KLAMATH CO. GROWS MINT

KLAMATH FALLS—Growing of mint on Klamath county tule lands will be an important industry in the future, says John M. Davies, reputed to have been the largest peppermint producer in the Willamette valley before disposing of his farm near Independence, Or. Davies was here for a few days recently investigating local conditions and will organize a company to operate on a big scale. Local marsh land is ideal for mint growing, according to Davies and other experts, and should yield from 75 to 100 pounds to the acre of peppermint oil. The oil is worth, at average quotations about \$8 a pound.

IT is not unusual for a BORN Tailored suit to satisfactorily serve the wearer from five to ten years—style and shape actually outlive the fabric.

Clothes service of this character is made possible only through the use of dependable woollens and master needle work—the only kind you will see bearing the BORN Label.

Special values at \$35 and \$40.

ATTEMPT TO PAROLE CONVICT IS BLOCKED

ROSEBURG—Attempts of persons in Portland to secure the parole of John Karis, recently convicted here and sentenced to 20 years of hard labor for his share in the sensational robbery at Scottsburg several months ago, have been blonked by the district attorney of Douglas county, who has recently laid the case before Governor Olcott.

Greek friends of the convicted man also wrote to District Attorney Neuner asking him to use his influence in securing parole. Mike Zelok, a leader in the robbery, who is now in prison, is reported to have been summoned before the parole board and there he implicated Karis equally with himself in the robbery.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.
