POLES ARE PREPARING WARSAW FOR DEFENSE

RECOGNIZE COSTARICA

(By United Press) WASHINGTON—The state department has announced that the Costa Rica government has been recognized by the United States.

SAVED FROM CHILLY DEATH

(By United Press) SANTA ROSA, Calif.—William Steinberg, prominent merchant, was saved from freezing to death today by Mrs. Arthur O'Connor, who released him from a refrigerator inside which he had been locked for 50 minutes. Steinberg fell unconscious on the floor when she, summoned by faint cries inside the chest, opened the door. He had entered the big box in a meat market he owned, when no one was in the store, and a sudden gust of wind slammed the door shut, the spring latch locking securely.

DOWN AND OUT BUT HONEST

(By United Press) NEW YORK—John Heffernan—broke and out of job—turned \$540 he found over to the police. "Bad luck to keep it," he said.

SEDITION CASE GOES TO JURY

(By United Press) CHICAGO—The case of William Lloyd and 19 others, charged with participating in a conspiracy to overthrow the government, went to the jury at noon today. The trial, the first brought under the Illinois sedition law, is regarded as a test case. Lloyd and his companions are specifically charged with organizing a communist labor party for the purpose of forming an alliance with the third internationale of Moscow and establishing a soviet government in the United States through the medium of a revolution that was to take the form of a general strike. The trial began May 10 after 52 days spent in getting a jury.

RATE INCREASE WILL FINALLY LOWER PRICES

(By United Press) CHICAGO—Increased railway freight rates will eventually cause a reduction in the cost of living, according to Hale Holden, president of the Chicago, Burlington & Quincy railroad. While there may be a slight temporary increase in the prices of some commodities, predicated on the rate increase, this will be negligible, Holden said. "Increased freight rates will allow the railroads to restore their efficiency in transportation and this will eventually mean faster and wider distribution of food stuffs, fuel and other necessities," Holden said. "Rolling stock will be improved, new cars and locomotives built. Terminal facilities can be increased, relieving freight congestion. The rate increases may be regarded very optimistically by the public, I believe."

Portland acquires \$50,000 country club for additional city park.

By Webb Miller. (U. P. Staff Correspondent) LONDON—The Russian forces are 58 miles from the important Polish city of Lemberg, according to a Warsaw official communique. "Fighting at Brody (58 miles east of Lemberg) and Toporow is proceeding in our favor," the statement said. "The Russian losses at Toporow are heavy, the bolshevik chief of staff being among those killed. Our troops repulsed attacks along the Sereth river." The hot breath of battle is being felt in Warsaw. Dispatches from there told how the spirit of dread crept through it as news came that the advance of the bolshevik continued unchecked. With Trotsky's armies menacing the capital from the north and east, measures are being taken for a desperate defence of the city. People, including women, went into the fields with picks and shovels and commenced throwing up earthworks on all sides under the direction of army engineers. They labored at top speed, many falling exhausted. Meanwhile engineers are driving stakes and meshing barbed wire across the principal roads down which the Red cavalry might swoop in a sudden descent upon the town. Women are taking a valiant part in the defense of Warsaw. A battalion of them participated in the fighting which preceded the fall of Lomza, 75 miles northeast of Warsaw. According to advices from the front they stood against the bolshevik to the last, suffering heavy casualties. Warsaw dispatches also told of the arrival there of the remnants of another battalion of women for the purpose of filling gaps in the ranks and reorganizing preparatory to fighting the bolshevik again. Berlin dispatches declared the Reds occupied Brest-Litovsk. This strong fortress fell with slight resistance, according to the German version. Warsaw admitted the Russians were "at Brest-Litovsk" but not that the fortress had fallen. No definite word has been received of the Polish-Russian armistice negotiations and British officials are plainly worried. They fear the Reds intend to accomplish complete Polish disaster, rendering them absolutely helpless, before imposing drastic terms of peace.

MAKE CAP OF VILLA

(By United Press) WASHINGTON—Under terms of his "surrender," Villa, the Mexican rebel leader, is to be given command of the rurales, or constabulary, in the state of Chihuahua, according to an official report to the state department.

IRISH BILL APPROVED

LONDON—The British cabinet has approved the Irish bill, practically as presented. The measure, it is understood, will suspend trial by jury and provide that offenders shall be tried by court martial in Dublin. Lloyd George considers this necessary to enable the government to cope with the Sinn Fein. Some opposition is expected in parliament, but a victory for the bill is considered certain.

CONCRETE CARS GERMANS LATEST

BERLIN—German ingenuity, fostered by compelling necessity, is going forward with the construction of ferro-concrete ships and freight cars. Development along these lines promises to be enormous. Experiments and actual construction already undertaken indicate that the modern style of construction which has largely been forced upon it because steel and iron are short. This shortage is destined to be greater as time goes on, since Germany is obligated to supply large quantities for France's reconstruction.

