Pretty Wedding

One of the prettiest weddings that has taken place in Talent in many years was that of Miss Ruth Morris, daughter of Rev. and Mrs. C. G. Morris, and Manie Alvin Porter of Roseburg, which occurred at noon Wednesday, September 15, 1920, at the First Methodist church in Talent, the Rev. Morris, father of the bride, performing the beautiful ring ceremony of the Methodist Episcopal church in the presence of a large company of invited guests.

The church was handsomely decorated with cedar, laurel and masses of asters and petunias.

Then followed the short ceremony which united the happy pair in holy wedlock.

The bride wore a gown of white satin handsomely embroidered and carried a bouquet of beautiful "Ophelia" roses.

At the close of the ceremony Mrs. McGee gave a vocal solo, "My Wish," following which congratulations and good wishes were showered upon the happy pair.

Not Waiting for Winter; They're Wearing Furs Now

By "Marjorie" (Written for the U. P.)

NEW YORK.—Summer fur sales are still waxing hot in this little city, and instead of furs being placed in storage they are taken home for immediate wear. Although the full-length wraps and dolmans of Hudson seal, squirrel, or kolinsky are not much in evidence, some touch of fur is seen upon almost every garment worn upon The Avenue.

Short little coats or capes in seal, squirrel or fitch are worn extensively over suits and street wool dresses and the popular little choker of last fall's running is back in full force. Fitch, mole, squirrel, or stone marten seems the favored fur for these tiny neck chokers. Heads and tails are used, and sometimes a bow of airy tulle or maline. The chokers are worn fastened in the back or side-front.

The higher-priced fabric coats are so lavishly trimmed with furs that they often resemble a fur coat trimmed with cloth. Deep bands of beaver, nutria, mole, skunk or squirrel finish the skirt of the coat, form deep cuffs, and the nose-high choker collar, which, when unfastened drapes about the shoulders as a shawl collar.

Suits use the narrow bandings a bit more, although collars of solid fur are also very good. Fur seems to harmonize with the goods rather than contrast. Thus, a peccan brown duretyn uses nutria fur of almost a like shade, a taupe

This town in 1945

WHAT about this town and country twenty-five years from now?

The answer is in your and my act of today. As we practice civic pride today, so will it be reflected in the GROWTH of our community a quarter of a century hence.

The practice of civic pride is more than the mere boasting of our community's present assets. It is mostly in the active support of the public and BUSINESS institutions now here—that they may develop and GROW.

Popular subscriptions to any worthy cause—whether for charity or some big municipal improvement—is all mighty fine—never to be frowned upon.

But there is a more stable method. That method is in the simple little everyday act of buying ALL our goods at home—patronizing our home merchants.

A community thrives and grows as its business institutions grow. No business man with vision enough to build up a successful business, is so selfish but that he will throw his prosperity right back into the life and development of his community.

It may be in the erection of a big business structure—it may be in helping finance some new business enterprise which will afford labor for many more workmen—it may be in the enlargement and development of his own business—offering bigger trading selection—abreast the rest of the world.

If we send or take the money we earn here to some other center for trading, pleasure, or investment—we cannot expect our community to grow—we cannot expect our own earning power HERE to increase.

Let's all start training our cash into HOME-SPENT DOLLARS. DOLLARS.

Present Year Has Good Fruit Crop

The Ashland Fruit and Produce association is one of the busiest sections of the city these days, where packing and shipping of fruit is going on from early morning until late at night. While the fruit crop this year is much lighter than that of other years, the quality is excellent, and the association has nothing to complain of when it comes to everything but peaches. This latter crop is slim this year, but those on the market are exceptionally fine, presumably on account of the small amount on the trees.

Pears are a good crop this year, as are plums and prunes. The Bartlett pears have been packed and shipped, and next week will see the packing of the D'Anjou, the Bosc and Comice. Indications point to a good crop of these later pears. The association has just finished shipping out a car of mixed fruit consisting of peaches, plums and pears to Klamath Falls.

The large addition to the association's plant is completed and affords much better facilities to the work in the building.

Port Orford has secured an electric lighting system.

Where's Your Bread Buttered?

WHAT makes your community a prosperous one? You don't need to do a "Sherlock Holmes" to figure out that the industries of a state or community are the sturdy oaks around which the vine of prosperity twines. And that the successful development of an industry depends upon the quality of the product and a market. Oregon manufacturers are putting the quality into their products; you can help extend their market by asking for "Oregon Made" when you buy. And incidentally put more butter on your own bread.
