## Many Returns From "Think of Ashland" Program Work Plan

\*\*\*\*\*  
The greatest American author-  
ity on community and civic  
advancement work states: "The first duty of a  
Commercial Club is to  
TEACH THE PEOPLE TO  
"THINK." The Ashland Com-  
mercial Club has made a  
start along this line. It  
would take a man of far-  
flung prophetic powers to  
vision the community which  
Ashland can be if this busi-  
ness of team-thinking in  
which the community has  
been engaged for the past  
two weeks, can be built into  
a TEAM-THINKING HABIT  
backed up by an equal  
amount of SERVICE over  
a term of years.  
\*\*\*\*\*

The returns which are pouring  
in to the Commercial Club from  
the appeal made to the people of  
Ashland to THINK of the city's  
future and to help the Commer-  
cial Club plan for the future by  
filling out questionnaires giving  
suggestions for a program of  
work, are most inspiring.

According to Secretary Mowat  
who is tabulating the various  
plans and suggestions the returns  
give more than ample proof that  
the people of Ashland are  
THINKING along lines of commu-  
nity betterment; and not alone  
thinking, but planning to serve  
as well as to think.

Mr. Mowat states that practi-  
cally every suggestion so far re-  
ceived, and the returns are going  
into the hundreds, has been most  
practical and that the program of  
work committee which will be  
named by a committee which can-  
vasses the results of suggestions  
for committee members, Monday,  
will not have a difficult job in  
ascertaining and placing on a ten-  
tative program of work the un-  
derstandings which the people of  
Ashland wish the Commercial  
Club to undertake.

Some of the Ashlanders who  
have responded to the call for  
thought were unable to get their  
ideas down on the questionnaires  
and have written letters outlin-  
ing complete plans.

Two men sent diagrams with  
their suggestions; one of a mun-  
icipal improvement plan which  
has been carried out in other  
cities, and one of a larger project.

Many went further than a bare  
statement of the project they  
favored and presented practical  
reasons and arguments. One of  
the most encouraging features of  
the returns has been the great  
number who by their replies in-  
dicated long and careful thought  
on the city's needs, dating back  
of the present campaign. Such  
matters will be invaluable in pro-  
specting future activities.

Women Come in Strong.  
The women are answering the  
call almost as well as the men  
and show the same practicality  
and results of deep thought.

Suggest Many Men and Women.  
Out of the first 50 question-  
naires received, 32 men and wo-  
men were suggested for the pro-  
gram of work committee. This  
number is gradually increasing  
and it appears that over 100  
names will be nominated for the  
program of work committee. They  
are Ashland's most representative  
men and women and it is unfor-  
tunate that all cannot be asked  
to serve on the committee. How-  
ever, such a committee would be  
too large to handle the detail  
work necessary and the commit-  
tee will be selected from those re-

ceiving the largest number of

representative committee.  
A committee of ten will be cal-  
led Monday morning to canvass  
the nominees for the program of  
work committee and those chosen  
will be informed by messenger  
immediately and asked to attend  
a meeting Monday night at which  
the tentative program will be  
worked out. Men and women who  
are called for this important  
meeting are urged to place at-  
tendance at it above any other  
engagement. They will be the  
true representatives of the peo-  
ple in a most important duty and  
should unhesitatingly respond. It  
is important that the program of  
work be evolved Monday night as  
the budget committee will meet  
Tuesday to set the amount of the  
budget, which will be guided by  
the items on the program of  
work. Tuesday night material  
will be prepared for a prospectus  
which will be mailed out to the  
prospect list of approximately 900  
Ashlanders. This will include the  
program of work, budget plan,  
complete information as to mem-  
bership, and a general summary  
of purposes and policies.

Ashland the Exception.  
A noted authority on commu-  
nity affairs states that a people  
only have about 15 things in their  
minds, these being matters of par-  
ticular appeal of the moment. Ash-  
land effectually disproved this  
theory, or else proved itself the  
exception to the rule. Ashland  
has been THINKING.

IF YOU HAVE NOT MAILED  
YOUR QUESTIONNAIRE, mail it  
Sunday. All returns must be  
mailed by 8 p. m., Sunday to  
count in building the program.  
DO IT FOR ASHLAND.

