EVACUATION OF BERLIN MARKED BY FIERCE FIGHTING

By Carl D. Groat
(U. P. Staff Correspondent)
BERLIN, March 19.—Violent fighting between workmen and the Von Kapp soldiers marked the evacuation of the capital by the insurrectionary military forces. Order was finally restored by the Ebert police and military who arrived from Wilhelmstrasse at 4 p. m.

The only attempt against the lives of foreigners occurred when a mob rushed the Hotel Adlon, headquarters of the foreign mis-

sions, but was repulsed by guards. Ebert will not return to Berlin until after the meeting of the national assembly at Stuttgart. It is generally believed Noske's position is difficult because radical workmen are demanding the resignation of the defense minister. A continuance of the general strike is the workmen's weapon. When Von Kapp and Von Luetwitz fled from Berlin the democrats immediately called off the general strike, declaring it had served its purpose in defeat-

SOVIET MOVEMENT DANGEROUS

By Ed L. Keen
(U. P. Press Correspondent)
LONDON, March 19.—The Ebert government will face insistent widespread demands for a reorganization, dispatches today indicated. French, British and Italian officials in Germany said the danger of the Soviet movement backed by Spartacan movement cannot be minimized. Other advices are that radicals are threatening to gain complete control of some districts. An Amsterdam dispatch today forecast the cabinet reorganization with Eugene Schiffer as chancellor, General Von Seeckt, minister of defense; Herr Cuno, manager of the Holland-American steamship lines, as finance minister. The democrats and nationalists have agreed that the elections will be held before June with a president elected by the people instead of the reichstag.

Hope to Get Final Treaty Vote Today

By L. C. Martin
(U. P. Staff Correspondent.)
WASHINGTON, March 19.—The resolution formally returning the treaty to the president with the notice that the senate has been unable to ratify, will be introduced immediately after the final vote, if the ratification fails, Senator Lodge decided. He said all republicans would support such a resolution, thus putting the next move up to President Wilson.

WASHINGTON, March 19.—Senate leaders hope to get the final vote on the treaty ratification today. A ratification resolution was completed at last night's session which lasted until midnight. The senate today took up the preamble ratifying the resolution, following the adoption of the Lodge amendment providing that "failure on the part of the allied powers to make objection" to the senate's reservations before the American notice of the ratification is deposited, "shall be taken

as a full acceptance of such reservations." The final surveys of the leaders convinced them that no eleventh hour vote changes are likely. Hitchcock has predicted forty to forty-two votes against the ratification. Brandegee's amendment to the preamble which provides that the ratification "shall not take effect" unless an instrument of ratification is filed within sixty days after the resolution is adopted by the senate, was defeated 41 to 42. The present ratification of the resolution is, much different from that prepared last November. A summary of the important changes follow: A provision relating to the acceptance of the reservations has been changed, instead of no objection being exchanged, the allies failure to file their objection is taken as an acceptance. Article X—It now states the United States assumes no obligations to protect other nations against aggression. It says congress shall have "full liberty of action" when determining whether the United States shall go to the aid of assailed nations. Disarmament—We shall not be bound by any plan of disarmament until congress accepts it, reserving the right to increase our armaments if the United States is invaded or engaged in war. Voting Power—Until the league covenant is changed to provide that no nation with its colonies shall have greater voting power than the United States, we will not be bound by league decisions. Ireland—New reservation will be added which declares we shall adhere to the principle of self-determination and express sympathy with the aspirations of the Irish people for a government of their own choice. While awaiting the president's action the leaders believe the senate will take up the Knox resolution declaring peace. No indications exist now when the final vote will be taken.

Haien has organized the "Old Scouts." The members are business men who are glad to pay \$10 a year apiece for membership. They thus become "daddies" of the Boy Scouts and the money they pay for dues support the scout organization. Haien first called a small group of influential men together. This opinion, Mr. Cupper says, is based on reports received at his office from many parts of the state and government weather bureau records. Mr. Cupper urges that irrigation ditches be cleaned out and prepared for use as early as possible, so that water may be applied as soon as conditions will permit. Under the state laws Mr. Cupper has charge of the distribution of the waters of the various streams.

Edward "escaped," but he was a nervous wreck for some time. "They had a photograph in the shop," said Fairbanks, "and it played jazz music all of the time I was being shaved. It involves building a dam at Whistler Bend, on the North Umpqua river which will be 15 feet high, 32 feet wide at the base and 750 feet long. Instead of a gravity system from any point on the upper river, the electric plant at the proposed dam will furnish power for pumping water into a huge reservoir at a place near Winchester, five miles from Roseburg, and from there it will come by gravity to this city. Engineers allege this arrangement will eliminate much expensive equipment, besides doing away with rapid deterioration of the main line in a long gravity system. The bonds will be voted upon in the May election.
