VEILS ARE WORN IN PARIS

Face Coverings Important and Many of the Smartest Hats Are Draped With Mesh.

At the moment in Paris, veils are extremely important, and many of the smartest hats depend almost entirely on the placement of their veil for chic. In consequence, veiling houses are making novelties that are interesting. One of the most striking has the shape of a semi-circle, to be worn round the front of the hat, veiling the eyes and sometimes the mouth. Another is square-shaped, with a long end at one corner that is supposed to fall from the side of the hat; and others are various shapes, with ends or tails to be draped from the hat, all of them embroidered mesh. One small circular veil is plain mesh with its edge finished by a triangular border made of heavier cord mesh, and one longer triangle, about six inches long, to fall over one side of the hat. An Egyptian veil of flit mesh with embroidered chiffon border is caught under the chin. The mesh is in such shades as castor, brown or black, with the chiffon border of pale pink or white chiffon.
