The Tidings has a greater circulation in Ashland and its trade territory than all other newspapers combined. Entered at the Ashland, Oregon Postoffice as Second Class Mail Matter. CHEERFULNESS Cheerfulness will help you do more and better work, as well as having more fun and better friends; and be better all around.

POLITICAL PROPAGANDISTS Just lately we are exceedingly impressed with the interest all political parties, and all candidates of political parties, and candidates for nomination by political parties, are evincing in the newspapers. We get a waste basket full of dope every day from candidates and parties—all personal and party propaganda—for FREE publication, but we do not use any of it—either personal or party—our columns are too full of paid advertising to justify it. Nor do we expect to use any of it. Our past observations are against the expediency of it. This applies to politicians and parties of every kind and kind. Our advertising columns are open to all of them on exactly the same terms—the regular advertising rate—but absolutely not open to any personal or party political propaganda. This applies to state and local as well as national individual and party propagandists.

The old full-grown tea leaves you get in common tea are loaded down with tannin—that's what gives common tea its puckery taste. For Schilling Tea, we use only the young leaves, rich in fine tea-flavor. If you like tea strong in tannin, buy the common kind. If you want fine tea, without the puckery taste, ask your grocer for Schilling Tea.

There are four flavors of Schilling Tea—Japan, Ceylon, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere. A Schilling & Co San Francisco

BETTER DEAD Life is a burden when the body is racked with pain. Everything worries and the victim becomes despondent and downhearted. To bring back the sunshine take GOLD MEDAL HARLEM OIL CURET. The national remedy of Holland for over 200 years; it is an enemy of all pains resulting from kidney, liver and uric acid troubles. All druggists, three sizes. Look for the name Gold Medal on every box.

Thousands upon thousands of dollars are expended in every political campaign. The men who send out the free press notices to the publishers draw fat salaries for doing so. Thousands of dollars are spent for publicity. The press agents are paid; the postage is paid; the composition is paid for; the photographs and plates are paid for; the motion pictures are paid for. Why should not the publisher get paid for his more valuable commodity? This has been our experience. Politicians will use the newspapers just as long as they are useful and always when they can be used for nothing. Once elected, if the paper criticizes too harshly we hear talk of a censorship. If the publisher cries for bread they hand him a stone. If he wants relief from the outrageous printer situation they give him conversation; if he wants an honest postal rate he runs up against a "soak the newspaper guy."

Just at present all the candidates are in the attitude of bowing and scraping to newspaper publishers wherever situated. They need the newspapers now and consequently they are extremely polite to them. Once elected, they won't need the newspapers at all, at least they figure they don't need them, and then the country publisher will not be able to get within hailing distance of the back door of the third assistant secretary to the office.

In the meantime it is good newspaper policy to put political propaganda on the same basis as business propaganda—on the paid advertising basis. When the politicians get for the paper white paper for nothing it will be time enough to let politicians use its columns for nothing.

PREDICTS BIG FRUIT CROP

CHICO.—Chico has been more fortunate in the matter of rainfall received than any other fruit district of the state, declared R. Rodrick, district field manager of the California Packing corporation, on his return after a tour of northern California. Rodrick said that as a result of his trip he believed prospects were for a heavier prune crop in 1920 than in 1919. Peaches on the lower portion of the Sacramento valley show a heavy setting of buds, but the peach out-put of the Chico district will be only about 60 per cent of last year's crop. Indications generally are that the almond crop will be heavier than last year's, but the Capay valley, where they seldom have frost, has suffered a severe damage, he said. The almonds and apricots there are practically gone. Apricots were found to be spotted, but he estimated that this year's crop would equal that of last year. In the lower valley, he said, apricots are suffering from a twig blight, a method to combat which has not yet been discovered by University of California experts.

ENGLISH WAR PROFITEER HAS "FRESH" IDEAS (By United Press) LONDON.—(By Mail.)—The war profiteer's ideas are just as "fresh" as his wealth. A well-known decorator said the other day, many of the big West End houses are changing hands, and he and his fellow tradesmen are so busy they can hardly cope with all the white-washing, which falls to their brush. Money is being spent regardlessly. Portraits of members of the family are being painted on the dining-room walls. One dining-room is described as bounded on the north by Pa, on the south by Ma, on the east by Clara and on the west by Little Jimmie. The coming London season promises to be refreshingly and uniquely gay. One will dine with the family in duplicate—probably their interpretation of dining "à deux."

ROBIN RED BREAST IS TALKING Spring is the time to dress up and—to paint up. At this time nature puts on her brightest, freshest colors. And most everybody takes the hint and does likewise. Property owners should remember that in the winter buildings undergo much wear and tear from storms. Paint up. Repair the ravages of frost and wind. Phone us for paint prices and color suggestions.