HOOD RIVER—Lead poisoning  
from spray applications on clover  
crops has been fatal to a num-  
ber of Hood river valley horses  
recently. The horses had been  
eating hay cured in orchards.  
Growers have been warned to  
use care in spraying orchards  
from which they expect to har-  
vest hay. Victor Beuregard, east  
side rancher, has lost two valu-  
able horses from poisoned hay.

FARM BUREAU BUYS SEED  
CORN AND SUNFLOWER  
So great is the seed corn and  
sunflower seed shortage that the  
Benton County Farm bureau has  
bought up all it could get to in-  
sure at least a partial supply. Only  
four of all corn growers in the  
county reported seed for sale, and  
one of these lots—several tons—  
was damaged and unfit for  
seed. Farm bureau members will  
be allotted seed in order of de-  
mand.

FLIERS ON MAN HUNT.  
LOS ANGELES—An airplane  
carrying a trained observer has  
gone to Death Valley, where it  
will search for Milton K. Moore,  
camera man, and M. K. Wilson,  
government geologist, who are  
believed to be lost in the desert.  
Moore and Wilson left two  
weeks ago to make some pictures  
for the government. They were  
to be home last Wednesday.

USE OF TRUCKS  
GAINS ON FARMS  
In the year 1919 the people of  
Wisconsin purchased 36,110 auto-  
mobiles and 4,028 motor trucks.  
At \$1,000 apiece for automobiles,  
the investment was \$36,110,000.  
Assuming that motor trucks cost  
\$1,500 each, this represents an  
investment of \$6,042,000 or a  
grand total of \$42,152,000.

Using these figures as a basis  
officials in the Motorize the Farm  
Bureau, Goodyear Tire & Rub-  
ber Co., estimate there will be at  
least 200,000 prospects for motor  
trucks in 1920.

Should Not  
Recognize  
Insurgents  
(By United Press)  
CLEVELAND, April 9—The  
government was warned today not  
to recognize the insurgent strik-  
ing yard workers, by President  
Lee of the Brotherhood of Rail-  
way Trainmen. The warning was  
in a message Lee sent to W. L.  
Chambers, commissioner to the  
United States board of mediation,  
and conciliation, in Chicago.

President Certain  
To Veto Resolution  
(By United Press)  
WASHINGTON, April 9—Pres-  
ident Wilson is certain to veto  
the resolution declaring peace,  
which is expected to pass the  
house late today, Champ Clark  
declared during the debate on the  
measure.

"It is a futile performance—  
full of sound and fury—signi-  
fying nothing except a disparate,  
unavailing effort not to make  
peace, but to make some political  
capital, that is apt to act as a  
boomerang," Clark said. "In-  
stead of making peace it would  
lead us into all sorts of interna-  
tional quagmires." He declared

## MORE TROOPS CROSS RHINE

(By United Press)  
BERLIN, April 9.—French re-  
inforcements have been sent to  
Frankfort, according to the Tag-  
blatt today. The newspaper said  
three regiments of infantry and  
many tanks crossed the Rhine  
yesterday from Strassburg, for  
various destinations in German  
territory.

## WHITE SHIELD HOME TO OPEN

PORTLAND, April 9.—One of  
the most unique social functions  
in Portland's ken will be the op-  
ening of the White Shield home,  
April 13, 14 and 15 as the Salva-  
tion Army Rescue and Maternity  
home for Oregon.

On the 14th the social and phi-  
lanthropic leaders of Portland will  
assist the score or more babies of  
the home to entertain the visit-  
ing women of Portland and out-  
side towns. Prominent girls of  
Portland will be guides and will  
conduct the visitors from the re-  
ceiving line to the nursery where  
the babies will have a receiving  
line all their own. Here there  
will be many a heart to heart talk  
with some bright-eyed, smiling,  
pink-toed mite, who will coo in a  
way always peculiar to each  
baby, the welcome it would like  
to express in a more mature vo-  
cabulary.

Mrs. Henry L. Corbett and Mrs.  
W. B. Ayre are sponsors for the  
babies on that day and will be  
assisted by many others of the  
state's elite.

