PLEDGES TO MAKE WARS DIFFICULT

Shipping to Lower Calif. Suspended

(By United Press)
SAN DIEGO—All sea commerce between this port and Lower California is suspended as a result of an order from Mexico City to the local consul. No ships are allowed to clear for destinations in the northern provinces of Lower California. The impending military operations there against Governor Cantu are given as the cause of the suspension of commerce.

Reds Captured by General Wrangel

Mexico Bandit To Have Body Guard

By Ralph H. Turner.
TORREON, Mexico—Rumors of a hitch in the plans for the complete surrender of Villa and the demobilization of his army are circulating here.

The disarmament and disbanding of Villa's force at Tlahua Lilo, Durango, has been postponed for a week. General Martinez and government representatives in the surrender negotiations suddenly returned to Mexico City.

It was learned that Martinez disagreed with a proposal that 50 men which the government allows Villa to retain, he should also take 150 more reformed bandits to his ranch as laborers.

General Martinez pointed out that under such arrangements, Villa would always have 200 retainers at his disposal and could go on the war path whenever he felt like it.

The government had already consented that 250 Villista officers could keep their weapons and ammunition.

At Villa's request the tiny village of Tlahua Lilo was chosen for the final surrender, and it will be staged there unless hostilities are resumed during the coming week or Villa changes his mind again.

Evidently he desired final ceremonies to be held in some isolated place, vetoing suggestions that his men lay down their arms at Torreón, where large crowds could see the surrender.

Villa is believed to fear that if his men were disarmed in the presence of a large crowd they might be attacked. This whole district has suffered from his raids and many of its people would like to see him dead.

BOSTON—The Ponzi Industrial Association—a private bank—has been seized and closed by State Bank Commissioner Allen. Investigation has disclosed, said Allen, many bad and doubtful loans. He believed very little cash is left.

The Polish bank is the second to be wrecked in the Ponzi collapse. The first was the Hanover Trust company which closed a few days ago. Henry Chimielski was president of both concerns. Additional arrests were made today. Samuel Zorn, an official of the Old Colony company, was charged with larceny. James King of the Providence office of the company and Arthur Thompson were arrested in Rhode Island.

Linger Longer Letty Pleases

Although the "Linger Longer Letty" company gave a slight demonstration and lingered a little long enroute last evening, resulting in the opening scene taking place an hour or so later than scheduled, the play was greatly enjoyed by the large audience, many of whom were out of town people from northern California and southern Oregon places.

Letty, running true to name, gave the audience a laugh and a kick from the very beginning of the play to the last curtain. It took the "star" just "nothing flat" to dispell the gloom of the somewhat tired-of-waiting crowd and they soon forgot they had ever waited.

"Hurry back, Letty," is the sentiment of those who enjoyed last night's performance.

WILL GIVE LAST DROP OF BLOOD TO SAVE WARSAW

(By United Press)
WARSAW—With the Reds reported to be only 20 miles from Warsaw on the north, a hundred thousand people gathered here today and swore to defend the city to their last drop of blood. The growl of guns could be heard in the distance as the throng assembled. There were many armed women in the crowd, also soldiers who had been invalided home.

Despite this loyalty to the nation, it is evident a great mass of people have lost faith in army leaders, and government. The Polish Bolsheviks are busy behind the lines. They continue to boast that the "Red tide" is rising. Arrangements have been made at Warsaw, according to a Polish dispatch today, for Poland and Wrangel to co-operate to the fullest extent against the Bolsheviks. A representative of Wrangel has established headquarters in Warsaw. French strategists do not believe a last ditch defense of Warsaw will be necessary, it is learned.

General Weygand, French adviser in Poland, today refused to take command of the armies because he differed with Marshal Pilsudski, who insisted the capital be held to the last. The diplomatic split between France and Great Britain over Russia is believed to have been widened by the French note to America, announcing this country had aligned its Russian policy with that of the United States.

Arthur Ecremont Dep. to Canada

(By United Press)
WASHINGTON—Arthur Ecremont, charged with gaining unlawful entry into the United States from Canada, is alleged to be connected with the Nicky Arnstein case, and has been deported across the Canadian border, the labor department announced today.

AFTER SEPTEMBER FIRST
THE TIDINGS WILL BE 65
CENTS THE MONTH.

This advance is absolutely necessitated by the advanced cost of labor and news print paper. August 1, 1918, we were paying \$2.50 per hundred for news print. Now we are compelled to pay \$12.50 per hundred, and September 1 the price goes up to \$15 per hundred pounds.
The labor scale has increased just 72 1/2 per cent in the last two years.
The past six months the circulation department of the Tidings has been operated at a considerable loss. We hoped that the paper prices would come down and obviate the necessity of this raise in subscription price, but the immediate future holds no hope for a decline. Therefore, after
SEPTEMBER FIRST THE DAILY TIDINGS WILL BE 65 CENTS THE MONTH.
All city subscribers on carrier routes who renew for a full year before September 1st can get the Tidings for one full year for \$7.50 in advance. After that date it will be 65 cents the month, or \$7.80 the year.
BY MAIL OUTSIDE OF CITY the price will be \$6.50 for the year; six months, \$3.50; three months, \$1.95; one month 65c.
