U. S. SURVEY OF NEW ROAD IS ASSURED

SALEM, Ore., Sept. 1.—Government surveyors will be at work early next week routing a highway from the Willamette valley into Eastern Oregon along the middle fork of the Willamette river, over the crest of the Cascade mountains and through the Cascade, Deschutes and Umpqua national forests. United States Senator Charles L. McNary was apprised of this in a telegram from the department of agriculture in response to telegrams sent by him from Klamath Falls a few days ago urging that the survey be made.

Helps Blaze Trail
Senator McNary was one of a party of pathfinders who crossed the mountains by this route last week in automobiles, the first motor cars ever to make the strenuous and at times hazardous journey. Three-fourths of the route for the proposed road lies through the three national forests. The survey will be made at government expense, and the road, if constructed, which now seems sure, will be at the equal expense of Lane and Klamath counties. It will not be a hard surface highway, but a mountain road of easy grades and gravelled where necessary. Senator McNary, with a party from the Eugene Commercial Club and Representative W. C. Hawley went from Eugene to the summit of the Cascades over the Willamette highway in the first automobiles ever to make the trip. At Crescent the party was met by a delegation from Klamath Falls. The Eugene party and Representative Hawley returned to Eugene by way of the McKenzie pass. The others went to Klamath Falls.

SOUNDED DOOM LEAGUE NATIONS SAYS JOHNSON

(By United Press)
SAN FRANCISCO, Sept. 1.—Senator Hiram W. Johnson has issued a statement here declaring that Senator Harding's speech of last Saturday has sounded the doom of the Wilson League of Nations and that his utterances left no possibility for pretense of misunderstanding. Senator Johnson is resting at his home on Russian Hill before his departure for the East about the middle of September to open an intensive national campaign tour for Harding and Coolidge under the direction of the speaking bureau of the republican national committee.

Road Injunction Suit Up for Action

Final hearing to determine whether the temporary injunction restraining the state highway commission from continuing work on the construction of the West Side Pacific highway from McMinnville south should be made permanent has been begun in Circuit Judge McCourt's court. Judge McCourt recently issued the temporary injunction at the insistence of Dallas and Independence citizens, who demand that the highway tap their cities. The road, as proposed by the highway commission, takes a straightaway course from McMinnville south and the commissioners counted that eight miles of paving is saved by this route. Construction on the highway through Polk county is well under way, but work has been stopped pending final decision of the court. Contractors now threaten to claim damages because they have been unable to continue the work.

American Officer Great Aid to Poles

NEW YORK, Sept. 1.—War dispatches making more than casual mention of Brigadier General Chas. Sweeney have lent to the Polish struggle more than an impersonal interest to American officers at Governors Island, who are well acquainted with Sweeney—an American soldier of fortune with both principle and purse. Men of no fortune at all who fight in any old or young army for the sake of excitement and paltry pay are common enough. But Sweeney, U. S. A., is a notable exception. He is a multi-millionaire's son, his father having amassed great wealth in the famous Coeur d'Alene mines of Washington and Idaho, and the soldier is more than a millionaire in his own right. He put in three years at West Point and then sought the life of an active soldier. In Mexico, South and Central America and Europe he has struck blows in desperate cause. Sweeney, a former lieutenant-colonel in the United States army, attached to the general staff, was in Paris during the spring of 1919, recovering from wounds suffered in the Argonne offensive with the American expeditionary forces when he learned that Poland was in great need of officers for her new armies. He consulted with the then Premier Paderewski, and offered to recruit volunteers when he returned to America to be mustered out of the service. In three weeks he had selected 200 former American army officers, all of whom had seen service in many battlefields in France. Colonel Sweeney sailed for Poland in September of last year with the first of his officer contingents. He was not long in getting into the Pole-Red fight and in recognition of his splendid services Poland commissioned him a brigadier general. Recent dispatches say that he has been marked out by his gallantry and leadership.

Securities of Jacksonville Bank Found

JACKSONVILLE, Ore., Sept. 1.—State Superintendent of Banks W. H. Bennett and Bank Examiner Marshall Hooper, who are investigating affairs of the Bank of Jacksonville, which closed its doors Wednesday, August 11, as yet decline to make any statement in regard to the bank's condition, claiming that the investigation has not proceeded far enough to warrant a definite report. A number of Jackson county warrants paid to the city of Jacksonville and deposited in the bank have been found intact and it is now indicated that much other negotiable paper left in the bank for safekeeping, which it was feared had been disposed of, will be found to be unlost. A Medford banker expresses the opinion that Bank of Jacksonville depositors will be agreeably surprised when the final settlement is made, as it is his belief that the institution held much valuable paper which will be discovered as the investigation proceeds. W. H. Johnson, president of the bank, is held at the county jail to answer a charge of falsifying statements of the bank's condition. At the preliminary hearing bonds were fixed in the sum of \$50,000, which no attempt was made to procure, as Mr. Johnson preferred to remain in the custody of the sheriff.