## EXPENSES REDUCED

(By United Press)  
WASHINGTON, April 9—Dras-  
tic reduction in appropriations for  
coast defense fortifications dur-  
ing the next fiscal year was or-  
dered by the house appropriations  
committee today, which reported  
the fortifications bill with nearly  
ninety-nine million dollars less  
than the war department asked.  
The bill requires there shall be  
returned to the treasury more  
than eight hundred millions of  
the unobligated balances of ap-  
propriations heretofore made.

The only new authorization  
made was for two 16-inch guns at  
Hawaii.

## WANTS TO END OUT- LAWSTRIKE

(By United Press)  
WASHINGTON, April 9.—The  
senate today ordered an investi-  
gation of the railroad strike. It  
adopted without debate a resolu-  
tion authorizing the interstate  
commerce sub-committee to in-  
vestigate and immediately re-  
port on the causes and purposes  
of the strike.

## WANTS LAWS TO BE EQUAL

(By United Press)  
WASHINGTON, April 9.—Pres-  
ident Lee, of the Brotherhood of  
Railway Trainmen, in a telegram  
to Representative Cooper today,  
asked why bona fide unions are  
subject to laws against strikes  
which do not apply to "renegade  
organizations," which he de-  
clared responsible for the switch-  
men's strike. Lee requested the  
matter be taken up by the at-  
torney general.

## FRANCE HELD ACCOUNTABLE

(By United Press)  
PARIS, April 9.—France will be  
held accountable for damage done  
to lives and property of German  
citizens during the French occu-  
pation of the Rhine cities, the  
German delegation here today an-  
nounced. Members of the dele-  
gation said they will hand a note  
to the French foreign office to-  
night, outlining the Berlin gov-  
ernment's position.

## BRIGADE MUTINED

(By United Press)  
BERLIN, April 9.—Two battal-  
ions of the Baltic marine brigade  
at Doberitz Camp, near Berlin,  
mutined last night, killing sev-  
eral officers. It is reported the  
brigade was one of the chief sup-  
porters of the recent Von Kapp  
insurrection and refused to dis-  
band as the government ordered.  
Captain Ehrhardt, commanding  
the brigade, claimed the fighting  
was between his troops and at-  
tacking Reichswehr but this state-  
ment is denied from several  
sources. The situation is report-  
ed still critical, the mutineers re-  
fusing to surrender the camp  
commander. They are reported to  
be led by a "soldiers' council"  
which planned to enter politics on  
its own behalf.

## FREIGHT TIE UP CONTINUES

KLAMATH FALLS—The freight  
congestion at the local depot, due  
to shortage of freight handlers,  
has not improved since last week.  
Demands on the Southern Pacific  
management for remedy for a  
situation which is working a hard-  
ship on local merchants, and in  
fact upon all freight consignees,  
have so far been unanswered al-  
though both the local Southern  
Pacific office and the merchants'  
association sent urgent requests  
for relief several days ago.

## CLAIMS MT. M'KINLEY IS TIRED

(By United Press)  
PORTLAND, April 9.—Mount  
McKinley is sinking!  
Herschel C. Parker, eminent  
geologist and mining engineer, is  
authority for the statement. An-  
cient and weary, the mountain is  
slumping down with the ebb of  
ages, according to Parker, who  
says the peak is at least 500 feet  
from its former altitude of 20,400  
feet.

Parker led the party which first  
scaled the highest peak of the  
Alaskan range, in 1912. Parker  
is the man who exposed the  
claims of Dr. Frederick A. Cook,  
who claimed to have made the

Parker is in Portland on busi-  
ness. He has spent most of the  
last 20 years in Alaska, where he  
has extensive mining interests.

## Gloom Reigns In Ruhr

The third night of French occu-  
pation passed quietly and citizens  
are pessimistic. They expect the  
French troops to remain for  
weeks. Excitement of the early  
stages of French control has  
changed to a grim calm which  
seems only a surface covering for  
widespread discontent.

Even the radical independent  
socialists who greeted the French  
arrival with cheers, welcoming it  
as a blow to the prestige of the  
German government, have begun  
to look upon the French as in-  
truders. The working classes fear  
a shortage of food. Local press  
comment is reserved, bearing evi-  
dence of an editorial fear of the  
French authorities.

