The lamb thy riot dooms to death today.
 Had he thy reason, would he skip and play?
 Pleased L. the East, he crops the flowery food,
 And licks the hard just raised to spill his blood.—"Epe."

The hope of formal peace as between the United States and the central powers lightens. High time indeed. The long delay in this ever was a subject for apology. The peace should have been made long ago.

Nothing worth while in human achievement is attained without indefatigable labor. There is no substitute for hard work in worth-while accomplishment. There is no royal or easy road to the heights of useful and successful attainment.

The Pacific coast is coming along famously in economic recovery. The truth is, there has not been much need of recovery in this section—there has not been deep and widespread depression from which to recover.

If General Dawes finds he can not swear by the new budget system, he will swear at it.

Teacher Returns—

Miss Agnes Danford arrived here Saturday night after an absence of three years in Alaska. Miss Danford has been teaching in the Aleutian Islands, where she liked her work, but a hankering for fresh fruit and vegetables brought her home to Ashland.

Miss Danford had a smooth trip on the water, lasting a week. She came down on the U. S. N. Saturn, accompanied by her two assistant teachers, Miss Reta Gard, formerly of Ashland, and Miss Johanna Miller of Seattle. Owing to the seamen's strike all commercial boats were tied up in Seattle, and it was only through good fortune and the kindness of government officials that the teachers obtained passage on the Saturn.
