wood house, etc.

"WE SHOULD HAVE BOUGHT IT"

That is what a housewife said to us when she called seeking a new home to move to after getting notice that thier abiding place was sold.

BUT IT IS NOT YET TOO LATE

Not All the Good Bargains Are Gone. Prices remain ridiculously low in many cases, as compared with other things. The tendency is toward a rise in prices of improved places. And none that have been recently purchased could be had except at a handsome advance. Not a day passes that we do not hear of an offer to "buy your bargain." This certainly WAKES UP THE PROCRASTINATORS.

A VERY SIGNIFICANT FACT IS THAT THERE ARE MANY PLACES WITH GOOD IMPROVEMENTS OFFERED FOR BUT LITTLE MORE THAN ONE CAN BUY SIMILAR LAND WITH NO IMPROVEMENTS FOR.

With building costs as they are and the demand for homes continuing, rents rising and population increasing, even a Wise Blind Man would not fail to see the present GOLDEN OPPORTUNITY and take advantage of it.

HERE ARE SOME SPECIAL BARGAINS:

No. 44-Very good 4-room house, connection, chicken house, garage; large lot, good level soil, near high school, one block from pavement. With a little "dolling up" the place is a \$10 rental property. Price formerly \$700, now reduced and will take small payment down, balance easy payments at 6 per cent.

No. 56-Extra good 6-room house, stone foundation, cellar, bath, etc.; walls plastered, very convenient arrangement of interior, chicken yards and buildings for garage and chickens; extra large lot with good garden spot and abundance of all kinds of fruit and flowers. Nicely located overlooking valley but level and easy of access. Price reduced from \$1800, away down; terms at that.

No. 415-About 7 acres of splendid land fenced and plower, all first class, grass garden or fruit land, just edge of city; No. 108-Nearly an acre of rich abundant water, splendid subdivision property and worth the money for farm land or garden. Price reduced from \$3500 down to attractive one. Come and see about it.

No. 20-An acre nicely located near Junior high school, easy of access, level and rich soil Good house, modern improve-

Overland 4 Sets a Great **Endurance Mark**

Stock Car, Running 24 Hours a Day for Seven Days, Establishes Record At Indianapolis

IT TRAVELS 5452 MILES

This is said to Equal a Year's Wear and Tear by the Average Motor Car Owner.

FURIOUS DRIVING ALL THE WAY

Triplex Springs Protect Car from Road Vibration of Driving at an Average 32 1-2 Mile-an hour Speed

Driven continuously for seven days and seven nights, over ordinary suburban roadways, an Overland 4 stock car has established at Indianapolis, Ind., a new unofficial world's mileage record for a light car under 168 hours of incessant

The Overland 4 in the seven days and nights of this remarkable endurance run piled up record of 5,452.15 miles. The car finished the grind oon the same Fisk tires with which it started. To make this new record, the drivers of Overland 4 maintained an average speed of 321/2 miles an hour, 24 hours a day. Gasoline mileage was 20.24 miles a gallon. The consistency of Overland 4 performance is shown in this tabulation of each day's run. The first day and night. the speedometer registered 749 miles. On the second day,

fourth, 793; fifth, 809; sixth, 823, and on the last lap of the new unofficial world's record, 753 miles. The test, the first of its kind to betried and actually accomplished by a light car, started at 9 a. m. on February 25th and ended at 9 a. m. on March 3rd. The run was conducted by the Bibson Company of Indianapolis, distributors for Overland cars. The mileage and gasoline records

the mark was 778 miles; on the third, 747 miles; on the

are certified by the following observers: Howard F. (Howdy) Wilcox, winner of the 1919 Indianapolis Speedway 500 mile racing classic; Munroe E. Boblet, secretary of the Hoosier Motor Club of Indianapolis; and R.

H. Scrogin, editor of the Hoosier Motorist. Although the new Overland 4 with Triplex spring shad been tested 250,000 miles under all possible weather and road conditions before it was placed on the market by The Willys-Overland Company, the officials of the company feel that the Indianapolis endurance run is one of the most convincing demonstrations yet made of the reliable, economical performance of the car and the road-comfort qualities of the

now famous Triplex spring suspension. Officials of the company witnessed the start and the finish of the seven-continuous-day run. Careful examination of the car and its power plant after the run convinced the Gibson company that the car was ready to repeat the endurance test of the 168 hours of furious driving and largely because the car had been protected by the new Triplex springs. The run is considered the highest possible verification of the ability of this new spring suspension to protect the car from road wear and provide big car riding comfort in a motor car of short wheel-base.

Weak Links in a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enought, but the metal isn't there-the strong, durable Vanadium steel that goes into the Ford chasis and every Ford part. Ford parts are specially cast and heattreated, each according to its use. Some require a hard, flint-like wearing surface, others

need resilency, and some need just "toughness." Ford metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than coun-

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service - from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the
