TAXI.

TAXI—Acklin's — Rose Bros. Phone 213.　　　136-tf

CHIC FROCK OF CHARMEUSE

This frock of charmeuse in strong color is one of the very smartest costumes that one can wear at the afternoon dansant.

Plain Colors "Ultra Smart."

Plain colors are announced "ultra smart," black leading. Gray is running a close second. Dark blue with an olive tinge is holding for favor and is getting it. Tobacco brown with a russet tang is distinctive in taffeta, crepe de chine and Canton crepe. Green continues in popularity, in all fabrics, and for day and evening wear, and for indoor and outdoor wear. Copper, henna, tomato red, coral, old rose, pastel blues and pink are particularly dominant style shows. White and cream fabrics of many weaves are in the market for gowns and coats.

To Protect a Cushion.

If you own a handsome cushion the colors of which are so dainty that the cushion cannot be cleaned without injuring it, provide it with a covering of plain net. Even if several thicknesses of the net are used, the transparency of the net will allow the pattern on the cushion to be clearly seen, and yet it will protect the cushion from becoming soiled. The net can be cleaned and replaced from time to time.

Corsets and Brassieres.

The corset of the hour has a low top and is made of soft materials with the minimum of boning, whether the style be back or front laced. Brassieres are made of all kinds of material, depending upon the purpose for which they are to be worn. Like the corsets, they are made up soft with little or no boning, and one finds less shaping of models, many of the new ones being made of a straight piece of material.

"NO DANGER."
"I have a mind of my own."
"Don't worry about anybody laying claim to it."

CHOICE OF WORDS
Mr. Gibson, you're such a delightful company, I love to be with you!
Yes, that is what my wife says.
What, that you are delightful company?
Oh, no, that you love to be with me.

ALMOST THE SAME.
"You're crazy about George, aren't you sis?"
"Huh, Mother says I'm crazy to have him about."

CUPBOARD FOR LINEN PIECES

Shelves Should Be Made of Strips of Wood Instead of One Solid Board.

An ideal place for linen is a well ventilated cupboard, in a warm, dry place and in a good light. The shelves should be made of strips of wood instead of one solid piece, so that the air can circulate freely.

Linen will wear longer and more evenly if it is used uniformly. Put the clean linen in the bottom of the pile and use from the top. In this way each piece is used in turn.

It is not economy to store linen for long periods without using it. This applies particularly to starched linen, for the starch rots and discolors it. It is the "best" linen which is most likely to suffer in this way. It should have its turn for family use, and go through the wash occasionally.

A good way to protect the corners of tablecloths, which somehow always suffer in the laundry, is to sew a piece of tape on them; sew inches is enough, three on each side of the corner, and the tape is sewn flat to meet exactly the edge of the cloth.

THE ROMANCE OF WORDS

"MACARONI."

MACARONI, as we know it at present, was first made in Sicily and tradition has it that it was invented by a chef in the establishment maintained by a wealthy resident of Palermo. Despite the genius of his cook, the nobleman grew weary of the same round of high-flavored, highly-seasoned dishes and sent word to the kitchen that he desired something less pungent—a dish which savored of plain cooking and which was not as trying to the digestive apparatus.

At first incensed, the chef determined to try his hand at a mixture of wheat flour and water, rolling the paste into tubes and serving them with grated parmesan cheese which his culinary instinct told him was the proper accompaniment for a dish of this nature. Hardly had he tasted the new delicacy than the nobleman exclaimed "Cari!"—the usual Italian ejaculation signifying delight, which may be freely translated as meaning "The darlings!" "Ma Cari!" "What darlings?"—he repeated a moment later and followed this with "Ma Caroni!"—or, literally, "What dearest darlings!" The chef, who was lurking in the background anxiously awaiting the verdict upon his new dish, then came forward and explained how he had made it, adding "Since you have named it, master, so shall it be—macaroni."

Ashland Post, No. 14
ASHLAND, OREGON

Glenn E. Simpson, Post Commander.
H. G. Wolcott, Vice-Commander.
Ralph Hadfield, Historian.
Wm. Holmes, Treasurer.
Donald Spencer, Adjutant and Legion Editor.

Ashland Post No. 14 American Legion sat in regular assembly last Tuesday evening at the Moose hall. There was a lot of discussion of the various measures to be voted upon at the Special Election June 7th, and of course quite a lot of it was about the State Aid Bill wherein Ex-Service men may obtain substantial loans from the state for the purpose of building or buying homes.

Considerable amount of statistics were brought into being that shows that if the bill becomes a law there will be about $500,000.00 of outside capital brought right into Ashland by these service men. All of that money will be spent right here for building materials, etc. Not a bad prospect for Ashland is it?

