John Deere Spreader. You can spread manure evenly, heavy or light—no under-fertilized or over-fertilized spots.  
 Come in and see this better spreader. Here are a few things about its operating advantages we want to show you.  
 You get a low down spreader with high drive wheels. It is easy to load from the front to the rear and because of the high drive wheels and roller bearings it is light draft—a most valuable combination.  
 No clutches—no chains—few adjustments to cause trouble—and it is extremely simple—only about half the parts that are necessary on the ordinary spreader.  
 The main working parts are mounted on the rear axle, where they cannot get out of line to cause binding, heavy draft and breakage.  
 The beater drive is much like the simple triple-gear horse-power. The gears are enclosed and run in an oil bath.  
 There are so many other good features about this spreader that we want you to see it. You will quickly see why there are so many satisfied users of John Deere spreaders.
