General Passenger Agent.

Instruction, regular draining and cleaning of the crankcase.

This is necessary because engine operation causes' road dust, carbon, fine metal particles and other impurities to accumulate in your crankcase oil. This gritty oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

Cleaning Service has been established by ciency of fresh oil used. The cleaned crankfirst-class garages and other dealers, co- case is refilled with the correct grade of operating with the Standard Oil Company. Zerolene. These garages and dealers use Calol Flushing Oil,—the scientific agent that cleans out old oil, dirt, grit and other impurities,

To meet this need, Modern Crankcase and does not impair the lubricating offi-

the sign shown above -- It means

Look for the garage or dealer displaying operation and longer engine life."

STANDARD OIL COMPANY