The J. Henry Albers case was disposed of in a way that will eventually prove more satisfactorily to all real Americans. Albers, should and will stand retrial as was urged by all Legion Posts in the State of Oregon and other states as well. We say Oregon more particularly, because Albert resided in Portland at the time of his escapade.

Roy Hartley of Siskiyou came down to attend the Legion meeting. never misses a meeting and feels it is well worth his while to come down on those occasions.

Oregon paid nearly 1000 lives as part of her price for Humanity during the World War.

The Adjutant has just received a large number of forms from the Adjutant General's office at Salem, for the purpose of obtaining the Oregon State Medals. The Oregon State Medals are beautiful little articles and well worth the efforts necessary to get one. Service men should bring their Discharges and show them to the Adjutant or Commander who is authorized to fill out and complete all forms. Certain information must be taken from the Discharge in filling out the application.

J. M. Spencer has accepted a position with the Oscar Huber company as an engineer and is now on duty at the Siskiyou Camp. Jim is mighty handy at the sketching game and has a really valuable collection of sketches made while in France and Germany.

The Standard Oil Company has a complete ex-service men crew now in their local plant. Bill Holmes is chief mogul and Steve Erickson and Chick Farlow (John D. Chickafeller) are orienters of the gas disseminators. Henry Pace brings the gas up to them in his big truck and Jean Hastings shows Henry where to get the stuff that makes the autos go and the public pay. Mr. Paton, the superintendent certainly has selected a fine crew of assistants.

The United States returned to Oregon over 1000 wounded men after the war was ended; 200 of these maimed men are permanently and totally disabled.

(Contributed)

Make your plans now for Tuesday, June 7th. On that date the voters of Oregon have an opportunity of paying a debt of gratitude to our boys who shouldered their guns and went overseas in order that America might take her place among the nations of the earth in the struggle for right, so that we might continue to enjoy the libery which has been the ideal of every true American. Some of them never returned. Many

returned broken in health and fortune. Disheartened and handicapped, finding their jobs had been filled in their absence.

The proposed bill provides for a long time loan at a low rate of interest to enable these to purchase their own homes and thus get established and become better citizens.

There is some opposition to the bill. Can our state, Oregon, afford to be the only state to go on record as refusing this gratuity?

Talk it over among your friends and vote—YES—on Tuesday, June seventh.

The charter of the Women's Auxiliary of the American Legion has been received by Adjutant Spencer, who will immediately arrange with the interested ladies of Ashland for a meeting at which the organization will be completed. It develops that to be eligible to membership in the Auxiliary one must have a relative who is a member in good standing in some post of the American Legion or be a relative of some service man who paid the supreme sacrifice.

The number of survivors of the Civil War who will participate in this next Memorial Day in Ashland will consist of two numbers of which the first number will be one. (1) Last year there were many more than there will be this year.

Joy rides and fishing trips are all called off for this Memorial Day. Everybody is expected to attend the ceremonies of the day with the old soldiers, the Relief Corps and the American Legion and Spanish War Veterans and the D. A. R. The Boy Scouts will be very much in evidence as a special escort for the Veterans and the Relief Corps and Auxiliary. By our attendance we hope to show the respect that we say we have for the memory of our most Honored Dead.

A private in the service received (or was supposed to) $30 per month salary. A compulsory allotment to some member of his family of $15 per month. If he subscribed for Liberty Bonds and most of them did) there was deducted $5 per month for each $50 bond bought. After that came the Insurance. He subscribed for $10,000 insurance. For that there was deducted $6.70 per month. How much did the private in the United States Army actually get? Doesn't it figure out that he got about 11 cents a day? It isn't so? Ask ANY BUCK private who was there.

There were 34,500 men under arms in the World War who came from OREGON. Their average service was 10 months each. If you figure that the Average wage that they would have received had they stayed at home was $1000 per month they would have received $34,500,-660.00 in those same 10 months. But they only received $10,350,000, so they actually out $24,150,000. Figure it out yourself.

During the drive for the sale of the Second Liberty Loan, the soldiers at Port Stevens, Oregon, subscribed for $151,000 of Second Issue of the Liberty Loan. The enlisted men nof one company bought $11,000 worth.

The Memorial Monument has been set into place and the finishing touches are being applied. The money is not yet raised for it. A little over $200 is still needed. Would the children of Ashland like to help build this monument by giving a penny a piece toward it? How many pennies would that make?

And if a nickle was given by each person in Ashland, how many nickles would that make? A nickle is not very big itself.

"Flashes of Action" have proved to be a very interesting display of war pictures and it is certainly an opportunity that the people of Ashland have in seeing close-up some of the things that their boys went through.