Sight of Hubby Ends Her Anger

PORTLAND—Mrs. Edith Hyder, wealthy Los Angeles, came here demanding the arrest of her husband, Frank, whom she accused of stealing her automobile, but she changed her mind and the Hyders started back to Los Angeles together on what they termed their "second honeymoon," with the husband at the wheel of the "stolen" machine. Mrs. Hyder was very angry when she found her automobile had been stolen at Los Angeles. And she was considerably more pensive when she was notified that her husband had been located at Tillamook, Oregon, with her car. The detective who found Hyder was ordered to bring the husband and car to Portland, where Mrs. Hyder would meet them and swear out a complaint against Hyder. "Where is that husband of mine?" asked Mrs. Hyder of Detective Keller when she reached the city. "In jail where he belongs." "No, in the next room," replied Keller, and prepared to prevent violence. The door opened and Hyder appeared. "Hello, Edith," he said cautiously. "Why, hello, dearie," said Mrs. Hyder, coolly. After that a reconciliation was easy. "Mr. Keller," said Mrs. Hyder later. "You are a man of large experience. Please advise me." "About the car?" "No. Am I foolish to take Frank back?" "Madam," said Keller, backing away. "I once tried to advise a woman when her husband was beating her. I was a police captain then. She hit me over the head with a frying pan." "I need your advice, though," pleaded Mrs. Hyder. "So does Frank. Don't you, dearie?" "My advice, then," said Keller, "is to get a new set of tires. You will never get to Los Angeles on those old ones."

Fireworks Draw Crowd

Ten display of fireworks staged in the park by H. M. Squires under the auspices of the Ashland Park commission last Saturday night attracted a large crowd from all over the valley. The display was excellent, over 20 set pieces being shown. A concert by the Valley band preceded the fireworks. Confectioneries and restaurants of the city did a record breaking Saturday night business and two dances were crowded, there being more people in town than on any night this summer except during the celebration.

CHICAGO GRAIN MARKET RISES

(By United Press) CHICAGO—All grain futures closed higher today, largely as a result of the shorts covering and bullish weather reports. Canadian and Central west wheat districts reported grain to be suffering severely from drought. Corn and oats followed the upward tendency of wheat.

THINK MEXICANS WILL COMPROMISE

(By United Press) CALEXICO—Political estrangement between the Mexican de facto government and Governor Cantu of Lower California will not result in a showdown in the form of military invasion of the province by Federal troops, experienced observers here believe, following the arrival of commissioners sent from Mexico City to reach an understanding with Cantu. It is indicated a compromise will be reached shortly.

GERMANS GUARD EAST BORDERS

(By United Press) PARIS—Germany has issued orders for troops to be sent to the eastern Prussian frontier if necessary to guard against Poles and bolsheviks who may carry their warfare across it, the allies were informed in a note today. The note said that the entente not having replied to previous requests for permission to send German soldiers to the frontier, the German government authorized sending troops to the border if necessary. The original request said the Polish-Russian disturbances made the presence of German troops on the border imperative. Dr. Goepfert, head of the German delegation to Paris, delivered the note. As the council of ambassadors was not in session, the note was delivered directly to the French government.

Postal Employees Must Be Neutral

The Ashland postoffice today received the official warning notice concerning the participation of employees in political activities. The notice is signed by Martin A. Morrison, president of the U. S. Civil Service commission and underneath his signature is attached a notice by Postmaster General Burleson requesting all postmasters and postal employees to carefully refrain from engaging in pernicious political activity during the pending political campaign. Postal employees have been under the civil service rules in this respect for many years, but postmasters have been considered political offices and their appointments were handled as patronage by congressmen, senators and political committees since time immemorial. By executive order issued in March 1917, the political method was removed and postmasters making good according to the department's ideas of efficiency and service retain their positions until death, resignation or removal. Vacancies are filled by competitive examinations held by the civil service commission, the highest applicant receiving the appointment, regardless of religious or political registration.

STRIKES SPREAD

(By United Press) EVANSVILLE, Ind.—With the unauthorized strike of coal miners spreading to the Kentucky fields, the mines in the "pocket" district of Indiana did not reopen as anticipated. More than 200 day men left work at the Henderson, Ky., mines. Eighteen Iowa Mines Idle. DES MOINES—Miners of eight Iowa mines struck today, demanding increased wages. This brings the total number of idle mines in the state to 18.

TWENTY-TWO IRISH DEAD

(By United Press) LONDON—Twenty-two were killed and 57 wounded in the fighting in Ireland during the month of July. Lloyd George declared in the house of commons today. The killed were 15 policemen, four soldiers and three civilians. The wounded included 30 policemen, 22 soldiers and five civilians. Lloyd George also stated that armed men held up the Mizenhead lighthouse on the Irish coast early Sunday and removed a large quantity of explosives used for fog signals.

FALLING PLANE KILLS SEVERAL

(By United Press) TOKIO—Aviators Kilby and Tiffany, Americans, were killed when their airplane fell 3000 feet into a crowd of watchers today. Several spectators were killed and injured by the falling plane.