## Embargo Ordered

(U. P. Staff Correspondent.)  
LONDON, April 9.—France act-  
ed without the approval of Great  
Britain, Italy and the United  
States when she occupied German  
cities, according to authoritative  
information here. The allies'  
alignment, in the opinion of ob-  
servers here today, has been split  
at least temporarily, with Great  
Britain and Italy on one side, and  
France and Belgium on the other.

A Brussels dispatch said the  
Belgian government, with the ap-  
proval of King Albert, sanctioned  
the French move, and agreed to  
send detachments to assist the  
French occupational forces.

Great Britain is reported to  
have started negotiations with  
France to effect an adjustment of  
the delicate situation created by  
what British statesmen consider  
France's hasty and unjustified  
action in the Rhine advance. The  
British position, according to in-  
formation today, was that France  
should have accepted Germany's  
pledge that she would withdraw  
her troops from the Ruhr basin as  
soon as order was restored at its  
face value and that retaliatory  
measures should not have been  
taken until Germany's bad faith  
had been proved.

Great Britain still considers the  
Ruhr incident as a German inter-  
national affair and holds Germany  
should be allowed to settle her  
own troubles until it has been  
proven she cannot do so. France,  
the British government feels,  
should not ask the allies to as-  
sume the responsibility for the  
step taken without their sanction,

## STRIKE CAUSES SHUT-DOWN IN COAL DISTRICTS

### Kitchin Paralyzed

(By United Press)  
WASHINGTON, April 9.—Rep-  
resentative Kitchin suffered a  
stroke of paralysis today just af-  
ter making an attack on the peace  
resolution in the house. The left  
side of his face and his right arm  
are partly paralyzed and his  
speech is slightly impaired.

Despite his condition, Kitchin  
insisted he be allowed to appear  
on the floor and vote against the  
peace resolution but was removed  
to his home in an army ambu-  
lance. Physicians said his condi-  
tion is serious.

asked why bona fide unions are  
subject to laws against strikes  
which do not apply to "renegade  
organizations," which he de-  
clared responsible for the switch-  
men's strike. Lee requested the  
matter be taken up by the at-  
torney general.

## Gloom Reigns In Ruhr

The third night of French occu-  
pation passed quietly and citizens  
are pessimistic. They expect the  
French troops to remain for  
weeks. Excitement of the early  
stages of French control has  
changed to a grim calm which  
seems only a surface covering for  
widespread discontent.

Even the radical independent  
socialists who greeted the French  
arrival with cheers, welcoming it  
as a blow to the prestige of the  
German government, have begun  
to look upon the French as in-  
truders. The working classes fear  
a shortage of food. Local press  
comment is reserved, bearing evi-  
dence of an editorial fear of the  
French authorities.

## Embargo Ordered

(U. P. Staff Correspondent.)  
LONDON, April 9.—France act-  
ed without the approval of Great  
Britain, Italy and the United  
States when she occupied German  
cities, according to authoritative  
information here. The allies'  
alignment, in the opinion of ob-  
servers here today, has been split  
at least temporarily, with Great  
Britain and Italy on one side, and  
France and Belgium on the other.

A Brussels dispatch said the  
Belgian government, with the ap-  
proval of King Albert, sanctioned  
the French move, and agreed to  
send detachments to assist the  
French occupational forces.

Great Britain is reported to  
have started negotiations with  
France to effect an adjustment of  
the delicate situation created by  
what British statesmen consider  
France's hasty and unjustified  
action in the Rhine advance. The  
British position, according to in-  
formation today, was that France  
should have accepted Germany's  
pledge that she would withdraw  
her troops from the Ruhr basin as  
soon as order was restored at its  
face value and that retaliatory  
measures should not have been  
taken until Germany's bad faith  
had been proved.

Great Britain still considers the  
Ruhr incident as a German inter-  
national affair and holds Germany  
should be allowed to settle her  
own troubles until it has been  
proven she cannot do so. France,  
the British government feels,  
should not ask the allies to as-  
sume the responsibility for the  
step taken without their sanction,