DECISION OPENS WAY FOR ROADWORK

(By United Press) PORTLAND—Work of grading and rocking the section of the Pacific highway between Myrtle Creek and Canyonville will be started this year. This work has been held up by the Riddle case, which was recently reversed by the supreme court. In this case the state highway commission was brought into court because it ran the highway on a straight course from Myrtle Creek to Canyonville instead of going to Riddle. Judge Skipworth decided that the highway commission had no authority to make the short cut and held that the Pacific highway had to go into Riddle. The decision went further and held, in effect, that the highway commission would have to take the routes designated by the county courts. This decision was upset by the supreme court.

WEATHER FORECAST

For Oregon—Fair; cooler; in east.

SOVIET PEACE TERMS TO POLAND DRASTIC

(By United Press) PARIS—Poland's armistice delegation has been confronted by the following demands from the bolsheviks, according to a Baste dispatch: The Poles must renounce all claims to Vilna, Minsk, Grodno, Cholm. All war materials and seven per cent of the nation's total rolling stock must be surrendered. Poland must submit to military occupation for five years. The Russians shall be permitted to take over Poland's coal and salt mines as security for soviet administration in that country until 1921, after which the Poles will be allowed to decide their future form of government.

NEW RATES TO GO INTO EFFECT ABOUT SEPT. FIRST

AMERICAN EXECUTED

(By United Press) WASHINGTON—Jose Perez, American, is believed to have been executed by Villa, bandit leader, according to state department advices.

SINN FEIN SYSTEM MOST THOROUGH

(By United Press) MONTREAL, Que.—That the reported burning of jails, raids and other acts of violence by the Sinn Feiners in Ireland itself is only a minor part of the campaign for the freedom of the Emerald Isle and that the real work—the appeal to the world—is being directed from London and perhaps from within the very shadow of the Scotland Yard detective headquarters itself is the growing belief here. The impression that the Sinn Feiners have selected London as their headquarters is caused by the fact that local business men and leading citizens recently have received through the English mails much Sinn Fein propaganda. One prominent business man of Montreal received a copy of the Sinn Fein publication "YOUNG IRELAND" of the date of April 17. He had only taken up his residence at the address to which the paper was mailed two months ago and this gives a fair idea of how wide awake the Sinn Fein agents are, both in Canada and in London. The paper had been carefully folded inside an innocent looking copy of the London News and was postmarked London, June 28, 6:30 p. m. In addition to some matter in Gaelic which the recipient was unable to translate, the paper had a leading article headed "A Victory for Ireland." It evidently referred to the success of the Sinn Fein hunger strike at Mount Joy and Wormwood Scrubs prisons when the English were compelled to liberate the Irish prisoners when on the verge of death from starvation. It reads in part: "The undaunted and indomitable spirit of the Irish Nation has triumphed over the most brutal, the most callous, the most debased tyranny that has ever degraded the name of civilization: Ireland's glorious victory was won by the entire Irish people. Lying at death's door, surrounded by the night of the Empire, one hundred fearless men flung defiance at their torturers; one hundred mothers of these brave men encouraged their sons to persevere in their great struggle."

WARSHIPS AT ENZENADA

(By United Press) SAN DIEGO—Americans returning from Enzenada today reported a Japanese warship anchored at Enzenada and that several United States destroyers are now there. Naval officials refused to comment. Two regiments of Federal troops will reach Mazatlan Wednesday and embark immediately for Enzenada, Mexican Consul Leleuier declared. He said he believes these troops will land at Enzenada unopposed and that Cantu will make his real stand at Mexicali, on the border.

TIE IN OLYMPIC 600 METER SHOOT

(By United Press) ANTWERP—The United States, South Africa and Sweden tied for first place in the 600-meter shooting event at the Olympic games. Firing from the prone position, marksmen of those countries each made a score of 287 out of a possible 300.

FRISCO MARKETS

(By United Press) SAN FRANCISCO, August 2—Following are market quotations: EGGS—Extras, 58 1/2c. BUTTER—Extras, 60 1/2c. POULTRY—Hens, 33@36c; broilers, 35@36c. CATTLE—Top steers, 9 1/2@10c. HOGS—Top, 16 1/2c. SHEEP—Ewes, 5 1/2@6c; wethers, 7@7 1/2c. BARLEY—Spot barley, \$2.15 @ \$2.25.

FIND JAP SMUGGLING SYSTEM

(By United Press) TACOMA—The discovery of a vast underground system whereby Japanese were smuggled into Pacific coast states, made by officials of the government, was revealed at a hearing of the congressional investigation committee here today. Positive evidence of the existence of a system operating along the lines of the method employed in smuggling slaves into the northern states before the civil war was obtained, Chairman Johnson of the committee declared. Ten dollars a head is the price the Mexican police get for their work in receiving orientals, passing them on to the United States via steamships or overland at the California border, it is declared. The system has its beginning at Yokohama and extends via Guaymas, Mexico.

WARSHIPS AT ENZENADA

(By United Press) SAN DIEGO—Americans returning from Enzenada today reported a Japanese warship anchored at Enzenada and that several United States destroyers are now there. Naval officials refused to comment. Two regiments of Federal troops will reach Mazatlan Wednesday and embark immediately for Enzenada, Mexican Consul Leleuier declared. He said he believes these troops will land at Enzenada unopposed and that Cantu will make his real stand at Mexicali, on the border.
